APPLICANT INFORMATION

APPLICANT: City of Red Lodge  
FACILITY NAME: City of Red Lodge Wastewater Plant  
FACILITY LOCATION: Two Mile Bridge Road  
RECEIVING WATER: Outfall 001: Rock Creek  
PERMIT NUMBER: MT0020478

The City of Red Lodge Wastewater Plant is a three-cell aerated lagoon system that serves approximately 2,300 people. The system was updated in 2001. The Fact Sheet identifies additional effluent limits in this permit cycle. Treated wastewater is discharged to Rock Creek.

On September 21, 2000, a U.S. District Judge issued an order stating that until all necessary total maximum daily loads (TMDLs) under Section 303(d) of the Clean Water Act are established for a particular water quality limited segment, the State is not to issue any new permits or increase permitted discharges under the MPDES program. The order was issued in the lawsuit *Friends of the Wild Swan v. U.S. EPA, et al.*, CV 97-35-M-DWM, District of Montana, Missoula Division. The DEQ finds that the issuance of this proposed permit does not conflict with the order
