Description of fiscal impact: This bill would have no impact to the Secretary of State's Office or to the general fund. Montana law already requires special federal elections for unscheduled vacancies in the office of U.S. Representative. This bill would require that unscheduled vacancies in the office of U.S. Senate follow the exact same procedure, thus eliminating a gubernatorial appointment.

FISCAL ANALYSIS

Assumptions:

1. There would be no fiscal impact to the state.

Effect on County or Other Local Revenues or Expenditures:

1. In the unlikely event of an unscheduled federal vacancy and a special election, counties would be required to administer and finance the special election. They currently administer and finance all federal elections in Montana. It is estimated that a federal special election would cost roughly \$2.0 million to administer. This cost would be less if Montana adopts a Vote-by-Mail process for federal elections or if the timing were such that the election could be combined with an already scheduled election.
