							add points of diversion and change a portion of the places of use of historic water right no. 88226-41B, aka the Forrester well. The Applicant proposes to transfer a portion of the annual flow rate and volume of the historic Forrester well to three new wells to eliminate ditch loss and improve the efficiency of the irrigation diversions. The three new wells are located in the SESESW of Sec 20, SESESE of Sec 18, Twp 8S, Rge 8W and the SESESE of Sec 12, Twp 8S, Rge 9W all in Beaverhead County. The Applicant is removing 402 acres that were historically irrigated on the east side of Blacktail Deer Creek. Irrigation will be done by sprinkler with just a small amount of flood irrigation remaining. The proposed place of use will be located in Secs 17, 18, 19, & 20, Twp 8S, Rge 8W and Sec 13, Twp 8S, Rge 9W, all in Beaverhead County. 5/2/11	WRD	HRO	EA Checklist	411 30049510		Ash Grove Cement Co.	The applicant proposes to change the point of diversion for Statement of Claim No. 411 89439-00 by adding a second point of diversion. The source for both the current and proposed points of diversion is groundwater. Both diversions consist of a well drawing from what is likely the same limestone aquifer. The current point of diversion has been in use for over 45 years and service of the well is difficult to impossible due to overhead electrical lines. Should a change authorization be issued, the applicant proposes to use the old well only for backup during times when the new well is off-line. The well serving the new point of diversion was completed in July, 2006.	13	9N	3W		Jefferson	4/20/11	5/4/11	Bryan Gartland	NA	Groundwater

DNRC QUARTERLY MEPA REPORT
April through June 2011

7/1/11	WRD	KRO	EA Checklist	76LJ 30050671		Flathead County Road and Bridge Department	This application is to obtain a water use permit for two points of diversion from the North Fork of the Flathead River for the purpose of road dust abatement. The Flathead County Road and Bridge Department utilizes 3,500 gallon trucks for dust abatement, which over the period requested appropriation, April 1 – August 31, will result in the use of 2.36 acre-feet (AF) at a rate of 800 gallons per minute (GPM). The requested flow rate was determined by each truck having the ability to divert water at a rate of 400 gpm, and there being a possibility of two trucks pumping simultaneously, thus totaling a diversion rate of 800 gpm.	35 22	32N 33N	20W 20W	NWNESW SESESW	Flathead	6/23/11	7/1/11	Denise Biggar	NA	North Fork Flathead River
