

MDU – Electricity

Basic Service Charge:

Basic Service Charge = **\$4.86**

The basic service charge is 18 cents a day, and the billing period is 27 days for a total of \$4.86. This is not related to how much energy a customer uses. The basic fee is sometimes called a “meter” fee. The charge is designed to recover a portion of the fixed costs incurred by MDU in providing electric service to its customers.
