Petition in Opposition to the Forest Jobs and Recreation Act

I am opposed to the Forest Jobs and Recreation Act of 2009 (S268) introduced by Senator Jon Tester of Montana and petition that each member of Congress vote against this Bill at every opportunity, for the following reasons:

- ***All non-wilderness lands must be released to multiple use!***
- ***Local government must be involved from the beginning!***
- ***Local government was excluded from the process.***
- ***Coordination with local government must be maintained throughout all planning activities!***
- ***All resources are not addressed in the legislation!***
- ***The Act will not create any lasting, meaningful jobs!***
- ***The Act will not provide multiple use recreation!***
- ***The Act will not protect private property!***
- ***The Bill was created behind closed doors! The public was left in the dark.***
- ***There is no need for the additional 1.1million acres of designated and de-facto wilderness in this Bill The 107 million acres of existing wilderness, representing over 50% of the National Forests is more than sufficient. That acreage is larger than the entire states of California, New Jersey, Rhode Island, and the District of Columbia***

Honorable Senator Jon Tester
724 Hart Senate Office Building
Washington D.C. 20510-2604

11/1/2009

Dear Senator Tester,

I do not support S1470, the legislation you have presented to the Senate Energy and Natural Resource committee for the following reasons.

1. This legislation violates both federal law and our U.S. Constitution.
2. Access for the elderly, very young, physically challenged, will be lost forever in almost one third of the Beaverhead Deerlodge National Forest.
3. Access for search and rescue, weed control, fire suppression, timber and resource management will no longer be an option in wilderness areas.
4. The identified wilderness areas in your bill contain over 200,000 acres of in-holdings that have not been addressed.
5. You have not identified any of the precious mineral resources that will be placed off limits forever to the American citizens.
6. You have refused to consider the economic impact of this bill to local governments and communities.
7. You have refused to allow any public testimony or comment during any of the four meetings you held in Montana to present this legislation.
8. Over 70% of the funding for your election came from out of state and S1470 is your way of paying these contributors back.

The *majority of Montana citizens do not support additional wilderness* and I respectfully urge you to reconsider your position of forcing S1470 down our throats.

The below list signed petitions that were sent to Sen. Tester

Petition in Opposition to the Forest Jobs and Recreation Act

I am opposed to the Forest Jobs and Recreation Act of 2009 (S1470) introduced by Senator Jon Tester of Montana and petition that each member of Congress vote against this Bill at every opportunity, for the following reasons:

- ***All non-wilderness lands must be released to multiple use!***
- ***Local government must be involved from the beginning! Local government was excluded from the process.***
- ***Coordination with local government must be maintained throughout all planning activities!***
- ***All resources are not addressed in the legislation!***
- ***The Act will not create any lasting, meaningful jobs!***
- ***The Act will not provide multiple use recreation!***
- ***The Act will not protect private property!***
- ***The Bill was created behind closed doors! The public was left in the dark.***
- ***There is no need for the additional 1.1million acres of designated and de-facto wilderness in this Bill The 107 million acres of existing wilderness, representing over 50% of the National Forests is more than sufficient. That acreage is larger than the entire states of California, New Jersey, Rhode Island, and the District of Columbia***

Petition in Opposition to the Forest Jobs and Recreation Act

I am opposed to the Forest Jobs and Recreation Act of 2009 (S1470) introduced by Senator Jon Tester of Montana and petition that each member of Congress vote against this Bill at every opportunity, for the following reasons:

- ***All non-wilderness lands must be released to multiple use!***
- ***Local government must be involved from the beginning! Local government was excluded from the process.***
- ***Coordination with local government must be maintained throughout all planning activities!***
- ***All resources are not addressed in the legislation!***
- ***The Act will not create any lasting, meaningful jobs!***
- ***The Act will not provide multiple use recreation!***
- ***The Act will not protect private property!***
- ***The Bill was created behind closed doors! The public was left in the dark.***
- ***There is no need for the additional 1.1million acres of designated and de-facto wilderness in this Bill The 107 million acres of existing wilderness, representing over 50% of the National Forests is more than sufficient. That acreage is larger than the entire states of California, New Jersey, Rhode Island, and the District of Columbia***

S1470 FOREST JOBS AND RESTORATION ACT OF 2009 PETITION

We, the undersigned citizens of the Great State of Montana, voice our **Opposition** to S1470. We object to this bill that purports *"To sustain the economic development and recreational use of National Forest land and other public land in the State of Montana, to add certain land to the National Wilderness Preservation System, to release certain wilderness study areas, to designate new areas for recreation, and for other purposes.*

WE object, due in part to:

- 598,000 new acres of No Use (i.e. Wilderness)
- The development of this bill behind closed doors, with selected participants in violation of Federal Coordination laws.
- To *green jobs* of restoration logging; these are temporary jobs.
- To eliminating and restricting recreation (i.e. "restricting snowmobiles to designated trails in existence as of July 16, 2009" (bill text pg. 64), no new outfitter/guide permits in the new wilderness areas).
- Placing valuable mineral reserves off limits.
- Restricting and eliminating grazing leases/permits.

WE support a sustainable Montana economy and WE support active management of Federally Managed Lands. WE are the citizens who live, work, recreate, vote and pay taxes in Montana:

Petition in Opposition to the Forest Jobs and Recreation Act

I am opposed to the Forest Jobs and Recreation Act of 2009 (S268) introduced by Senator Jon Tester of Montana and petition that each member of Congress vote against this Bill at every opportunity, for the following reasons:

- ***All non-wilderness lands must be released to multiple use!***
- ***Local government must be involved from the beginning! Local government was excluded from the process.***
- ***Coordination with local government must be maintained throughout all planning activities!***
- ***All resources are not addressed in the legislation!***
- ***The Act will not create any lasting, meaningful jobs!***
- ***The Act will not provide multiple use recreation!***
- ***The Act will not protect private property!***
- ***The Bill was created behind closed doors! The public was left in the dark.***
- ***There is no need for the additional 1.1million acres of designated and de-facto wilderness in this Bill The 107 million acres of existing wilderness, representing over 50% of the National Forests is more than sufficient. That acreage is larger than the entire states of California, New Jersey, Rhode Island, and the District of Columbia***

Petition in Opposition to the Forest Jobs and Recreation Act

I am opposed to the Forest Jobs and Recreation Act of 2009 (S268) introduced by Senator Jon Tester of Montana and petition that each member of Congress vote against this Bill at every opportunity, for the following reasons:

- ***All non-wilderness lands must be released to multiple use!***
- ***Local government must be involved from the beginning! Local government was excluded from the process.***
- ***Coordination with local government must be maintained throughout all planning activities!***
- ***All resources are not addressed in the legislation!***
- ***The Act will not create any lasting, meaningful jobs!***
- ***The Act will not provide multiple use recreation!***
- ***The Act will not protect private property!***
- ***The Bill was created behind closed doors! The public was left in the dark.***
- ***There is no need for the additional 1.1million acres of designated and de-facto wilderness in this Bill The 107 million acres of existing wilderness, representing over 50% of the National Forests is more than sufficient. That acreage is larger than the entire states of California, New Jersey, Rhode Island, and the District of Columbia***

S1470 FOREST JOBS AND RESTORATION ACT OF 2009 PETITION

We, the undersigned citizens of the Great State of Montana, voice our **Opposition** to S1470. We object to this bill that purports *"To sustain the economic development and recreational use of National Forest land and other public land in the State of Montana, to add certain land to the National Wilderness Preservation System, to release certain wilderness study areas, to designate new areas for recreation, and for other purposes.*

WE object, due in part to:

- 598,000 new acres of No Use (i.e. Wilderness)
- The development of this bill behind closed doors, with selected participants in violation of Federal Coordination laws.
- To *green jobs* of restoration logging; these are temporary jobs.
- To eliminating and restricting recreation (i.e. "restricting snowmobiles to designated trails in existence as of July 16, 2009" (bill text pg. 64), no new outfitter/guide permits in the new wilderness areas).
- Placing valuable mineral reserves off limits.
- Restricting and eliminating grazing leases/permits.

WE support a sustainable Montana economy and WE support active management of Federally Managed Lands. WE are the citizens who live, work, recreate, vote and pay taxes in Montana:

Petition in Opposition to the Forest Jobs and Recreation Act

I am opposed to the Forest Jobs and Recreation Act of 2009 (S1470) introduced by Senator Jon Tester of Montana and petition that each member of Congress vote against this Bill at every opportunity, for the following reasons:

- ***All non-wilderness lands must be released to multiple use!***
- ***Local government must be involved from the beginning! Local government was excluded from the process.***
- ***Coordination with local government must be maintained throughout all planning activities!***
- ***All resources are not addressed in the legislation!***
- ***The Act will not create any lasting, meaningful jobs!***
- ***The Act will not provide multiple use recreation!***
- ***The Act will not protect private property!***
- ***The Bill was created behind closed doors! The public was left in the dark.***
- ***There is no need for the additional 1.1million acres of designated and de-facto wilderness in this Bill The 107 million acres of existing wilderness, representing over 50% of the National Forests is more than sufficient. That acreage is larger than the entire states of California, New Jersey, Rhode Island, and the District of Columbia***

Petition Against Forest Jobs and Recreation Act (FJRA) Authored by Senator Tester

Petition summary and background	FJRA – Wilderness is expanded with no guarantees for Timber production or Recreation access. The likely result would be additional Wilderness with the Timber & Recreational pieces being tied up for years in the courts.
Action petitioned	We, the undersigned, oppose FJRA. Lincoln County Commissioner Ron Downey seeks your support in blocking this legislation.

Printed Name	Signature	Address	Comment	Date

Petition Against Forest Jobs and Recreation Act (FJRA) Authored by Senator Tester

Petition summary and background	**FJRA – Wilderness is expanded with no guarantees for Timber production or Recreation access. The likely result would be additional Wilderness with the Timber & Recreational pieces being tied up for years in the courts.**
Action petitioned	**We, the undersigned, oppose FJRA. Lincoln County Commissioner Ron Downey seeks your support in blocking this legislation.**

Petition Against Forest Jobs and Recreation Act (FJRA) Authored by Senator Tester

	FJRA – Wilderness is expanded with no guarantees for Timber production or Recreation access. The likely result would be additional Wilderness with the Timber & Recreational pieces being tied up for years in the courts.
	We, the undersigned, oppose FJRA. Lincoln County Commissioner Ron Downey seeks your support in blocking this legislation.

Petition Against Forest Jobs and Recreation Act (FJRA) Authored by Senator Tester

Petition summary and background	**FJRA – Wilderness is expanded with no guarantees for Timber production or Recreation access. The likely result would be additional Wilderness with the Timber & Recreational pieces being tied up for years in the courts.**
Action petitioned	**We, the undersigned, oppose FJRA. Lincoln County Commissioner Ron Downey seeks your support in blocking this legislation.**
