

MONTANA DEPARTMENT OF NATURAL RESOURCES AND CONSERVATION
WATER RESOURCES DIVISION
WATER RIGHTS BUREAU
ENVIRONMENTAL ASSESSMENT

PART I. PROPOSED ACTION DESCRIPTION

1. **Type of action:** Water use permit application no. 43D-P099171
Water right change application no.
Petition or Other Action:

2. **Applicant/Contact name and address:** Red Lodge Grizzly Peak Inc
PO Box 750
Red Lodge MT 59068

3. **Water source name:** Willow Creek

4. **Location affected by action:** Sections 25, 26, and 35, TWP 7 South,
RGE 19 East, Carbon County.

5. **Narrative summary of the proposed project and action to be taken:** This is a water permit application for snowmaking on Red Lodge Mountain for skiing. The application was public noticed, objections were received, and objection issues were resolved.

6. **Agencies consulted during preparation of the environmental assessment:** We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

PART II. ENVIRONMENTAL REVIEW

1. Environmental Impact Checklist:

PHYSICAL ENVIRONMENT

Soils/Geologic Features:

Degradation of soil quality or alteration of soil stability, moisture content, geologic substructure, unique geologic features, archeological sites?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Erosion:

Alteration of erosion or siltation patterns which modify stream beds or lake shores?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Vegetation/Noxious weeds:

Change in or adverse affect on diversity and production of local plant species including any unique or endangered species (including trees, shrubs, grass, and aquatic plants)? Establishment or spread of noxious weeds?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Air:

Deterioration of air quality, or adverse effects on vegetation due to increased air pollutants.

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Water:

Alteration of surface water or groundwater quality including but not limited to temperature, dissolved oxygen or turbidity or quantity or distribution?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Floodplain:

Changes in drainage patterns, course or magnitude of flood flows, or exposure of people/property to hazards (flood)?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Wildlife Habitat/Migration:

Deterioration of critical fish or wildlife habitat? Creation of a barrier to the migration or movement of fish or wildlife?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Endangered Species:

Adverse effects on any unique or endangered species?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

| |
|--------------------------|
| HUMAN ENVIRONMENT |
|--------------------------|

Existing Land Use:

Alteration of or interference with the productivity or profitability of the existing land use of an area?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Historical Significance:

Destruction or alteration of a natural area of scientific or educational value or prehistoric or paleontological importance?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Populace:

Alteration of the location, distribution, density, or growth rate of the human population of an area? Alteration of social structure of community?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Transportation:

Increased traffic hazards or effects on existing transportation facilities or patterns of movement of people and goods?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Safety:

Creation of any health hazard or affect on existing emergency response or evacuation plans?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Public Services:

Have an effect upon or result in a need for new or altered governmental services in any of the following areas: fire or police protection, schools, parks/recreational facilities, roads or other public maintenance, water supply, sewer or septic systems, solid waste disposal, health, or other governmental services? Have an effect upon local or state tax base?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Utilities:

Creates need for new or altered facilities for any of the following utilities: electric power, natural gas, other fuel supply or distribution systems, or communications?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Aesthetics:

Alteration of any scenic vista or recreation opportunity or creation of an aesthetically offensive site to the public?

We have adopted the Final Environmental Impact Statement for the Red Lodge Mountain Ski Area Master Development Plan that was prepared by the US Forest Service. A copy of this document is available in the DNRC Water Resources Office.

Other:

None

2. **Secondary and cumulative impacts:** None
3. **Reasonable alternatives to the proposed action, including the no action alternative:** None

PART III. CONCLUSION

Based on the significance criteria evaluated in this EA, is an EIS required? An EIS has been completed by the US Forest Service and a copy is available in the DNRC Water Resources Regional Office in Billings. If an EIS is not required, explain why the EA is the appropriate level of analysis for this proposed action:
