Bloomfield, MT 59315

Dear Representative Doane,

The Montana Bison Association supports the revised wording of LC1105. 1105 will protect private property rights of landowners across Montana who do not want publicly-owned, free-ranging bison on their land. At the same time, those who choose to raise bison as livestock are offered the same protection of any other livestock producer. Thank you for your consideration.

Sincerely,

Andrew Bardwell
President
Montana Bison Association
