## Context

The State Revolving Fund includes the WPCSRF and the DWSRF which provide low interest loans for the planning, design, and construction of water pollution control and drinking water projects. The programs are jointly administered by the Department of Natural Resources and Conservation and the Department of Environmental Quality. The Department of Natural Resources and Conservation has requested an annual financial audit as required by the Federal Environmental Protection Agency (EPA).

The WPCSRF program works to maintain, restore, and enhance the chemical, physical, and biological integrity of the state's waters for the benefit of the overall environment and the protection of public health. The Water Pollution Control program is funded 83.33 percent by Federal EPA capitalization grants and 16.67 percent by state match.

The DWSRF program provides financial and technical assistance to help public water supplies achieve and maintain compliance with federal and state drinking water laws and standards for the protection and enhancement of Montana's public drinking water. The Drinking Water

program is approximately funded 80 percent by Federal EPA capitalization grants and 20 percent by state match.

The State of Montana has issued General Obligation (GO) bonds, Revenue Anticipation Notes (RANs), and Bond Anticipation Notes (BANs) totaling approximately \$33.6 million for use as state matching funds for the WPCSRF program and \$22.6 million for the DWSRF program since the inception of the programs.
