

AN ACT REQUIRING THAT RATES FOR HEALTH INSURANCE COVERAGE BE FILED WITH THE COMMISSIONER OF INSURANCE FOR REVIEW; PROVIDING STANDARDS FOR REVIEW AND NOTICE OF DEFICIENCY; PROVIDING RULEMAKING AUTHORITY; APPROPRIATING AND AUTHORIZING THE USE OF FUNDS FOR IMPLEMENTATION OF THE REVIEW; AMENDING SECTION 33-31-111, MCA; AND PROVIDING AN EFFECTIVE DATE AND AN APPLICABILITY DATE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

Section 1. Health insurance rates -- filing required -- use. (1) Each health insurance issuer that issues, delivers, or renews individual or small employer group health insurance coverage in the individual or small employer group market shall, at least 60 days before the rate goes into effect, file with the commissioner its rates, fees, dues, and other charges for each product form intended for use in Montana, together with sufficient information to support the premium to be charged as described in [sections 1 through 4]. This filing may be made simultaneously with a notice of premium increase to policyholders and certificate holders required by 33-22-107.

(2) A health insurance issuer may submit a single combined justification for rate increases subject to review affecting multiple products if the claims experience of all products has been aggregated to calculate the rate increases and the rate increases are the same for all products. Rate increases are determined by combining the total amount of increases taken on a single product form or market segment, if the rate increase is the same for all products, over a 12-month period. A market segment means the individual or small group market.

(3) The commissioner may waive the 60-day filing requirement under subsection (1) if the rate increase is implemented pursuant to 33-22-107(1)(b). However, the rates and justifications for the rate increase still must be filed.

(4) The health insurance issuer shall submit a new filing to reflect any material change to the previous rate filing. For all other changes, the insurer shall submit an amendment to a previous rate filing. The insurer may file an actuarial trend to phase in rate increases over a 12-month period. The insurer may file amendments to that trend within the 12-month period.

- (5) The filing of rates for health plans must include:
 - (a) the product form number or numbers and approval date of the product form or forms to which the rate applies;
 - (b) a statement of actuarial justification; and
 - (c) information sufficient to support the rate as described in [section 2].
- (6) The commissioner shall prescribe the form and content of the information required under this section.
- (7) A rate filing required under this section must be submitted by a qualified actuary representing the health insurance issuer. The qualified actuary shall certify in a form prescribed by the commissioner that, to the best of the actuary's knowledge and belief, the rates are not excessive, inadequate, unjustified, or unfairly discriminatory, as described in [section 2], and comply with the applicable provisions of Title 33 and rules adopted pursuant to Title 33.
- (8) The rate filing must be delivered by the national association of insurance commissioners' system for electronic rate and form filing.
- (9) An insurer may use a rate filing under this section 60 days after the date of filing with the commissioner unless the health insurance issuer fails to provide the minimum documentation required in [section 2].
- (10) [Sections 1 through 4] do not apply to coverage consisting solely of excepted benefits as defined in 33-22-140.

Section 2. Standards for review -- notice of deficiency. (1) (a) When reviewing a premium rate filing, the commissioner shall consider whether the proposed premium rate is excessive, inadequate, unjustified, or unfairly discriminatory. Rates may be considered excessive if they cause the premium charged for the health insurance coverage to be unreasonably high in relation to the benefits provided under the coverage. In order to determine if the rate is excessive, the commissioner shall consider whether:

- (i) the assumptions on which the rate increase is based are reasonable; and
 - (ii) one or more of the assumptions is not supported by the evidence.
- (b) Rates may be considered inadequate if the rate is unreasonably low for the coverage provided, and the commissioner may consider if the rate would endanger the solvency of the insurer or disrupt the insurance market in Montana.

(c) A rate increase may be considered unjustified if the health insurance issuer provides data or documentation in connection with the increase that is incomplete, inadequate, or otherwise does not provide a basis upon which the reasonableness of an increase may be determined.

(d) Rates may be considered unfairly discriminatory if they violate 33-18-206, 33-22-526, 49-2-309, or other applicable state laws prohibiting discrimination in health insurance.

(2) In order to determine whether the proposed premium rates for health insurance coverage are not excessive, inadequate, unjustified, or unfairly discriminatory, the commissioner may consider:

(a) the health insurance issuer's financial position, including but not limited to surplus, reserves, and investment savings;

(b) historical and projected administrative costs and medical and hospital expenses, including medical trends;

(c) the historical and projected medical loss ratio;

(d) changes to covered benefits or health plan design, along with actuarial projections concerning cost savings or additional expenses related to those changes;

(e) changes in the health insurance issuer's health care cost containment and quality improvement efforts following the health insurance issuer's last rate filing for the same category of health plan;

(f) product development and startup costs, drug and other benefit costs or expenses, and product age and credibility;

(g) whether the proposed change in the premium rate is necessary to maintain the health insurance issuer's solvency or to maintain rate stability and prevent excessive rate increases in the future;

(h) historical and projected claims experience;

(i) trend projections related to utilization and service or unit cost;

(j) allocation of the overall rate increase to claims and nonclaims costs;

(k) allocation of current and projected premium for each enrollee each month;

(l) the 3-year history of rate increases for the product or group of products associated with the rate increase if the product is 3 years old or older and otherwise any available rate history;

(m) employee and executive compensation data from the health insurance issuer's annual financial statements; and

(n) any other applicable information identified in administrative rules adopted pursuant to Title 33, except

that the administrative rules may not include by reference any provisions of Public Law 111-148 and Public Law 111-152 or any regulations promulgated under those laws.

(3) The commissioner shall review rate filings and, if applicable, shall provide a notice of deficiencies containing detailed reasons describing why the commissioner finds that the proposed premium rate is excessive, inadequate, unjustified, or unfairly discriminatory. The notice must be provided within 60 days of receipt of filing.

(4) Within 30 days after receiving a notice of deficiencies alleging that a proposed rate is excessive, inadequate, unjustified, or unfairly discriminatory, the insurer may amend its rate filing, request reconsideration based upon additional information, or implement the proposed rate, unless the rate is unfairly discriminatory, pursuant to subsection (1)(d).

(5) At the end of the 30-day period described in subsection (4), if the insurer implements a rate that the commissioner has determined to be excessive, inadequate, unjustified, or unfairly discriminatory, the commissioner shall publish the finding on the commissioner's website indicating the commissioner's determination.

Section 3. Trade secret disclosure exemption. The commissioner, upon request by the health insurance issuer, may exempt from disclosure any part of a premium rate filing submitted pursuant to [section 1] that the commissioner determines to contain trade secrets as defined in 30-14-402. The commissioner may not disclose that part of a filing that is subject to a health insurance issuer's request until the commissioner makes a determination under this section. The commissioner shall provide the issuer with 30 days' advance notice of the determination before releasing the information to the public.

Section 4. Rulemaking. The commissioner may adopt rules necessary to implement the provisions of [sections 1 through 4], except that the administrative rules may not include by reference any provisions of Public Law 111-148 and Public Law 111-152 or any regulations promulgated under those laws.
