June 13, 1997

Dear Interested Parties,

Montana Fish, Wildlife and Parks has proposed an improvement project at Nilan Resivior Fishing Access Site. An Environmental Assessment was released on April 25, 1997 and distributed to interested publics and local newspapers.

A public meeting was held on May 21, 1997. One comment in support of the proposal was received.

We have decided to proceed with this project as evaluated in the Environmental Assessment and modified as appropriate after considering public comments. I invite you to monitor the construction as it occurs and let us know how you like the end results.

Please direct all questions and comments to Doug Habermann, POB 6610, Great Falls MT 59601 (406)454-5840.

Thank you for your interest.

Sincerely

Mike Aderhold  
Regional Supervisor

Lewis + Clark
