

EXHIBIT NO. 3DATE: 3.6.13BILL NO. HB 239

Chairman Priest, Vice Chairman Murphy and members of the Public Health Welfare and Safety Committee,

I am Christina Hayden, mother of 10 children, 2 attending public schools in Butte.

Please vote Yes on HB 239, to keep abortion providing organizations out of public schools in Montana, and put parents in control of whether or not their children participate in public school sex training. They know and love their children and do teach their own children about growing in virtues that protect them from, in a responsible maturity that prepare them for marriage and family life.

Abortion providing organizations certainly have nothing to teach children about growing in virtue, in a responsible maturity that prepare them for marriage and family life.

Public school teachers and administrators have appropriated this most sacred responsibility of parents to provide education in human love and sexuality. This bill will hold them accountable to parents who wish to delegate any share of their responsibility to the state schools. For having delegated such, parents may be more likely to exercise responsibility for determining what is appropriate for, and what may be taught to their own children. Let the parents decide.

Thank-you for your public service.

Please Vote YES on HB 239
