Dear Ladies and Gentlemen:

Attached is a list of six (6) draft Environmental Assessments (EAs) prepared for Montana Fish, Wildlife and Park's Future Fisheries Improvement Program. These draft EA's were produced for the winter 2011 funding cycle. The Program tentatively plans to provide partial funding to a series of projects for the purpose of restoring degraded fish habitat and improving wild fisheries.

In an effort to reduce printing and mailing costs, you have received this letter notifying you that draft EAs have been completed and are available for your review. To receive a copy of these draft EAs, please check the associated boxes and return to the address listed above or contact Montana Fish, Wildlife and Parks at (406) 444-2432. Funding for these projects through the Future Fisheries Improvement Program is contingent upon approval being granted by the Fish, Wildlife and Parks Commission.

The EA drafts also are available for review on Montana Fish Wildlife and Parks webpage:
<http://fwp.mt.gov/news/publicnotices/>.

Please submit any comments that you have by 5:00 P.M., February 28, 2011 to the Montana Department of Fish, Wildlife and Parks in Helena at the address listed above. Please note that these EA drafts will be considered as final if no substantive comments are received by the deadline listed above.

Sincerely,

Mark Lere
Habitat Protection Bureau
Fisheries Division
E-mail: mlere@mt.gov

Draft EA's prepared for the winter 2011 funding cycle of the Future Fisheries Improvement Program includes:

- Deep Creek Bank Stabilization Project
- Middle Fork and South Fork Horse creeks Channel Stabilization Project
- Mill Creek In-stream Flow Enhancement Project
- Murphy Spring Creek In-stream Flow Water Lease Project
- Rock Creek Culvert Removal and Fish Passage Enhancement Project
- Willow Creek Habitat Enhancement Project
