income from the raising of agricultural products produced by the land; or

(B) the parcels would have met the qualification set out in subsection (1)(b)(i)(A) were it not for independent, intervening causes of production failure beyond the control of the producer or a marketing delay for economic advantage, in which case proof of qualification in a prior year will suffice.

(ii) Noncontiguous parcels of land that meet the income requirement of subsection (1)(b)(i) are eligible for valuation, assessment, and taxation as agricultural land under subsection (1)(b)(i) if:

(B) rental payments made under the federal conservation reserve program or a successor to that program;

(ii) land that is devoted to residential use or that is used for agricultural buildings and is included in or is contiguous to land under the same ownership that is classified as agricultural land, other than nonqualified agricultural land described in 15-6-133(1)(c), must be classified as agricultural land, and the land must be valued as provided in 15-7-206.

(3) For grazing land to be eligible for classification as agricultural land under subsections (1)(b) and (2), the land must be capable of sustaining a minimum number of animal unit months of carrying capacity. The minimum number of animal unit months of carrying capacity must equate to \$1,500 in annual gross income as determined by the Montana state university-Bozeman ~~department of agricultural economics and economics college of agriculture.~~
