Subject: Supplement to the Categorical Exclusion Group (d) Action Letter

Reference: Federal-aid Project Number: MT 12(149)
Federal-aid Project Name: Beaverdam Playground and Park Project
MDT Uniform Project Number: 6636

This is a supplement to the Categorical Exclusion Group (d) Action Letter dated August 10, 2010 for Federal-aid Project Number MT 12(149). In that letter, under Project Impacts, Historical/Cultural Resources, please include the following:

In addition to the coordination noted in the previous section, additional coordination occurred with SHPO regarding the proposed asbestos abatement within the historic portion of the school. SHPO determined that the abatement measures would have no adverse effect on the structure's National Register qualities. Given the results of the coordination with SHPO and the fact that there will be no "use" of the building that makes the resource eligible for the National Register of Historic Places, it is determined that the removal of the building addition and the asbestos abatement activities within the historic portion of the structure do not trigger a Section 4(f) action and, thus, no further evaluation is necessary.

Signature of Environmental Certifying Official or Chief Elected Official

Connie Ternes Daniels, Anaconda-Deer Lodge County Planning Director
