Great Careers Start Here

RevUp is a \$25 million grant, funded to create cost-effective training programs -- accessible from anywhere in Montana -- that link workers with high demand jobs, enhance our manufacturing and energy workforce, and bolster the state's economic opportunities.
A partnership between Montana's two-year colleges and the Montana Department of Labor and Industry, RevUp is designed to quickly train students for good paying jobs. By meeting the specific needs of local employers, aligning curriculum with national industry-recognized credentials, and providing opportunities to enter apprenticeship training, RevUp offers significant opportunities and value.

Great driving jobs. You. CDL?
