Save open space-Preserve the UM Golf Course-Expand COT at West Campus

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjoining the current COT on the West Campus, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Save open space-Preserve the UM Golf Course-Expand COT at West Campus

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjoining the current COT on the West Campus, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Save open space-Preserve the UM Golf Course-Expand COT at West Campus

(21)

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjoining the current COT on the West Campus, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Keep Valley Floor Open Space!

Build the College of Technology Elsewhere!

We the undersigned support the construction of a new and larger College of Technology in Missoula, but we believe it is in the best interests of the University and Missoula that the COT be located at a site other than the University of Montana Golf Course, so that it can continue to be used as open space for golfers, hang gliders, cross country runners, girls scouts, cross country skiers and youth sledding, and local wildlife, etc.

Hang Gliding, Parasailing, Winter Sports, Golf

Cross Country Meets, Wildlife Habitat, Open Space

Save open space – Preserve the UM Golf Course – Build COT at Fort Missoula

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjacent to the current COT West Campus located near Fort Missoula, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Keep Valley Floor Open Space!

Build the College of Technology Elsewhere!

We the undersigned support the construction of a new and larger College of Technology in Missoula, but we believe it is in the best interests of the University and Missoula that the COT be located at a site other than the University of Montana Golf Course, so that it can continue to be used as open space for golfers, hang gliders, cross country runners, girls scouts, cross country skiers and youth sledding, and local wildlife, etc.

Hang Gliding, Parasailing, Winter Sports, Golf

Cross Country Meets, Wildlife Habitat, Open Space

Keep Valley Floor Open Space!

Build the College of Technology Elsewhere!

We the undersigned support the construction of a new and larger College of Technology in Missoula, but we believe it is in the best interests of the University and Missoula that the COT be located at a site other than the University of Montana Golf Course, so that it can continue to be used as open space for golfers, hang gliders, cross country runners, girls scouts, cross country skiers and youth sledding, and local wildlife, etc.

Hang Gliding, Parasailing, Winter Sports, Golf

Cross Country Meets, Wildlife Habitat, Open Space

Save open space – Preserve the UM Golf Course – Build COT at Fort Missoula

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjacent to the current COT West Campus located near Fort Missoula, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. Save open space – Preserve the UM Golf Course – Build COT at Fort Missoula

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjacent to the current COT West Campus located near Fort Missoula, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Keep Valley Floor Open Space!

Build the College of Technology Elsewhere!

We the undersigned support the construction of a new and larger College of Technology in Missoula, but we believe it is in the best interests of the University and Missoula that the COT be located at a site other than the University of Montana Golf Course, so that it can continue to be used as open space for golfers, hang gliders, cross country runners, girls scouts, cross country skiers and youth sledding, and local wildlife, etc.

Hang Gliding, Parasailing, Winter Sports, Golf

Cross Country Meets, Wildlife Habitat, Open Space

Save open space – Preserve the UM Golf Course – Build COT at Fort Missoula

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjacent to the current COT West Campus located near Fort Missoula, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. Keep Valley Floor Open Space!

Build the College of Technology Elsewhere!

We the undersigned support the construction of a new and larger College of Technology in Missoula, but we believe it is in the best interests of the University and Missoula that the COT be located at a site other than the University of Montana Golf Course, so that it can continue to be used as open space for golfers, hang gliders, cross country runners, girls scouts, cross country skiers and youth sledding, and local wildlife, etc.

Save open space – Preserve the UM Golf Course – Build COT at Fort Missoula

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjacent to the current COT West Campus located near Fort Missoula, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Save open space-Preserve the UM Golf Course-Expand COT at West Campus

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjoining the current COT on the West Campus, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Save open space-Preserve the UM Golf Course-Expand COT at West Campus

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjoining the current COT on the West Campus, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Save open space-Preserve the UM Golf Course-Expand COT at West Campus

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjoining the current COT on the West Campus, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Save open space-Preserve the UM Golf Course-Expand COT at West Campus

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjoining the current COT on the West Campus, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Save open space-Preserve the UM Golf Course-Expand COT at West Campus

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjoining the current COT on the West Campus, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Save open space-Preserve the UM Golf Course-Expand COT at West Campus

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjoining the current COT on the West Campus, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Save open space-Preserve the UM Golf Course-Expand COT at West Campus

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjoining the current COT on the West Campus, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Save open space-Preserve the UM Golf Course-Expand COT at West Campus

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjoining the current COT on the West Campus, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Save open space-Preserve the UM Golf Course-Expand COT at West Campus

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjoining the current COT on the West Campus, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info

Save open space – Preserve the UM Golf Course – Build COT at Fort Missoula

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjacent to the current COT West Campus located near Fort Missoula, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. Save open space – Preserve the UM Golf Course – Build COT at Fort Missoula

We the undersigned believe it is in the best interest of the University of Montana, the College of Technology (COT), and Missoula residents to preserve for future generations the UM Golf Course as recreational open space as it has been since 1916. Further, we strongly support the construction of a new COT campus adjacent to the current COT West Campus ~~located near Fort Missoula~~, using all or part of the 2005 plans paid for by taxpayers, with modifications to suit current COT needs. For more information type into your browser http://saveopen.info
