

**ENVIRONMENTAL ASSESSMENT FOR MINOR REVISION  
COAL AND URANIUM PROGRAM  
MONTANA DEPARTMENT OF ENVIRONMENTAL QUALITY**

COMPANY NAME: Signal Peak Energy

DATE: February 3, 2011

OPERATING PERMIT#: SMP 93017

MR#: 11-17-02

LOCATION: Bull Mountains Mine, T6N, R26E, Section 14

Type and Purpose of Action:

The operator is proposing to update Surface Mine Permit 93017. This revision does not significantly change the contents of the permit, rather it updates certain elements in accordance with minor revisions that have previously been approved.

Potential Impacts and Mitigation Measures:

There should be no environmental impacts, as the proposed action is to update the permit and is largely administrative. No changes to disturbance or reclamation are proposed.

Alternative Actions:

No alternatives were considered as the action will not affect the environment.
