

Drinking Water State Revolving Fund Program Advisory Committee

Statutory Citation: Section 75-6-231, MCA

As provided in section 75-6-203, MCA, the Drinking Water State Revolving Fund Program is a "program under which the state may provide financial assistance to community water systems and nonprofit noncommunity water systems". The program is co-administered by the Montana Department of Environmental Quality (DEQ), which manages the technical components of the program, and the Montana Department of Natural Resources and Conservation (DNRC), which implements the loan program and issues the bonds that are used for the state match to the federal grant.

The revolving fund is a separate account in the state treasury from which loans can be made, debt obligations and insurance can be purchased, and other assistance can be provided to improve water systems.

Each year, the DEQ must prepare an intended use plan for the fund, which must include descriptions of the projects that program funds will assist and the amount and type of funds to be allocated. This plan is subject to public comment and review by the Drinking Water State Revolving Fund Program Advisory Committee.

Membership

The Committee has six members, two members from the Legislature and a member from each of the following entities: the Montana League of Cities and Towns, the Montana Association of Counties, the DNRC, and the DEQ. The legislative members must be chosen from both houses and from the majority party and the minority party.

MEMBERS OF THE COMMITTEE

Legislative Members
