DEFINITIONS

ROAD VEHICLE - A motor vehicle which meets the requirements of appropriate State law for registration and licensing in order to travel on public highways and Forest Development roads.
TRAILBIKE - A motorized vehicle having two wheels with a seat designed to be straddled by operator, capable of being operated on forest system trails.
SNOWMOBILE - A motor vehicle capable of use over snow or ice, which is driven by a combination of cleats, belts, tracks and skis.
ALL-TERRAIN VEHICLE (ATV) - Any motorized, off-highway vehicle 50 inches or less in width, having a dry weight of 600 pounds or less that travels on three or more low-pressure tires with a seat designed to be straddled by the operator.

SPECIAL CONDITIONS

TEMPORARY CLOSURES OR RESTRICTIONS - Use may be temporarily limited on some areas, trails and roads during periods when use would damage resources or be hazardous. Public notice of temporary restrictions will be given and they will be posted on the ground.
TEMPORARY EXCEPTIONS - Where off-route travel is prohibited, direct access to temporary campsites within 200 feet of designated routes is permitted. Please select your route carefully to avoid damage to the land and streams.
Temporary exceptions to the travel restrictions are authorized for any federal, state or local officer, or member of an organized rescue or firefighting force in the performance of an official duty and any vehicle whose use is expressly authorized by the Forest Service under a permit, license or contract.
OTHER ROUTES NOT SHOWN ON MAP - Some roads on National Forest lands may not be shown on this map. If they have locked gates, barriers or route closure devices on them, they are closed to all motor vehicles.
MOTORIZED VEHICLE USE - Motorized vehicle use (except snowmobiles) is limited to system roads and trails which are designated open on this map. Off-road snowmobile use is allowed unless specifically restricted.
TRAILS USE - All-terrain vehicles (ATV's) and motorcycles may not travel on Forest Development roads that are available for road vehicle travel unless they meet the requirements of State law for registration and licensing and are operated by a licensed driver. Few trails are wide enough to accomodate 3 or 4-wheeled all-terrain vehicles. These vehicles should not be operated on narrow trails or those across steep slopes. Forest Service handbook guidelines suggest that a 48" wide tread is necessary to provide safe use for ATV's. If the ATV operator elects to use narrower routes, the user must accept the inherent risks.
YOUR RESPONSIBILITY FOR SAFETY - Back-country travelers may encounter a variety of dangerous conditions. It is your responsibility to inform yourself about these inherent risks and take appropriate precautions.

Trail (T) - Travelway limited to use by hikers, stock, and vehicles less than 40 inches in width. Some trails are closed to stock or motorized use.
Way (W) - Marked route or primitive foot trail.

LOLO NATIONAL FOREST TRAVEL PLAN
Effective Until June 1, 1994
Unless Otherwise Extended or Rescinded

WELCOME TO THE LOLO NATIONAL FOREST - We invite you to enjoy year-round recreational opportunities.
The Lolo National Forest provides recreation experiences in first-rate surroundings. You can snowmobile along a trail or climb a challenging mountain peak. You can fish a trout stream or visit an historic site. A wide range of opportunities exist for everyone to enjoy.
If you would like more information or detailed maps, please visit or write one of our offices for information.
We're glad you're here, so take your time and enjoy your national forest.

INDEX TO TOPOGRAPHIC MAPS

Topographic maps are available from the Branch of Distribution, U.S. Geological Survey, Box 25286, Federal Center, Denver, Colorado 80225 or the Montana Bureau of Mines & Geology, Montana College of Mineral Science and Technology, Butte, Montana 59701.

FOREST SERVICE MAP CLASS A
Compiled in the Regional Office, Missoula, Montana in 1974 from U.S. Forest Service planimetric maps and U.S. Geological Survey topographic maps constructed by photogrammetric methods. Limited revisions applied in 1982. Designation of ownership for other than USFS does not imply the right of public access. Guides for other ownership are supplied by the cooperators.

Refer to BLM Garnet Resource Area Travel Plan Map for restrictions on BLM roads and areas.
