PUBLIC NOTICE

Effective until June 1, 1979 or until otherwise extended or rescinded.

In order to protect Forest resources, safeguard users, and minimize conflicts of use, it has become necessary to establish certain controls on the use of areas, roads, and trails on the National Forest. Listed below are the applicable controls for the areas, roads, and trails identified on the Lewis and Clark National Forest Travel Map on file in the Forest Supervisor and District Ranger Offices.

We invite you to visit the Forest or District Office to inspect the detailed maps and discuss specific aspects of these controls with the Supervisor or District Ranger. Your cooperation is necessary to make the order effective.

The terms used in the notice are defined as follows:

Trail vehicles — motorized vehicles of less than 40 inches total width which would include, but not be limited to, trail bikes, scooters, motorcycles, or trail trikes.

Designated road or trail — These are roads or trails within an area closed to motorized vehicle use designated as open to motorized vehicle use. Designated trails are open only to trail vehicles.

Those National Forest lands not listed below are designated open to motorized vehicle use. Use may be temporarily limited on some areas, trails, and roads during periods when use would damage resources or be hazardous. Public notice of temporary restrictions will be given and they will also be posed on the ground. Closures or restrictions for roads or trails not shown on the map will be posted on the ground.

An "existing" road or trail is one which has been excavated, graded or constructed or one which has been so habitually used by vehicular, animal or pedestrian traffic that the surface of the ground has been permanently displaced or eroded and is substantially free of grass or other vegetation.

Controls apply for the period indicated to the following roads, trails and areas as shown on the Lewis and Clark National Forest Travel Map and as posted on the ground.

The controls do not apply to State or County system roads.

OVERSNOW VEHICLES ARE RESTRICTED TO EXISTING ROADS AND TRAILS

Direct ingress and egress is permitted to temporary campsites within 200 feet of designated routes. Please select your ingress and egress route carefully to avoid damage to the land and streams and do not cut live timber.

Temporary exceptions are authorized to the above listed controls for any Federal, State, or local officer, or member of an organized rescue or firefighting force in the performance of an official duty and any vehicle whose use is expressly authorized by the Forest Service under a permit, license or contract.

The closures and restrictions (controls) covered under Title 36 Code of Federal Regulations, Part 261, Subpart B, Sections 261.53, 261.54, 261.55 and 261.56 are applicable to the above described areas, roads and trails during the periods indicated, effective this date and until June 1, 1978, or until otherwise extended or rescinded; they are supplemental to those in 36 CFR 261, Subpart A and are promulgated under the authority of Title 16 United States Code 551 and 36 CFR 261.50.

Violators of these regulations are subject to a fine of not more than FIVE HUNDRED DOLLARS ($500.00) or imprisonment for not more than SIX (6) MONTHS or both (16 USC 551).

Thanks for your cooperation

March 1,1978 — Date

Kenneth D. Weyers — Forest Supervisor

Possession and use of motorized equipment in wilderness and use of motorized transportation in primitive areas are prohibited by 36 CFR 261.16, 193.17 and 261.19 (16 USC 551).
