

Montana Board of Oil and Gas Conservation  
Environmental Assessment

Operator: J. Burns Brown Operating  
Well Name/Number: State 16-35-18B  
Location: SW NW 162 T35N R18E  
County: Blaine, MT; Field (or Wildcat) W/C

**Air Quality**

(possible concerns)  
Long drilling time no  
Unusually deep drilling (high horsepower rig) no  
Possible H2S gas production no  
In/near Class I air quality area no  
Air quality permit for flaring/venting (if productive) no

Mitigation:

- Air quality permit (AQB review)
- Gas plants/pipelines available for sour gas
- Special equipment/procedures requirements
- Other: \_\_\_\_\_

Comments: No special concerns

**Water Quality**

(possible concerns)  
Salt/oil based mud no  
High water table no  
Surface drainage leads to live water no  
Water well contamination no  
Porous/permeable soils no  
Class I stream drainage no  
Mitigation:  
 Lined reserve pit  
 Adequate surface casing  
 Berms/dykes, re-routed drainage  
 Closed mud system  
 Off-site disposal of solids/liquids (in approved facility)  
 Other: \_\_\_\_\_  
Comments: Fresh mud - No special concerns - Surface casing OK

**Soils/Vegetation/Land Use**

(possible concerns)  
Stream crossings no  
High erosion potential no  
Loss of soil productivity no  
Unusually large wellsite no  
Damage to improvements no  
Conflict with existing land use/values no  
Mitigation  
 Avoid improvements (topographic tolerance)  
 Exception location requested  
 Stockpile topsoil  
 Stream Crossing Permit (other agency review)  
 Reclaim unused part of wellsite if productive  
 Special construction methods to enhance reclamation  
 Other: \_\_\_\_\_  
Comments: no special concerns - Location requires minimal dirt work

**Health Hazards/Noise**

(possible concerns)  
Proximity to public facilities/residences over 1/4 mile  
Possibility of H2S no  
Size of rig/length of drilling time  
Mitigation:  
 Proper BOP equipment  
 Topographic sound barriers  
 H2S contingency and/or evacuation plan  
 Special equipment/procedures requirements  
 Other: \_\_\_\_\_  
Comments: no special concerns

**Wildlife/recreation**

(possible concerns)

Proximity to sensitive wildlife areas (DFWP identified) none  
Proximity to recreation sites none in area  
Creation of new access to wildlife habitat no  
Conflict with game range/refuge management no  
Threatened or endangered Species no

Mitigation:

   Avoidance (topographic tolerance/exception)  
xx Other agency review (DFWP, federal agencies, DSL)  
   Screening/fencing of pits, drillsite  
   Other: \_\_\_\_\_

Comments: no special concerns

**Historical/Cultural/Paleontological**

(possible concerns)

Proximity to known sites none in area

Mitigation

   avoidance (topographic tolerance, location exception)  
xx other agency review (SHPO, DSL, federal agencies)  
   Other: \_\_\_\_\_

Comments: no sites identified - location on state land

**Social/Economic**

(possible concerns)

   Substantial effect on tax base  
   Create demand for new governmental services  
   Population increase or relocation

Comments: no concerns

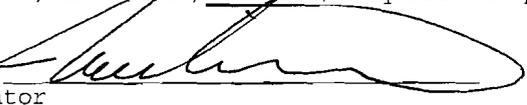

**Remarks or Special Concerns for this site**

Well is a 5,500' Horizontal Devonian oil test --TSU is sw nw and nw sw of the section (80acres)

**Summary: Evaluation of Impacts and Cumulative effects**

Impacts are minor and short term.

I conclude that the approval of the subject Notice of Intent to Drill (does/does not) constitute a major action of state government significantly affecting the quality of the human environment, and (does/does not) require the preparation of an environmental impact statement.
