

SJ-15 Study Matrix

	A. Identify Risks & Concerns <i>(June-Oct)</i>	B. Identify Desired Correction <i>(Sept-Oct)</i>	C. Identify Barriers Currently Preventing Correction <i>(Oct-Nov)</i>	D. Brainstorm & Explore Solutions <i>(Nov-March)</i>	E. Develop Action Items <i>(April-August)</i>
EXAMPLE	Untreated fuel loads threatening transmission lines on USFS lands	Active & immediate vegetation management to protect transmission lines from wildfire, wind, ice storms	<ol style="list-style-type: none"> 1. Lack of Funding 2. Obstructive Litigation 3. Unfavorable Policy 4. Rough Terrain, Limited Access 	<ol style="list-style-type: none"> 1. Increase funding 2. Reduce, prevent, or prevail in litigation cases 3. Adjust policies to expedite fuel reduction near critical infrastructure 	
EXAMPLE	Exploding bison population expanding beyond Yellowstone National Park boundary into Montana	Keep Yellowstone bison on National Park lands	<ol style="list-style-type: none"> 1. Park habitat not sufficient to satisfy population 2. Confusion over who owns bison 	<ol style="list-style-type: none"> 1. Keep Park population in balance with habitat 2. Clarify jurisdiction/title 3. Develop threshold & control mechanism(s)
