HB 147

The Laurel Rod & Gun Club and our 400 plus family members would like to go on record as OPPOSING HB-147.

Montana already has some of most stringent trespass laws on the books and this Legislation appears to want to punish the Montana hunter even further while giving landowners (who already benefit from those tough trespass laws) even more power.

This Legislation seems to be a special interest more than anything. Thank you for your time.
