Insert: "\$750,000"

Explanation: This amendment increases the recommended grant for the City of Glendive wastewater project from \$625,000 to \$750,000. As of the date of the grant application, the City had already adopted an increase in water rates that would result in a combined user rate over 150% of the community's target rate at completion of the project. Therefore, the City is eligible for a \$750,000 grant.

The total appropriation has been updated to reflect the increase in recommended total project grants.
