Senate Bill 107 Testimony by Ron Whitmoyer

Mr. Chairman (Senator Jones/ Senator Brown) and Members of the Committee, for the record, my name is Ron Whitmoyer, and that is spelled (W*H*I*T*M*O*Y*E*R). I am the Superintendent of the East Helena Elementary School District and speaking to you at the request of the East Helena Elementary School District Board of Trustees and my community. Thank you Senator Brown for sponsoring this bill.

SB 107 is brought before you today by a grass roots collection of parents and community members whom you will hear from following me. We are **not** here at the request of any organization or business or state organization, but as a collection of hard working community members asking for an opportunity to assert local control over our schools. This bill is about freedom of choice in a democratic society. The East Helena community is not asking you to approve a new high school, the East Helena community is asking to have the freedom to vote their wishes and their own level of taxation. My community, the East Helena Community, is asking you to return the local control that was taken away in 1993.

East Helena is a proud community where parents of 1,170 students rightfully believe that the school district does exceptionally well academically because of our great teachers and because we know and love our kids. We are saying that schools like Stevensville, Frenchtown, Laurel, and other K-12 schools are doing exceptionally well, and we are asking for the opportunity to be innovative, creative and exemplary in our delivery of an education to our own kids. State level data shows that the East Helena School teachers are doing a great job. We believe we can duplicate that elementary success in a high school where kids excel in academics, technology, and have access to advanced placement and other innovative electives that will enhance their education to be exceptionally well educated to support their futures.

This bill opens opportunities for new jobs and an economic boost to the East Helena community that still suffers from the black cloud associated with an EPA Superfund Site. It has been shown that good schools attract and promote business and jobs. East Helena has 1,800 acres of former Asarco property for sale with prime access to the railroad, interstate and natural resources, and our City Council and community members are working to attract industry and business to our East Helena community. A new high school would mean more jobs too, but this issue is not about these future concerns. They are totally irrelevant without your permission to even be allowed to consider if we want to go to these lengths for our kids.

My community has told me, and our School Board, that getting permission to decide for ourselves is what they want us to do. As one of their representatives I am requesting that you seriously consider this bill to allow the people I serve the right to vote on the needs of their own kids. I am including a petition with nearly 900 signatures collected in our community, a letter of support from Mayor Jamie Schell of the City of East Helena, and a couple of letters from community members and parents in your packet as a reminder of the level of support we have for our request.

I again want to thank Senator Brown for believing in our right to vote and bringing this forward to have the Legislature hear this grassroots request. On behalf of my community, I respectfully request your support in providing the choice afforded to our East Helena Community in this bill.

Senator Taylor Brown
Senate Education and Cultural Resources Committee
PO Box 200500
Helena, MT 59620-0500

Dear Chairman Brown,

The City of East Helena supports Senate Bill 107, "Revise K-12 school district expansion laws".

One of the many great assets that the City of East Helena has is our school district. We are all very proud of every aspect of our local East Helena School District (EHSD), and the number of students requesting attendance from outside of this district bears out the quality and integrity of EHSD No. 9. The City and the EHSD work very well together and have a long history of collaboration and coordination.

The City of East Helena believes that the current law, which mandates that a K-8 district cannot expand into a K-12 district, suppresses the rights of local school boards with input from the citizens in the district, to ultimately decide on their own expansion. We believe that the local school district and the people within the district should be given the opportunity to decide on expanding their own district and determine if a high school is what is best for our children.

A late 2014 public opinion poll by the Montana Public Education Center (MPEC), a joint initiative of a consortium including the MEA-MFT, the Montana Quality Education Coalition, and the Montana School Boards Association, have several relevant questions that must be considered when determining who should decide to expand a K-8 district to a K-12 district. (see attached, all slides available at www.mt-pec.org)

In this MPEC poll, when asked which public officials are most trusted when it comes to deciding what is best academically for students in Montana's public schools, Montana voters chose "Local Elected School Boards" with 27.1% of the total poll question vote, second only to "Classroom Teachers".

In another question in the MPEC poll, when asked if state and federal mandates are too burdensome, Montana voters opined that mandates are "Too Burdensome" garnering 57.4% of the poll vote.

The City of East Helena strongly believes that our local school district board of trustees with the opinions and advice of the district community members should decide on whether to expand our school district and potentially move forward with adding a new high school.

Please support local community involvement and please support SB107.

Sincerely,

James Schell
City of East Helena Mayor

Written Testimony in Support of SB 107

January 19, 2015

Dear Chairman Brown and members of the Education and Cultural Resources Committee:

My name is Jennifer Wagner. My family and I are residents of Helena, MT. Please accept this letter as my testimony in support of SB 107. Regretfully, due to work commitments I am unable to attend today's hearing in person.

We chose to enroll our son in the East Helena Public Schools via out of district enrollment. The option to have our children in a small school up through the 8th grade appealed to us and we have a hope that our children can be there through their whole high school career. To say this was the best decision we've made for our son, who started Kindergarten in September, is not an exaggeration. The care, the effort, the culture, and quality of education that comes out of the EHPS are beyond compare and I desperately want the option to keep my son there as long as possible.

As you know the focus of SB 107 is to provide local control. As a parent of an East Helena Public Schools student I can visualize the opportunities that passing this legislation may enable. Opportunities such as:

- The attention and care of a small school;
- A school who has a proven and successful culture of putting the children's needs first;
- Continuity of culture which makes for more successful transitions;
- Familiarity of students that need extra attention or needs;
- To continue in a community that cares and can provide for their children.

I am a firm believer answering "What would be best for the children" is the only way to make decisions regarding their education. That really should be the only goal; if it isn't then we do a major disservice to the people most precious in our life.

I encourage you to keep at the forefront of your decision what this legislation is for. It's not a decision to break ground tomorrow on a high school in East Helena, Lockwood, or the Hellgate area. It is for the freedom for our local communities to vote and make decisions on what is best for our children.

Your time and thought is very much appreciated on this piece of legislation that could impact the education and success of so many children.

Jennifer Wagner

Darrell Wagner

To Whom It May Concern,

My name is Nancy Steward and my sons currently attend East Helena Public Schools attending grades Kindergarten and second grade. I am writing this in regards to the consideration of having a high school built in East Helena.

My oldest son is a bright boy with an interesting view on the world. I had huge concerns with him starting school and quite honestly a lot of worry about any potential success. My experience with him in Kindergarten was not at all what I expected or anticipated. What I expected was having multiple conversations with his teacher and the principal on his "lively" view of the world and how to make him be like an "average" child. What I got instead was the best experience I could have ever asked for as a parent. He transitioned into school with ease and with a caring staff that two years later still asks about him and how he is doing. He currently in second grade is doing quite well academically and socially. I could not be more pleased. My second son is not as "lively" and he too is loving school and doing very well.

The reason I tell you this, is my experience tells me the East Helena School District is doing something very very right. Not just with my child but with other children as well. I feel like my children are the center of their world but it appears that each child there is the center of their world. What they are doing is giving each child regardless of financial status, race, religion, backgrounds, not just an opportunity at a great academic foundation but the reality of it. I have never been a big supporter of the No Child Left Behind Act as it felt like no child would go ahead either. Somehow in this district, they work so no child gets left behind but those that can excel also get that opportunity. Their measurement for success is not just a yardstick that measures everyone but each child has their own individual yardstick as well. I do not know precisely where my oldest son measures compared to his whole class but I do know his intelligence is pushed to excel and as a parent who has completed higher education, along with his father/my husband, we want this for both of our sons. We want them to be pushed to the best of their abilities. East Helena is doing that.

I can acknowledge and respect that creating a new high school will make large changes in the existing high schools. As with all change, it can be made for the better or the worst can be found and acted on. If my sons were to attend a smaller high school there is more than likely classes that won't be offered that can be offered in larger schools. This does not mean that education has to be compromised. Education is not just about a class that is offered, but what someone takes out of the class for themselves. Offer all the opportunities you want but if someone doesn't act on it, then the opportunity isn't utilized. What might be a better concern is how to make the classes that are offered of high quality so that students want to learn more. Opportunities to learn are not merely found in a class. Learning can happen in the library, in the garage fixing a car, or from another person who knows how and will teach you because you want to learn. Creating good foundations and a love of learning fosters further learning. The shifts in community and it's structure would probably be difficult but change for the better often takes some work and an element of being uncomfortable.

I would truly love to see a high school built in East Helena and the district given the opportunity to continue what they are already doing so well and so right. My sons both love school and I don't see that stopping in this district. I do realize that a smaller school, and the Helena high schools would become smaller as well, this might provide some limitations in certain areas, like specialty classes and sports, but smaller schools also can provide individualized attention to students. Seeing each student as a person and working with their strengths and weakness helps to create a love of learning and a firm foundation of education. That firm foundation then gives someone a chance to let the sky be the limit of what they can learn.

Thank you for your time.

Sincerely,
Nancy Steward

A Petition respectfully submitted to the Montana Legislature

We, the undersigned citizens of East Helena, hereby respectfully petition the Legislature for the authority to decide under a vote of the East Helena Citizens the appropriate means to educate its students. We request the legislature to amend MCA 20-6-326 to allow East Helena to decide if they want to keep their students in the community and to educate them in a school of their choosing.

A Petition respectfully submitted to the Montana Legislature

We, the undersigned citizens of East Helena, hereby respectfully petition the Legislature for the authority to decide under a vote of the East Helena Citizens the appropriate means to educate its students. We request the legislature to amend MCA 20-6-326 to allow East Helena to decide if they want to keep their students in the community and to educate them in a school of their choosing.

A Petition respectfully submitted to the Montana Legislature

We, the undersigned citizens of East Helena, hereby respectfully petition the Legislature for the authority to decide under a vote of the East Helena Citizens the appropriate means to educate its students. We request the legislature to amend MCA 20-6-326 to allow East Helena to decide if they want to keep their students in the community and to educate them in a school of their choosing.
