

Exhibit No. 12Date 1/14/2011Bill No. SB2

Dear Montana Law Makers,

My name is Brigit Lieberg and I am in support of Senate Bill 2- Sealants for Montana Kids. I am First Grade teacher and have seen first-hand the positive impact Senate Bill 2 would have on our community and state. I work with students from various socio-economic backgrounds on a daily basis and see how each student could benefit from this bill.

The other day, when I was working one on one with students at my desk, a SB2 flyer caught the attention of a student and a classroom discussion ensued. My students became instantly excited by the prospect of dental care. My students were especially thrilled to think that a dental hygienist would come to their second grade classroom. One of my students was particularly impressed. She raised her hand and said, "Wow! That would be great because my mom can't get off work to take me to the Doctor." Another student asked if he had to be 18 to vote for the bill. Despite the disappointment suffered from not being old enough to vote, my class decided that they would like to have their voice heard. By signing the attached piece of paper (in pen!), my students are hoping that you will see how important this issue is and that you will take their feelings into consideration. Thank you for your time.

Sincerely,

Brigit R. Lieberg
