(a) the other state's license standards at the time of application to this state are substantially equivalent to or greater than the standards in this state; and

1 (b) there is no reason to deny the license under the laws of this state governing the profession or

3 (2) The license may ~~not be issued until the board receives~~ if the applicant affirms or states in the
4 application that the applicant has requested verification from the state or states in which the person is licensed
5 that the person is currently licensed and is not subject to pending charges or final disciplinary action for
6 unprofessional conduct or impairment. If the board or its screening panel finds reasonable cause to believe that
7 the applicant falsely affirmed or stated that the applicant has requested verification from the other state or states,
8 the board may summarily suspend the license pending further action to discipline or revoke the license.

9 (3) This section does not prevent a board from entering into a reciprocity agreement with the licensing

11 by reciprocity within this state if the license applicant has not met standards that are substantially equivalent to
12 or greater than the standards required in this state as determined by the board on a case-by-case basis."

21 in which the person is licensed that the person is currently licensed and is not subject to pending charges or final
22 disciplinary action for unprofessional conduct or impairment. If the board or its screening panel finds reasonable
23 cause to believe that the applicant falsely affirmed or stated that the applicant has requested verification from the
24 other state or states, the board may summarily suspend the license pending further action to discipline or revoke
25 the license.

26 (2) A board may issue a temporary practice permit to a person seeking licensure in this state who has

26 **Section 5.** Section 37-4-101, MCA, is amended to read:

27 **"37-4-101. Definitions -- practice of dentistry.** (1) Unless the context requires otherwise, in this
28 chapter, the following definitions apply:

29 (a) "Board" means the board of dentistry provided for in 2-15-1732.

30 ~~(b) "Conscious sedation" means a minimally depressed level of consciousness in which the patient~~

1 breathes normally without assistance, retains protective reflexes, and responds to physical stimulation or verbal
 2 command in a manner appropriate to the patient's cognitive level. Conscious sedation is not a form of general
 3 anesthesia, and brief interludes of unconsciousness during conscious sedation do not bring conscious sedation
 4 within the scope of general anesthesia.

5 (b) "Deep sedation" means a drug-induced depression of consciousness during which patients cannot
 6 be easily aroused but respond purposefully following repeated or painful stimulation. The ability to independently
 7 maintain ventilatory function may be impaired. Patients may require assistance in maintaining a patent airway,
 8 and spontaneous ventilation may be inadequate. Cardiovascular function is usually maintained.

9 (c) "Department" means the department of labor and industry provided for in Title 2, chapter 15, part 17.

10 (d) "General anesthesia" means a state of unconsciousness intentionally produced by anesthetic agents,
 11 with absence of pain sensation over the entire body and a greater or lesser degree of muscular relaxation. The
 12 drugs producing this state can be administered by inhalation, intravenously, intramuscularly, or via the
 13 gastrointestinal tract. General anesthesia is divided into:

14 ~~—— (i) full general anesthesia, which means a level of consciousness in which the patient is without intact~~
 15 ~~protective reflexes, is unable to maintain an airway, and is incapable of rational response to query or command;~~
 16 ~~and~~

17 ~~—— (ii) light general anesthesia, which means a level of consciousness in which the patient breathes normally~~
 18 ~~without assistance and retains protective reflexes throughout most of the procedure. drug-induced loss of~~
 19 ~~consciousness during which patients are not arousable, even by painful stimulation. The ability to independently~~
 20 ~~maintain ventilatory function is often impaired. Patients often require assistance in maintaining a patent airway,~~
 21 ~~and positive pressure ventilation may be required because of depressed spontaneous ventilation or drug-induced~~
 22 ~~depression of neuromuscular function. Cardiovascular function may be impaired.~~

23 ~~—— (e) (i) "General anesthetic" means any recognized anesthetic agent, sedative, hypnotic, tranquilizer, or~~
 24 ~~narcotic used in sufficient prescribed dosages for the purpose of inducing general anesthesia.~~

25 ~~—— (ii) The term does not include a nitrous oxide and oxygen mixture or any other anesthetic administered~~
 26 ~~to produce conscious sedation.~~

27 (2) Except for the provisions of 37-4-104, a person is practicing dentistry under this chapter if the person:

28 (a) performs, attempts, advertises to perform, causes to be performed by the patient or any other person,
 29 or instructs in the performance of dental operations, oral surgery, or dental service of any kind gratuitously or for
 30 a salary, fee, money, or other remuneration paid or to be paid, directly or indirectly, to the person, any other

1 person, or any agency;

10 (f) diagnoses, professes to diagnose, prescribes for, professes to prescribe for, treats, or professes to
11 treat disease, pain, deformity, deficiency, injury, or physical condition of human teeth, jaws, or adjacent structures;

12 (g) extracts or attempts to extract human teeth or corrects, attempts, or professes to correct malpositions
13 of teeth or of the jaw;

14 (h) gives or professes to give interpretations or readings of dental roentgenograms;

20 teeth, jaws, or adjacent structures;
