

HOUSE BILL NO. 2

INTRODUCED BY D. LEWIS

BY REQUEST OF THE OFFICE OF BUDGET AND PROGRAM PLANNING

A BILL FOR AN ACT ENTITLED: "AN ACT AMENDING THE GENERAL APPROPRIATIONS ACT OF 2001; AMENDING SECTIONS 2, 7, 10, AND 16, CHAPTER 572, LAWS OF 2001; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

(Refer to Introduced Bill)

Strike everything after the enacting clause and insert:

Section 1. Chapter 572, Laws of 2001, is amended to read:

"Section 1. Short title. [This act] may be cited as "The General Appropriations Act of 2001".

Section 2. First level expenditures. The agency and program appropriation tables in the legislative fiscal analyst narrative accompanying ~~this bill~~ CHAPTER 572, LAWS OF 2001, showing first level expenditures and CHANGES IN [THIS ACT] TO funding for the 2003 biennium, are adopted as legislative intent.

Section 3. Severability. If any section, subsection, sentence, clause, or phrase of [this act] is for any reason held unconstitutional, the decision does not affect the validity of the remaining portions of [this act].

Section 4. Appropriation control. An appropriation item designated as "Biennial" may be spent in either year of the biennium. An appropriation item designated "Restricted" may be used during the biennium only for the purpose designated by its title and as presented to the legislature. An appropriation item designated "One Time Only" or "OTO" may not be included in the present law base for the 2005 biennium. The office of budget and program planning shall establish a separate appropriation on the statewide budgeting and accounting system for any item designated as "Biennial", "Restricted", "One Time Only", or "OTO". The office of budget and program planning shall establish at least one appropriation on the statewide budgeting and accounting system for any appropriation that appears as a separate line item in [this act].

Section 5. Program definition. As used in [this act], "program" has the same meaning as defined in 17-7-102, is consistent with the management and accountability structure established on the statewide budgeting and accounting system, and is identified as a major subdivision of an agency ordinaly numbered with an arabic numeral.

Section 6. Personal services funding -- 2005 biennium. (1) Except as provided in subsection (2), present law and new proposal funding budget requests for the 2005 biennium submitted under Title 17, chapter 7, part 1, by each executive, judicial, and legislative branch agency must include funding of first level personal services separate from funding of

1 other expenditures. The funding of first level personal services by accounting entity or equivalent for each fiscal year must be shown at the fourth reporting level or equivalent in the
 2 budget request for the 2005 biennium submitted by October 30 to the legislative fiscal analyst by the office of budget and program planning.

3 (2) The provisions of subsection (1) do not apply to the Montana university system.

4 **Section 7. Personal services line item.** Funds appropriated for personal services or indicated in legislative intent as having been appropriated for personal services may not
 5 be expended under any other category except for contract services (expenditure account 62102) or for the early return to work program. Any transfer of funds from personal services
 6 to contract services is to be used to directly substitute for use of personal services. Any transfer for either contract services or for the early return to work program must be reported
 7 in writing to the legislative finance committee. The provisions of this section do not apply to the Montana university system or to the disability services division in the department
 8 of public health and human services for the purposes of adjusting the disabled population between institution and residential settings.

9 **Section 8. Vacancy savings analysis.** The legislature is concerned about the use of the concept of vacancy savings in establishing funding for personal services. It is the
 10 intent of the legislature that an analysis of vacancy savings be completed prior to the 2003 legislative session to include the consideration of alternative options for funding of personal
 11 services at an appropriate level. The legislative finance committee is requested to include this analysis as part of the House Bill No. 613 personal services study if House Bill No. 613
 12 is passed and approved or to include the analysis in the committee work plan for the legislative fiscal division. The legislative finance committee is encouraged to work cooperatively
 13 with the governor's budget director in completing this analysis.

14 **Section 9. FTE reduction.** The number of FTE has been reduced for all positions in the executive branch (excluding the university system) that have been identified by the
 15 legislature as vacant for over 7 months and that are not seasonal, already filled, or newly classified . The reduction is inclusive in the number of FTE shown in the agency and program
 16 tables in the legislative fiscal analyst narrative accompanying this bill. The eliminated positions are not to be funded in the present law base budget submitted by the governor for
 17 the 2005 biennium. The Legislative Fiscal Division Fiscal Report shall include a table listing the position numbers of the FTE that are eliminated. The number of FTE eliminated by

The department shall provide the following information by program to the children, families, health, and human services interim committee and to the legislative finance committee by August 1, 2002:

- (1) rates paid by each program for comparable services; and
- (2) entry level and average hourly wage and benefit rates paid by community providers for direct care workers and group home employees.

The information must specify how the data was gathered and whether and how the department verified the data and must be presented to allow evaluation among comparable services and jobs.

~~Funds appropriated for grants or benefits and claims or indicated in legislative intent as having been appropriated for grants or benefits and claims may be expended only as grants or benefits and claims. The office of budget and program planning may authorize a transfer of appropriation authority from grants or benefits and claims to another category of expenditure under one of the following conditions:~~

- ~~_____ (1) the department certifies to the office of budget and program planning that federal law or regulations require that funds appropriated in grants or benefits and claims must be expended in a different category of expenditure; or~~
- ~~_____ (2) the department certifies to the office of budget and program planning that there will be savings if funds appropriated in grants or benefits and claims are transferred and expended in another category of expenditure.~~

~~_____ The office of budget and program planning shall report to the legislative finance committee on transfers approved subject to these two conditions:~~

The department shall report to the legislative finance committee and the children, families, health, and human services interim committee at every meeting of each committee:

- (1) the actual amount of federal temporary assistance for needy families (TANF) block grant funds expended in the current biennium;
- (2) the actual amount of TANF block grant maintenance of effort funds that have been expended in the current biennium;
- (3) the balance of previous fiscal years' TANF block grant funds that remain unexpended; and
- (4) the balance of the current fiscal year federal TANF block grant funds that remain unexpended.

1 The department shall use unexpended previous year federal TANF block grant funds to provide benefits and services that meet the federal definition of assistance. Current
 2 year federal TANF block grant funds must be used to fund benefits and services that meet the federal definition of assistance only after all available previous years' federal TANF
 3 block grant funds have been expended.

4 The office of budget and program planning may proportionally reduce the funding in items 1a through 1k, ITEMS 1M through 1t₂ and item 1v if any of the following conditions
 5 exist:

- 6 (1) the department certifies to the office of budget and program planning that the balance of unexpended TANF funds on June 30, 2001, is less than \$30 million;
- 7 (2) actual or projected cash assistance expenditures are greater than \$24,067,328 in fiscal year 2002 or \$23,763,854 in fiscal year 2003;
- 8 (3) the amount of TANF grant funds awarded to Montana by congress is reduced below the level anticipated by the legislature; or
- 9 (4) the department certifies to the office of budget and program planning that the reduction is necessary in order to maintain public assistance programs that were supported
 10 by federal TANF and state TANF maintenance of effort funds in fiscal year 2001.

11 If the TANF block grant funds report given at the March 2002 legislative finance committee meeting indicates that there are FAIM phase II R dollars unexpended and no plan
 12 is in place to expend the remaining dollars, there is appropriated up to \$1.5 million of these unexpended funds for the summer youth employment program in the 2003 biennium.

13 Item 1 includes increases of \$3,852,988 of general fund money in fiscal year 2002 and of \$4,006,121 of general fund money in fiscal year 2003 and reductions of
 14 \$3,356,606 of state special revenue in fiscal year 2002 and of \$3,376,187 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill
 15 No. 124.

16 Funds in item 1 include \$68,422 in fiscal year 2002 and \$69,606 in fiscal year 2003 that the department shall use to reimburse the Montana department of corrections,
 17 Montana correctional enterprises, for costs incurred to operate the Montana food bank network canning and wild game processing facility.

18 Funds included in items 1b and 1e may be used only to fund tribal projects and to provide nontraditional job training to an enrolled tribal member of a federally recognized
 19 tribe whose reservation lies within the exterior boundaries of the Montana reservations and to the Little Shell band of Chippewa if the Little Shell band of Chippewa becomes a federally
 20 recognized tribe.

21 Funds in item 1b may be used to fund head start services for tribal members. Tribal members may not access services supported by funds in item 1r because funding for
 22 tribal head start projects has been included in item 1b.

23 The department shall transfer funds in item 1l to the Montana board of housing revolving loan account to fund eligible activities under the federal TANF block grant. The
 24 timing and amount of the transfer must comply with federal regulations governing the expenditure and transfer of TANF funds.

25 Funds included in item 1t may be used only to develop programs for high-wage and high-skill training for single parents, persons who are economically disadvantaged, and

1 displaced homemakers.

2 Funds included in item 1u may be used only to provide adult basic education services.

3 The department shall transfer funds in item 1v to the children's trust fund to fund eligible child abuse and neglect prevention activities.

4 Projects funded in items 1a, 1d, 1f, 1g, 1h, 1i, 1j, 1k, 1l, 1m, 1n, 1o, 1p, 1q, 1r, 1s, 1t, and 1u are considered approved special projects related to welfare reform for the
 5 purpose of implementation of 53-4-210. Prior to the expenditure of these funds, the department shall provide notice both verbally and in writing to tribes that have implemented a
 6 federally approved tribal family assistance plan that funding for special projects is available. Tribes that operate a tribal family assistance plan may receive the funds in these items,
 7 and the department may award all or a portion of these funds to tribes that operate tribal family assistance plans as allowable within federal regulations.

8 Funds included in item 1w may be used only to provide TANF WoRC contracts and supportive services and child-care services.

9 Item 2 includes increases of \$2,206,194 of general fund money in fiscal year 2002 and of \$2,241,893 of general fund money in fiscal year 2003 and reductions of
 10 \$2,172,078 of state special revenue in fiscal year 2002 and of \$2,135,314 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill
 11 No. 124.

12 Funds in item 2d may be used only to support the costs of in-home services for families in the child welfare system. The department estimates that 25 families or 50 children
 13 will be served with this funding and that 80% of the families served will not enter the foster care system. If the department achieves this goal, the estimated increase in the foster
 14 care caseload will decrease from 3% to 2%. Any savings realized because of a lower than anticipated caseload increase may be used by the department to expand the provision
 15 of in-home services or other services within the child welfare system.

16 Item 3 includes \$1,482,291 in fiscal year 2002 and \$1,482,748 in fiscal year 2003 for the tobacco prevention and control program. It is the intent of the legislature that
 17 the interagency coordinating council on prevention administer the tobacco control and prevention program.

18 Item 3 includes increases of \$93,333 of general fund money in fiscal year 2002 and of \$96,915 of general fund money in fiscal year 2003 and reductions of \$90,463 of
 19 state special revenue in fiscal year 2002 and of \$91,028 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

20 ITEM 3 INCLUDES FUNDING FOR 5 FTE ABOVE THE LEVEL FUNDED BY THE 2001 LEGISLATURE FOR THE PURPOSE OF ESTABLISHING A DEPARTMENTWIDE REFINANCING UNIT. THE COST OF THE FTE
 21 AND ANY SUPPORTING CONTRACTING EFFORTS MUST BE SUPPORTED FROM ANTICIPATED SAVINGS FROM THE REFINANCING OF SOCIAL WORKER CASE MANAGEMENT SERVICES AND MAXIMIZING OF FEDERAL
 22 FUNDING IN THE CHILD AND FAMILY SERVICES DIVISION. THE DEPARTMENT SHALL REPORT ON THE PROGRESS OF ITS REFINANCING EFFORTS PERIODICALLY TO THE OFFICE OF BUDGET AND PROGRAM PLANNING,
 23 LEGISLATIVE FINANCE COMMITTEE, AND THE 2003 LEGISLATURE.

24 IT IS THE INTENT OF THE LEGISLATURE THAT UP TO \$3 MILLION OF FUNDS THAT THE DEPARTMENT RECEIVES BECAUSE OF REFINANCING GENERAL FUND COSTS WITH FEDERAL SPECIAL REVENUE BE

2 Funds included in item 4c may be used only to support costs for the completion of a financial institution data match.

3 Funds included in item 4d may be used only to support the costs incurred to complete a study of the costs of raising a child in Montana.

4 Items 5, 9, and 10 include appropriations of state special revenue for provider rate increases funded from the interest income on the tobacco settlement trust fund provided

5 for in Article XII, section 4, of the Montana constitution. If the interest income on the tobacco settlement trust fund provided for in Article XII, section 4, of the Montana constitution

6 is insufficient to fully fund the state special revenue appropriations in items 5, 9, and 10, the legislature intends that the department find alternative funding sources to fully fund the

7 provider rate increases. Alternative sources may include but are not limited to enhanced medicaid intergovernmental transfer programs and transfers of general fund money from other

8 appropriations.

9 Item 5 includes increases of \$6,717,000 of general fund money in fiscal year 2002 and of \$6,862,000 of general fund money in fiscal year 2003 and reductions of

12 The health policy and services division is authorized to pursue up to \$1.5 million in federal special revenue each year of the biennium in item 5 to enhance or improve division

13 services or programs to public schools. This additional federal special revenue may be expended on services by the division as long as those actions do not require or commit the

14 state to additional general fund expenditures beyond the amount appropriated by the legislature to the division.

15 Item 5a must be spent on services to assist Montanans who have been exposed to asbestos. Funds in item 5a may not be expended for any other purpose.

16 Implementation of the resource-based relative value scale (RBRVS) provider rate system must continue to be phased in over the 2003 biennium. The department shall use

18 level of the state fiscal year 1997 reimbursement in state fiscal year 1999. The department may not change reimbursement for CPT codes, which were paid at 80% of the level of

19 the state fiscal year 1997 reimbursement in state fiscal year 1999.

20 Item 5c includes funds for 3.5 FTE. Funds for the FTE may not be included in the adjusted base budget for the 2005 biennium unless federal funds or private revenue is

21 available to fund the position.

22 Funds in item 5d may be used only to purchase equipment to transmit or to facilitate the transmission of medical images and x-rays from rural hospitals to medical specialists.

23 The funds may be granted only to rural hospitals or groups of rural hospitals to purchase the equipment.

24 The department shall provide to the legislative finance committee each year of the biennium an analysis of the number of medicaid hospital projects completed and associated

25 cost savings because of funding for claims adjudication specialists as approved by the 2001 legislature.

- 9 (2) the amount, scope, and nature of services provided by funds made available through refinancing;
- 10 (3) the number of consumers, providers, and direct care worker staff benefiting from initiatives funded through refinancing efforts; and
- 11 (4) the amount of additional state special and federal funds obtained through refinancing efforts.

12 Item 8 includes a \$1,965,199 general fund decrease in fiscal year 2003 for the disability services division replaced by a like amount of employment security account state
13 special revenue funds administered by the department of labor and industry.

 2 division has a population of more than 88 individuals at the two institutions at the end of the 2003 biennium, the division shall certify that a community residential setting was not
 3 available for the individuals remaining in the two institutions.

4 Funds in item 9a may be used only to make one-time payments to nursing homes based on the number of medicaid services provided. State special revenue in item 9a may
 5 be expended only after the office of budget and program planning has certified that the department has received \$2 million each year from counties participating in the
 6 intergovernmental transfer program for nursing homes.

7 The department shall distribute funds in items 8c and 9c in a way that provides reasonable assurance that the funds are used solely for direct care wage and benefit increases.
 8 Not all providers or types of direct care workers must receive the same rate increase for the biennium. Funds appropriated in items 8c and 9c may be used only for direct care worker
 9 wage increases. Funds in items 8c and 9c may not be used to fund other programs. In the event that the department finds it necessary to institute program reductions, it is the intent
 10 of the legislature that funds in items 8c and 9c be the last items eliminated.

11 The senior and long-term care division is authorized to pursue up to \$2 million in federal special revenue in item 9d over the biennium to enhance or improve division services
 12 or programs. This additional federal special revenue may be expended by the division on services as long as those actions do not require or commit the state to additional general
 13 fund expenditures beyond the amount appropriated for the 2003 biennium by the legislature to the division in [this act].

14 PURSUANT TO 17-7-140, ITEM 9E IS EXEMPT FROM SPENDING REDUCTIONS BECAUSE OF A PROJECTED GENERAL FUND BUDGET DEFICIT.

15 The department shall post on the senior and long-term care division website the staffing levels provided in Montana nursing facilities.

16 The department shall require that area agencies on aging provide a written assessment of the need for increased funding in their nutrition programs prior to expending the
 17 additional Title III of the Older Americans Act of 1965 grant funds appropriated in [this act].

18 The appropriation in item 10 is contingent on the department developing a management plan to:

- 19 (1) ensure that the department staff tracking the census of residential treatment of children in Montana communicate in-state service availability to appropriate staff; and
- 20 (2) negotiate or issue requests for proposals in compliance with 52-2-306 and 52-2-307 for placement of children with in-state providers in lieu of placing the child in out-of-
- 21 state treatment. The department shall submit the plan to the children, families, health, and human services interim committee and the legislative finance committee by July 1, 2001.

22 Item 10 is contingent on the department maintaining \$3,539,842 of federal block grant contracts to state-approved chemical dependency programs for treatment and
 23 rehabilitation each year of the 2003 biennium.

24 Item 10 includes \$559,560 in general fund money in fiscal year 2002 and \$713,907 in fiscal year 2003 that must be used to fund mental health services for persons eligible

 6 (2) requires the department to distribute in the same proportion as provided in 53-24-206(3)(b) at least \$730,000 of the \$1 million in funds referenced in item 1 to the
 7 state-approved chemical dependency programs.

8 Funds in item 10a must be used to fund services at Montana state hospital and for staff and utilization review activities to reduce the use of institutional services. Any funds

All transfers between fund types must be fully explained and justified on budget documents submitted to the office of budget and program planning.

The department shall determine and quantify any efficiencies generated as a result of incorporating the Smith River drawing process into the automated license system and report its findings to the 2003 legislature.

1 The legislature recognizes that the costs associated with litigation in which the legal services division is required to provide representation to the state of Montana may exceed

 8 annual general fund commitment of \$236,250 be continued in each year of the 2007 biennium. If the long-range building program committee bill, to use intercap funding for AARS
 9 implementation, is passed by the 2001 legislature, a portion of these appropriations may be used to make debt service payments.

 6 community colleges shall serve the additional students without a state general fund contribution. If actual resident FTE student enrollment is less than the estimated number for the
 7 biennium, the commissioner of higher education shall revert \$2,792 in general fund money to the state for each estimated FTE student who did not enroll.

 19 in funding among university system units, as defined in 17-7-102(13), when developing 2003 biennium operating plans. The office of budget and program planning shall provide a
