7/23/10	WRD	LRO	EA Checklist	41S 30046538		Montana Fish, Wildlife & Parks	This application proposes to appropriate surface water from Burnett Creek, a tributary to Big Spring Creek approximately 6 miles north of Lewistown, Montana. The proposed purpose is fish and wildlife and the period of appropriation is year round. The volume of water requested for fish and wildlife use is 351 acre-feet (AF) annually. The Applicant proposes to protect a portion of the total capacity and the total evaporation on two existing irrigation and stock water reservoirs that have had public fishing access sites since the 1960's. Both of these reservoirs have been recently reconstructed due to dam failure. The dam for Upper Carters Pond is located in the NENWSE Section 15 T16N R18E and has a capacity of 131.4 AF. The dam for Carters Pond, also known as Lower Carters Pond, is located in the SWNWNE Section 22 T16N R18E and stores up to 170.6 AF.	15	16N	18E	NENWSE	Fergus	7/13/10	10/8/10	Douglas Mann	NA	Burnett Creek, also known as Burnette Creek
