A Bill for an Act entitled: "An Act authorizing a wireless enhanced 9-1-1 emergency telephone system and providing for its administration; providing for funding of the system by levying a wireless enhanced 9-1-1 fee; establishing accounts for the deposit of fees collected; providing for distribution of the fees collected; defining eligibility criteria for wireless cost recovery; amending sections 10-4-101, 10-4-102, 10-4-114, 10-4-201, and 10-4-301, MCA; and providing an effective date."

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 10-4-101, MCA, is amended to read:

"10-4-101. Definitions. As used in this chapter, unless the context requires otherwise, the following definitions apply:

(1) "Allowable costs" means the actual costs associated with upgrading, purchasing, programming, installing, testing, operating and maintaining data, hardware, and software necessary to comply with federal communications commission orders.

(1)(2) "Basic 9-1-1 account" means the 9-1-1 emergency telecommunications account established in 10-4-301(1)(a).

(2)(3) "Basic 9-1-1 service" means a telephone service meeting the standards established in 10-4-102 that automatically connects a person dialing the digits 9-1-1 to an established
public safety answering point.

(4) "Basic 9-1-1 system" includes equipment for connecting and outswitching 9-1-1 calls within a telephone central office, trunking facilities from the central office to a public safety answering point, and equipment, as appropriate, that is used for transferring the call to another point, when appropriate, and that is capable of providing basic 9-1-1 service.

(5) "Commercial mobile radio service" has the meaning provided in 47 CFR 20.3, which states, generally, that commercial mobile radio service is:

(a) a mobile service that is:

(i) provided for profit, at least with the intent of receiving compensation or monetary gain;

(ii) An interconnected service; and

(iii) available to the public or to classes of eligible users so as to be effectively available to a substantial portion of the public; or

(b) the functional equivalent of a mobile service described in subsection (4)(a).

(6) "Connection" means each active wireless telephone number assigned to an end-use customer of a commercial mobile radio service for which the place of primary use for the customer is within this state.

(7) "Department" means the department of administration provided for in Title 2, chapter 15, part 10.

(8) "Direct dispatch" means a 9-1-1 service in which a
public safety answering point, upon receipt of a telephone request for emergency services, provides for a decision as to the proper action to be taken and for dispatch of appropriate emergency service units.

(9) "Emergency" means an event that requires dispatch of a public or private safety agency.

(10) "Emergency services" means services provided by a public or private safety agency, including law enforcement, firefighting, ambulance or medical services, and civil defense services.

(11) "Enhanced 9-1-1 account" means the 9-1-1 emergency telecommunications account established in 10-4-301(1)(b).

(12) "Enhanced 9-1-1 service" means telephone service that meets the requirements for basic 9-1-1 service and that consists of selective routing with the capability of automatic number identification and automatic location identification at a public safety answering point enabling users of the public telecommunications system to request emergency services by dialing the digits 9-1-1.

(13) "Enhanced 9-1-1 system" includes customer premises equipment that is directly related to the operation of an enhanced 9-1-1 system, including but not limited to automatic number identification or automatic location identification controllers and display units, printers, and software associated with call detail recording, and that is capable of providing enhanced 9-1-1 service.

(14) "Exchange access services" means:
(a) telephone exchange access lines or channels that provide local access from the premises of a subscriber in this state to the local telecommunications network to effect the transfer of information; and

(b) unless a separate tariff rate is charged for the exchange access lines or channels, any facility or service provided in connection with the services described in subsection (11)(a).

(15) "Federal communications commission order" means federal communications commission enhanced 9-1-1 first report and order docket no. 94-102.

(16) A "9-1-1 jurisdiction" means a group of public or private safety agencies who operate within or are affected by one or more common central office boundaries and who have agreed in writing to jointly plan a 9-1-1 emergency telephone system.

(17) "Phase I wireless enhanced 9-1-1" means a 9-1-1 system that automatically delivers number information to the public safety answering point for wireless calls.

(18) "Phase II wireless enhanced 9-1-1" means a 9-1-1 system that automatically delivers number information and location information to the public safety answering point for wireless calls.

(19) "Place of primary use" means the primary business or residential street address location at which an end-use customer's use of the commercial mobile radio service primarily occurs.

(20) "Prepaid connection" means a connection for which the
service has been paid in advance and is not under contract.

(13)(21) "Private safety agency" means any entity, except a public safety agency, providing emergency fire, ambulance, or medical services.

(14)(22) "Provider" means a public utility, cooperative telephone company, or any other entity that provides telephone exchange access services.

(15)(23) "Public safety agency" means the state and any city, county, city-county consolidated government, municipal corporation, chartered organization, public district, or public authority located in whole or in part within this state that provides or has authority to provide emergency services.

(16)(24) "Public safety answering point" means a communications facility operated on a 24-hour basis that first receives 9-1-1 calls from persons in a 9-1-1 service area and that may, as appropriate, directly dispatch public or private safety services or transfer or relay 9-1-1 calls to appropriate public safety agencies.

(17)(25) "Relay" means a 9-1-1 service in which a public safety answering point, upon receipt of a telephone request for emergency services, notes the pertinent information from the caller and relays the information to the appropriate public safety agency, other agencies, or other providers of emergency services for dispatch of an emergency unit.

(18)(26) "Subscriber" means an end user who receives telephone exchange access services or that contracts with the wireless provider for commercial mobile radio services.
"Transfer" means a 9-1-1 service in which a public safety answering point, upon receipt of a telephone request for emergency services, directly transfers the request to an appropriate public safety answering agency or other provider of emergency services.

"Wireless enhanced 9-1-1" means either phase I wireless enhanced 9-1-1 or phase II wireless enhanced 9-1-1.

"Wireless enhanced 9-1-1 account" means the wireless enhanced 9-1-1 account established in [section 3].

"Wireless provider" means an entity, as defined in 35-1-113, that is authorized by the federal communications commission to provide facilities-based commercial mobile radio service within this state."

Section 2. Section 10-4-102, MCA, is amended to read:

"10-4-102. Department of administration duties and powers.

(1) The department shall assist in the development of basic and enhanced 9-1-1 systems in the state. The department shall:

(a) establish procedures for determining and evaluating requests for variations from basic or enhanced 9-1-1 service;

(b) upon request of a 9-1-1 jurisdiction, assist in planning a basic or enhanced 9-1-1 system;

(c) establish criteria for evaluating basic and enhanced 9-1-1 system plans;

(d) monitor implementation of approved basic and enhanced
9-1-1 system plans for compliance with the plan and use of funding; and

(e) as it finds necessary, report to the legislature the progress made in implementing statewide basic and enhanced 9-1-1 systems and in implementing wireless enhanced 9-1-1 services.

(2) The department shall obtain input from all 9-1-1 jurisdictions by creating an advisory council to participate in development and implementation of the 9-1-1 program in the state. The council must be established pursuant to 2-15-122. The highway patrol, emergency medical services organizations, telephone companies, the associated public safety communicators, the department of emergency services, police departments, sheriff's offices, local citizens, organizations, and other public safety organizations may submit recommendations for membership on the advisory council."

Section 3. Section 10-4-114, MCA, is amended to read:

"10-4-114. Rulemaking authority. The department may adopt rules to implement the provisions of this chapter. The rules may include but are not limited to:

(1) establishing procedures to evaluate and make determinations on requests for a variation of the basic or enhanced 9-1-1 service;

(2) establishing evaluation criteria for basic and enhanced 9-1-1 systems plans;
(3) establishing requirements for program participation by public and private safety agencies;
(4) establishing guidelines for the distribution of funds; and
(5) specifying reporting requirements regarding applications for reimbursement for allowable costs to wireless providers for enabling wireless enhanced 9-1-1 services."

{Internal References to 10-4-114: None.}

NEW SECTION. Section 4. Submission of phase II wireless plan by wireless service provider. (1) A wireless service provider must meet the following to be eligible for wireless cost recovery:

(a) Within 30 days of receipt of a formal phase II request from a public safety answering point, the wireless service provider shall submit to the department a notification stating the anticipated date of deployment, and number of subscribers based on billing address for the 9-1-1 jurisdiction; and

(b) The department must first determine that the wireless service provider is providing phase II functionality to the public safety answering point. The wireless service provider is responsible for notifying the department of the date of deployment, proof of acceptance tests and is live.

(2) A 9-1-1 jurisdiction must be phase II wireless ready and have submitted a phase II wireless request to the wireless providers providing service in their area.
Section 5. Section 10-4-201, MCA, is amended to read:

"10-4-201. Fees imposed for telephone-exchange-access services

(1) Except as provided in 10-4-202:

(a) for basic 9-1-1 services, a fee of 25 cents a month per
access line on each service subscriber in the state is imposed on
the amount charged for telephone exchange access services,
wireless telephone service, or other 9-1-1 accessible services;
and

(b) for enhanced 9-1-1 services, a fee of 25 cents a month
per access line on each service subscriber in the state is
imposed on the amount charged for telephone exchange access
services, wireless telephone service, or other 9-1-1 accessible
services; and

(c) for wireless enhanced 9-1-1 services, a fee of 50 cents
a month per access line or subscriber in the state is imposed on
the amount charged for telephone exchange access services,
wireless telephone service, or other 9-1-1 accessible services.

(2) The subscriber paying for exchange access line services
is liable for the fees imposed by this section.

(3) The provider shall collect the fees. The amount of the
fees collected by the provider is considered payment by the
subscriber for that amount of fees.

(4) Any return made by the provider collecting the fees is
prima facie evidence of payments by the subscribers of the amount
of fees indicated on the return."
Section 6. Section 10-4-301, MCA, is amended to read:

"10-4-301. Establishment of emergency telecommunications accounts. (1) There are established in the state special revenue fund in the state treasury:

(a) an account for all fees collected for basic 9-1-1 services pursuant to 10-4-201(1)(a); and
(b) an account for all fees collected for enhanced 9-1-1 services pursuant to 10-4-201(1)(b); and
(c) an account for all fees collected for wireless enhanced 9-1-1 services pursuant to [section 5(1)(c)].

(i) 50% of the account will be deposited in an account for distribution to the 9-1-1 jurisdictions; and
(ii) 50% of the account will be deposited in an account for distribution to wireless service provider.

(2) All money received by the department of revenue pursuant to 10-4-201 must be paid to the state treasurer for deposit in the appropriate account. An amount equal to 3.74% of the money received pursuant to 10-4-201 must be deposited in the state general fund.

(3) The accounts established in subsection (1) retain interest earned from the investment of money in the accounts.

(4) After payment of refunds pursuant to 10-4-205, the balance of the respective accounts must be used for the purposes
described in part 1 of this chapter.

(5) The distribution of funds in the 9-1-1 emergency telecommunications accounts described in subsection (1), as required by 10-4-302 and 10-4-311, is statutorily appropriated, as provided in 17-7-502, to the department.

(6) Expenditures for actual and necessary expenses required for the efficient administration of the plan must be made from appropriations made for that purpose."

NEW SECTION. Section 7. Distribution of wireless enhanced 9-1-1 account by department. (1) The department shall make quarterly distribution of the entire wireless enhanced 9-1-1 account for allowable costs pursuant to [section 6(c)(ii)] incurred by each provider of wireless service in each 9-1-1 jurisdiction as follows:

(a) for each fiscal year through the fiscal year ending June 30, 2011:

(i) 84% of the balance of the account must be allocated to the wireless providers providing wireless enhanced 9-1-1 in each county on a per capita basis. The wireless provider in each county must be allocated a minimum of 1% of the balance of the counties' share of the account; and

(ii) the remaining 16% of the balance of the account must be distributed evenly to the wireless providers providing wireless enhanced 9-1-1 in counties with 1% or less than 1% of the total
population of the state.

(b) for fiscal years beginning after June 30, 2011, 100% of the balance of the account must be allocated to the wireless providers providing wireless enhanced 9-1-1 in each county on a per capita basis. Each county must be allocated a minimum of 1% of the balance of the counties' share of the account;

(c) if the department is unable to fully reimburse a wireless provider under subsection (1)(a) in any quarter, the department shall in the subsequent quarter pay from the allocation under subsection (1)(a) to wireless providers any unpaid balances from the previous quarter. If the amount available is insufficient to pay all previous unpaid balances, the department shall repeat the process of paying unpaid balances that remain unpaid for as many quarters as necessary until all unpaid balances are fully paid. The department shall review all invoices for appropriateness of costs claimed by the wireless service provider. If the wireless service provider contests the review, payment may not be made until the amount owed the wireless service provider is determined;

(d) a wireless service provider shall submit an invoice for cost recovery according to the allowable costs;

(e) the department will determine the percent of overall subscribers, based on billing address, within the 9-1-1 jurisdiction for each wireless service provider seeking cost recovery by dividing the wireless service provider’s subscribers by the total subscribers in that 9-1-1 jurisdiction. The percent will be applied to the total wireless provider funds for that 9-
1-1 jurisdiction and each wireless service provider will receive
distribution based on their percent. To receive cost recovery
wireless service providers must submit subscriber counts to the
department on a quarterly basis. The subscriber count must be
provided for each 9-1-1 jurisdiction in which the wireless
service provider receives cost recovery and within 30 calendar
days following the end of each quarter. The department will
recalculate distribution percentages on a quarterly basis; and

(f) If the department determines that a wireless services
provider has submitted costs that exceed allowable costs or not
in the manner prescribed in [section 4], the department may,
after giving notice to the wireless service, suspend or withhold
payment from the wireless enhanced 9-1-1 account.

(2) The department shall make quarterly distribution of the
entire wireless enhanced 9-1-1 account established by [section
6(c)(i)] to each 9-1-1 jurisdiction according to 10-4-311(3)(a)
and (b).

NEW SECTION. Section 8. {standard} Effective date. [This
act] is effective July 1, 2007.
