**"75-10-743. Orphan share state special revenue account -- reimbursement of claims -- payment of department costs.** (1) There is an orphan share account in the state special revenue fund established in 17-2-102 that is to be administered by the department. Money in the account is available to the department by appropriation and, except as provided in subsections (9), (10), and (11), must be used to reimburse remedial action costs claimed pursuant to 75-10-742 through 75-10-751 and to pay costs incurred by the department in defending the orphan share.

(2) There must be deposited in the orphan share account:

(a) all penalties assessed pursuant to 75-10-750(12);

(b) funds received from the distribution of oil and natural gas production taxes pursuant to 15-36-331;

(c) unencumbered funds remaining in the abandoned mines state special revenue account;

(d) interest income on the account;

(e) funds received from settlements pursuant to 75-10-719(7); and

(f) funds received from reimbursement of the department's orphan share defense costs pursuant to subsection (6).

(3) If the orphan share fund contains sufficient money, valid claims must be reimbursed subsequently in the order in which they were received by the department. If the orphan share fund does not contain sufficient money to reimburse claims for completed remedial actions, a reimbursement may not be made and the orphan share fund, the department, and the state are not liable for making any reimbursement for the costs. The department and the state are not liable for any penalties if the orphan share fund does not contain sufficient money to reimburse claims, and interest may not accrue on outstanding claims.

(4) Except as provided in subsections (6) and (7), claims may not be submitted and remedial action costs may not be reimbursed from the orphan share fund until all remedial actions, except for operation and maintenance, are completed at a facility.

(5) Except as provided in subsection (6), reimbursement from the orphan share fund must be limited to actual documented remedial action costs incurred after the date of a petition provided for in 75-10-745. Reimbursement may not be made for attorney fees, legal costs, or operation and maintenance costs.

(6) (a) The department's costs incurred in defending the orphan share must be paid by the persons participating in the allocation under 75-10-742 through 75-10-751 in proportion to their allocated shares. The orphan share fund is responsible for a portion of the department's costs incurred in defending the orphan share in proportion to the orphan share's allocated share, as

SENATE JOURNAL  
SIXTY-FIFTH LEGISLATIVE DAY - MARCH 28, 2015

follows:

(i) If sufficient funds are available in the orphan share fund, the department's costs incurred in defending the orphan share must be paid from the orphan share fund in proportion to the share of liability allocated to the orphan share.

(ii) If sufficient funds are not available in the orphan share fund, persons participating in the allocation under 75-10-742 through 75-10-751 shall pay all the orphan share's allocated share of the department's costs incurred in defending the orphan share in proportion to each person's allocated share of liability.

(b) A person who pays the orphan share's proportional share of costs has a claim against the orphan share fund and must be reimbursed as provided in subsection (3).

(c) A state agency that is liable for remedial action costs incurred has a claim against the orphan share fund and must be reimbursed as provided in subsection (3). The agency may submit a claim before or after remedial action is complete. Reimbursement may not be made for attorney fees, legal costs, or operation and maintenance costs. The agency may be reimbursed only after:

(i) its liability has been determined pursuant to 75-10-742 through 75-10-751 or by a court of competent jurisdiction;

(ii) it has received a notice letter pursuant to 75-10-711; and

(iii) the department has approved the costs.

(7) (a) If the lead liable person under 75-10-746 presents evidence to the department that the person cannot complete the remedial actions without partial reimbursement and that a delay in reimbursement will cause undue financial hardship on the person, the department may allow the submission of claims and may reimburse the claims prior to the completion of all remedial actions. A person is not eligible for early reimbursement unless the person is in substantial compliance with all department-approved remedial action plans.

(b) The department may reimburse claims from a lead liable person upon completion and department approval of a report evaluating the nature and extent of contamination and a report formulating and evaluating final remediation alternatives. This early reimbursement is limited to those eligible costs incurred by the lead liable person for the preparation of the reports.

(8) A person participating in the allocation process who received funds under the mixed funding pilot program provided for in sections 14 through 20, Chapter 584, Laws of 1995, may not claim or receive reimbursement from the orphan share fund for the amount of funds received under the mixed funding pilot program that are later attributed to the orphan share under the allocation process.

(9) (a) For the biennium beginning July 1, 2005, up to \$1.25 million may be used by the department to pay the costs incurred by the department in contracting for evaluating the extent of contamination and formulating final remediation alternatives for releases at the Kalispell pole and timber, reliance refinery company, and Yale oil corporation facility complex. If the department spends less than \$1.25 million for those purposes, the remaining funds must be spent for remediation of the facility complex. The department may not seek recovery of the \$1.25 million from potentially liable persons.

(b) The money spent pursuant to subsection (9)(a) must be credited against the amount owed by the state agency in a judgment or settlement agreement for payment of the remedial action costs at the facility for which the money was spent.

(10) (a) The department shall transfer from the orphan share account to the long-term or perpetual water treatment permanent trust fund provided for in 82-4-367 \$1.2 million in each fiscal year until the board of investments makes the certification pursuant to subsection (10)(b) of this

SENATE JOURNAL  
SIXTY-FIFTH LEGISLATIVE DAY - MARCH 28, 2015

section.

(b) (i) The board of investments shall monitor the long-term or perpetual water treatment permanent trust fund provided for in 82-4-367 to determine when the amount of money in the long-term or perpetual water treatment permanent trust fund will be sufficient, with future earnings, to provide a fund balance of \$19.3 million on January 1, 2018.

(ii) When the board of investments makes the determination pursuant to subsection (10)(b)(i), the board of investments shall notify the department and certify to the department the amount of money, if any, that must be transferred during the fiscal year in which the board of investments makes its determination pursuant to subsection (10)(b)(i) in order to provide a fund balance of \$19.3 million on January 1, 2018.

(iii) In the fiscal year that the board of investments makes its determination and notifies the department, the department shall transfer only the amount certified by the board of investments, if any, and may not make additional transfers during subsequent fiscal years.

(c) After July 1, 2018, the department shall transfer \$1.2 million in each fiscal year from the orphan share state special revenue account to the environmental quality protection fund provided in 75-10-704.

(11) The orphan share account is subject to legislative fund transfers."

Dear President Barrett:

On Friday, March 27, 2015, I signed and delivered the following Senate bills to the Secretary of State:

**Senate Bill 22** - J. Cohenour

**Senate Bill 97** - C. Vincent

**Senate Bill 105** - E. Arntzen

**Senate Bill 124** - D. Brown

**Senate Bill 131** - D. Kary

**Senate Bill 142** - C. Smith

**Senate Bill 152** - C. Smith

I have vetoed **Senate Bill 114** - Debby Barrett

Sincerely,

STEVE BULLOCK  
Governor

SENATE JOURNAL  
SIXTY-FIFTH LEGISLATIVE DAY - MARCH 28, 2015

March 27, 2015

The Honorable Debby Barrett  
President of the Senate  
State Capitol  
Helena, MT 59620

The Honorable Austin Knudsen  
Speaker of the House  
State Capitol  
Helena, MT 59620

Dear President Barrett and Speaker Knudsen:

In accordance with the power vested in me as Governor by the Constitution and the laws of the State of Montana, I do hereby **veto Senate Bill 114** (SB 114), "AN ACT REVISING THE MONTANA RENEWABLE POWER PRODUCTION AND RURAL ECONOMIC DEVELOPMENT ACT; REVISING THE DEFINITION OF 'ELIGIBLE RENEWABLE RESOURCE' TO INCLUDE EXISTING HYDROELECTRIC RESOURCES; REQUIRING A PUBLIC UTILITY TO REFUND CUSTOMERS FOR THE VALUE OF CERTAIN RENEWABLE ENERGY CREDITS; AMENDING SECTIONS 69-3-2003, 69-3-2004, 69-3-2006, 90-3-1003, AND 90-4-1005, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE AND A RETROACTIVE APPLICABILITY DATE."

SB 114 amends Montana's Renewable Power Production and Rural Economic Development Act, to allow hydropower of any size and vintage to be eligible for the Renewable Portfolio Standard (RPS), which will subvert the RPS and discourage the creation of new clean energy jobs.

Montana's economy is booming, with some of the nation's lowest unemployment. But this is no time to let up, and the RPS has been a strong driver of economic development, especially in rural areas. This is well documented by a recent report from the Legislature's own Energy and Telecommunications Interim Committee, which conducted a thorough review of Montana's RPS (*Renewables: Rewards and Risks*, September 2014) (RPS Study).

SB 114 would completely defeat the purpose of the RPS by expanding the definition of resources eligible to meet renewable energy standards to include existing hydropower. Hydroelectric facilities have been an enduring and important part of Montana's energy system and hydroelectricity is clean and renewable. But adding hundreds of megawatts of existing hydropower to the RPS will not create new jobs, and will undercut all incentives for future renewable projects that *would* create new jobs or tax revenues.

During the 2013 legislative session, I worked with the Legislature to strike an appropriate balance between our existing hydroelectric dams and the job-creating provisions of the RPS. We amended the RPS to include capacity expansions at those existing dams, recognizing that those projects would create new jobs and tax revenues. I see no reason to alter this balance.

SB 114 provides that if a utility uses its existing hydropower to meet Montana's RPS and then

SENATE JOURNAL  
SIXTY-FIFTH LEGISLATIVE DAY - MARCH 28, 2015

chooses to sell its other certified renewable credits on the market for compliance with renewable energy standards in other states, the utility is "required" to credit the proceeds from those sales against electric rates.

This gimmick, while appealing on its face, fails for two reasons: first, nothing in SB 114 requires the utility to see its certified credits, so any positive outcome for ratepayers is far from certain; second, existing hydropower is generally not eligible for renewable credit in other states, so those states would see this as a sleight of hand designed to subsidize Montana at their expense -- with the end result that Montana's legitimate renewable credits are devalued.

Losing the tangible generous economic benefits of the RPS for a scheme that depends on the ignorance of other states to succeed is a poor trade off.

The Legislature's own recent RPS Study not only found that Montana's RPS resulted in positive economic benefits and had a "negligible impact on ratepayers," it also concluded that the 15 percent standard should not be reduced or increased. Yet the effect of SB 114 is to reduce, and even do away with, the 15 percent standard.

For these reasons, I veto SB 114.

Sincerely,

STEVE BULLOCK  
Governor
