Gentlemen:

This is to request your concurrence that this Agency Impact Determination is appropriate for the subject project.

The project is located on U. S. 10A near Maxville and will consist of the installation of about 7,500 feet of guardrail on about a 2.5 mile portion of highway.

The project is not a major action and it is our opinion that the effect on the environment will be insignificant. There will be no alteration of land use or traffic flow patterns. The major impact of the project will be to provide a safer transportation facility for the traveling public.

The project will not have any air or water quality impact and noise standards are not applicable to this type of work.

We are also at this time requesting your approval to waive the requirements for public hearings and location and design approval notifications.

Very truly yours,

H. J. ANDERSON
DIRECTOR OF HIGHWAYS
