(b) A license is not required for a person who:

(i) distributes only pet food or specialty pet food; or

(ii) manufactures pet treats as defined in [section 1(21)(b)] whose total annual sales do not exceed \$25,000.

The substances or elements guaranteed must be determinable by laboratory methods such as the methods published by AOAC international.

Pet treats as defined in [section 1(21)(b)] are exempt from the guaranteed analysis requirement of this subsection (1)(c).

(d) the common or usual name of each ingredient used in the manufacture of the commercial feed. The department by rule may permit the use of a collective term for a group of ingredients that perform a similar function, or it may exempt commercial feeds or any group of them from this requirement of an ingredient statement if it finds that the statement is not required in the interest of consumers.

(e) the name and principal mailing address of the manufacturer, the person responsible for distributing the commercial feed, or the guarantor;

(f) adequate directions for use for all commercial feeds containing drugs. The department may by rule require directions for the use of other commercial feeds when necessary for their safe and effective use.

(2) A customer formula feed must be accompanied by a label, invoice, delivery slip, or other shipping document containing:

- (a) the name and address of the manufacturer or guarantor;

(e) adequate directions for use for all customer formula feed containing drugs. The department may by rule require directions for the use of other customer formula feeds when necessary for their safe and effective use.

(f) precautionary statements that the department by rule determines are necessary for safe and effective

use of the feeds;

(g) in cases when a drug-containing product is used in a customer formula feed:

(i) the purpose of the drug in the form of a claim statement; and

(ii) the established name of each active drug ingredient and the level of each drug used in the final mixture, expressed in accordance with the association of American feed control officials model feed regulations, as published in that organization's official publication and adopted by department rule."

Section 4. Section 80-9-206, MCA, is amended to read:

"80-9-206. Inspection fees -- filing of annual statement. (1) An inspection fee must be paid on all commercial feeds, including customer formula feeds, except pet foods, ~~and~~ specialty pet foods, and pet treats, distributed in this state as follows:

(a) (i) For commercial feed distributed into this state, the supplier has primary responsibility for paying inspection fees. However, the manufacturer is responsible for inspection fees if the supplier has not paid them.

(ii) For commercial feed distributed in this state, the manufacturer or guarantor are responsible for paying inspection fees.

(b) Except as otherwise provided in this subsection (1)(b), the inspection fee is 18 cents a ton. Inspection fees must be paid on each commercial feed, including customer formula feeds and feed ingredients that are defined as commercial feeds even though they are used in the manufacture of other commercial feeds. However, premixes prepared and used within a feed plant or transferred from one plant to another within the same organization are exempt. The department may by rule adjust the inspection fee to maintain adequate funding for the administration of this part. The fee may not be less than 18 cents a ton or more than 25 cents a ton.

(c) A person producing a commercial feed with a feed mixing plant at a feed lot or a poultry, swine, or dairy operation may not be required to pay inspection fees on the commercial feeds produced and used in the feeding operation at the site but is responsible for inspection fees on any commercial feed that person produces and distributes other than in that person's feeding operations at the site.

(d) Fees must be paid only if they total more than \$5 in an annual reporting period.

(2) Each in-state guarantor or manufacturer who distributes commercial feed in this state and each supplier who distributes commercial feed into this state shall:

(a) file, not later than January 31 of each year, an annual statement setting forth the number of tons of

commercial feeds distributed in this state during the preceding calendar year and, upon filing the statement, shall pay the inspection fee. Inspection fees that have not been remitted to the department on or before January 31 have a penalty fee of 10% or a minimum of \$25, whichever is more, added to the amount due. The assessment of this penalty fee does not prevent the department from taking other action as provided in this chapter.

(b) keep those records that are necessary or are required by the department to indicate accurately the tonnage of commercial feed distributed in this state. The department may examine the records to verify statements of tonnage.

(c) make accurate and prompt reports as required. Failure to do so is sufficient cause for the department to cancel or refuse to reissue a license.

(3) A pet food or specialty pet food manufacturer, guarantor, or supplier or other person distributing pet food or specialty pet food is exempt from the reporting requirements of subsection (2)."
