Subject: Continued Validity of CE Designation  
Muddy Creek – 17 km North of Choteau  
BR 9050(12)  
Control Number: 4549

Dear Alan Woodmansey:

The Montana Department of Transportation (MDT) has reviewed the subject project and concluded that the previously issued Categorical Exclusion (CE) designation remains valid under the provisions of 23 CFR 771.129(c). The original CE was signed by your agency on September 17, 2002 and re-evaluated on December 19, 2005.

Since three (3) years has lapsed since the CE was re-evaluated, MDT has reviewed the project for potential changes in NEPA/MEPA applicability and concludes that the proposed action will still not have a significant environmental impact, will still qualify as a CE under 23 CFR 771.117(d), and will still qualify as a CE under ARM 18.2.261.

In accordance with the Federal Highway Administration concurrence letter of April 15, 1999, this notification documents that this proposed action is still properly classified as a CE. If you have questions, please contact Eric Thunstrom at 406-444-7648.

Sincerely,

Heidi Bruner, P.E.  
Environmental Services Bureau Engineering Section Supervisor
