

February 7, 2013

To: Members of the Senate Local Government Committee

I urge you to support Senate Bill 235, the pharmacy audit integrity act. Senate Bill 235 starts to provide some protections for Montana pharmacies against unfair audit practices by PBM's.

As a pharmacist in Montana, I strive to provide error free prescriptions to my customers while following all state and federal laws. I work closely with the medical community to make sure the prescriptions I provide are in the best interest of my patient's health and wellbeing.

Unfortunately, the PBM's are generally not worried about the best interest or the health of my customers. They are worried about their bottom line and will often use unfair audit practices to take back money even after I have followed all federal and state laws.

Senate Bill 235 would set reasonable standards for uniform audit procedures on pharmacy claims. Currently, no oversight or procedural requirements are in place in Montana. I believe pharmacy audits are necessary to prevent fraud; but, they should be performed in a fair manner and not be designed to simply take back money.

Please vote yes on Senate Bill 235 to help set fair and reasonable standards for pharmacy audits.

Thank you,

Unfortunately, the PBM's are generally not worried about the best interest or the health of my customers. They are worried about their bottom line and will often use unfair audit practices to take back money even after I have followed all federal and state laws.

Senate Bill 235 would set reasonable standards for uniform audit procedures on pharmacy claims. Currently, no oversight or procedural requirements are in place in Montana. I believe pharmacy audits are necessary to prevent fraud; but, they should be performed in a fair manner and not be designed to simply take back money.

Please vote yes on Senate Bill 235 to help set fair and reasonable standards for pharmacy audits.

Thank you,

To: Members of the Senate Local Government Committee

I urge you to support Senate Bill 235, the pharmacy audit integrity act. Senate Bill 235 starts to provide some protections for Montana pharmacies against unfair audit practices by PBM's.

As a pharmacist in Montana, I strive to provide error free prescriptions to my customers while following all state and federal laws. I work closely with the medical community to make sure the prescriptions I provide are in the best interest of my patient's health and wellbeing.

Unfortunately, the PBM's are generally not worried about the best interest or the health of my customers. They are worried about their bottom line and will often use unfair audit practices to take back money even after I have followed all federal and state laws.

Senate Bill 235 would set reasonable standards for uniform audit procedures on pharmacy claims. Currently, no oversight or procedural requirements are in place in Montana. 135 W. Main St. Address

Hamilton MT 59840

February 7, 2013

To: Members of the Senate Local Government Committee

I urge you to support Senate Bill 235, the pharmacy audit integrity act. Senate Bill 235 starts to provide some protections for Montana pharmacies against unfair audit practices by PBM's.

As a pharmacist in Montana, I strive to provide error free prescriptions to my customers while following all state and federal laws. I work closely with the medical community to make sure the prescriptions I provide are in the best interest of my patient's health and wellbeing.

Unfortunately, the PBM's are generally not worried about the best interest or the health of my customers. They are worried about their bottom line and will often use unfair audit practices to take back money even after I have followed all federal and state laws.

Senate Bill 235 would set reasonable standards for uniform audit procedures on pharmacy claims. Currently, no oversight or procedural requirements are in place in Montana. I believe pharmacy audits are necessary to prevent fraud; but, they should be performed in a fair manner and not be designed to simply take back money.

Please vote yes on Senate Bill 235 to help set fair and reasonable standards for pharmacy audits.

Thank you,

**James A. Willits RPh
Benton Pharmacy
Fort Benton, MT**
