

**Troy Mine  
Revised Reclamation Plan  
Draft Environmental Document**

---

The Montana Department of Environmental Quality (DEQ) and the U.S. Forest Service Kootenai National Forest (KNF) are nearing completion of the draft environmental document for the Troy Mine Revised Reclamation Plan. The draft document will be available early in 2011 and will be available for review at <http://deq.mt.gov> or at libraries and agency offices in Troy, Libby, Missoula, and Helena. These locations will be further described when the draft document is available.

In order to reduce paper usage, a **CD containing the entire document in PDF format will automatically be sent to you** in early 2011 when the draft environmental document is completed. However, if you would rather receive a hard copy of the draft environmental document, please make your request by sending an e-mail to [troymine@hotmail.com](mailto:troymine@hotmail.com) or by calling our contractor at (406) 441-1400. Please request a hard copy now in order to receive the document at the start of the public comment period. Your CD (or hard copy if requested in time) will be mailed to you when available. Instructions on where to submit comments will be provided when you receive the draft environmental document.
