

NOTICE OF PUBLICATION OF CATEGORICAL EXCLUSION

CITY OF MILES CITY, MONTANA

WPCSRF #: C30232

HAYNES AVE LIFT STATION AND WWTR HEADWORKS
IMPROVEMENTS PROJECT

February 16, 2012

The Montana Department of Environmental Quality has reviewed the above named project. The project consists of replacing the Haynes Avenue lift station (located on the north side of the intersection of Haynes Ave & US Hwy 94) with a new lift station, new pumps, motors and back-up power supply; also included in the project is a new mechanical screen and screening channel at the existing wastewater treatment facility in Miles City, MT.

Haynes Avenue lift station pumps between one-third and one-half of the City's wastewater. This lift station was installed in 1979. The pumps, valves, and other appurtenances were installed as a package facility. The lift station is nearing the end of its useful life. The steel vault is rusted through in several places and the control panel, pumps and equipment are failing and losing efficiency, a sign of motor wear. The headworks improvements would replace existing one-inch bar screens with a more efficient mechanical screen and bypass channel to remove solids down to one-quarter inch in size and larger. The existing screens are cleaned three or more times per day and result in operator exposure to raw wastewater and sanitary risks. Improvements would automate screening and result in efficient and safe disposal practices. Solids handling will result in significant odor reduction at the plant.

Pursuant to ARM 17.40.318, the Department has concluded that the proposed project meets the Categorical Exclusion criteria of the National Environmental Policy Act (NEPA) and the Montana Environmental Policy Act (MEPA).

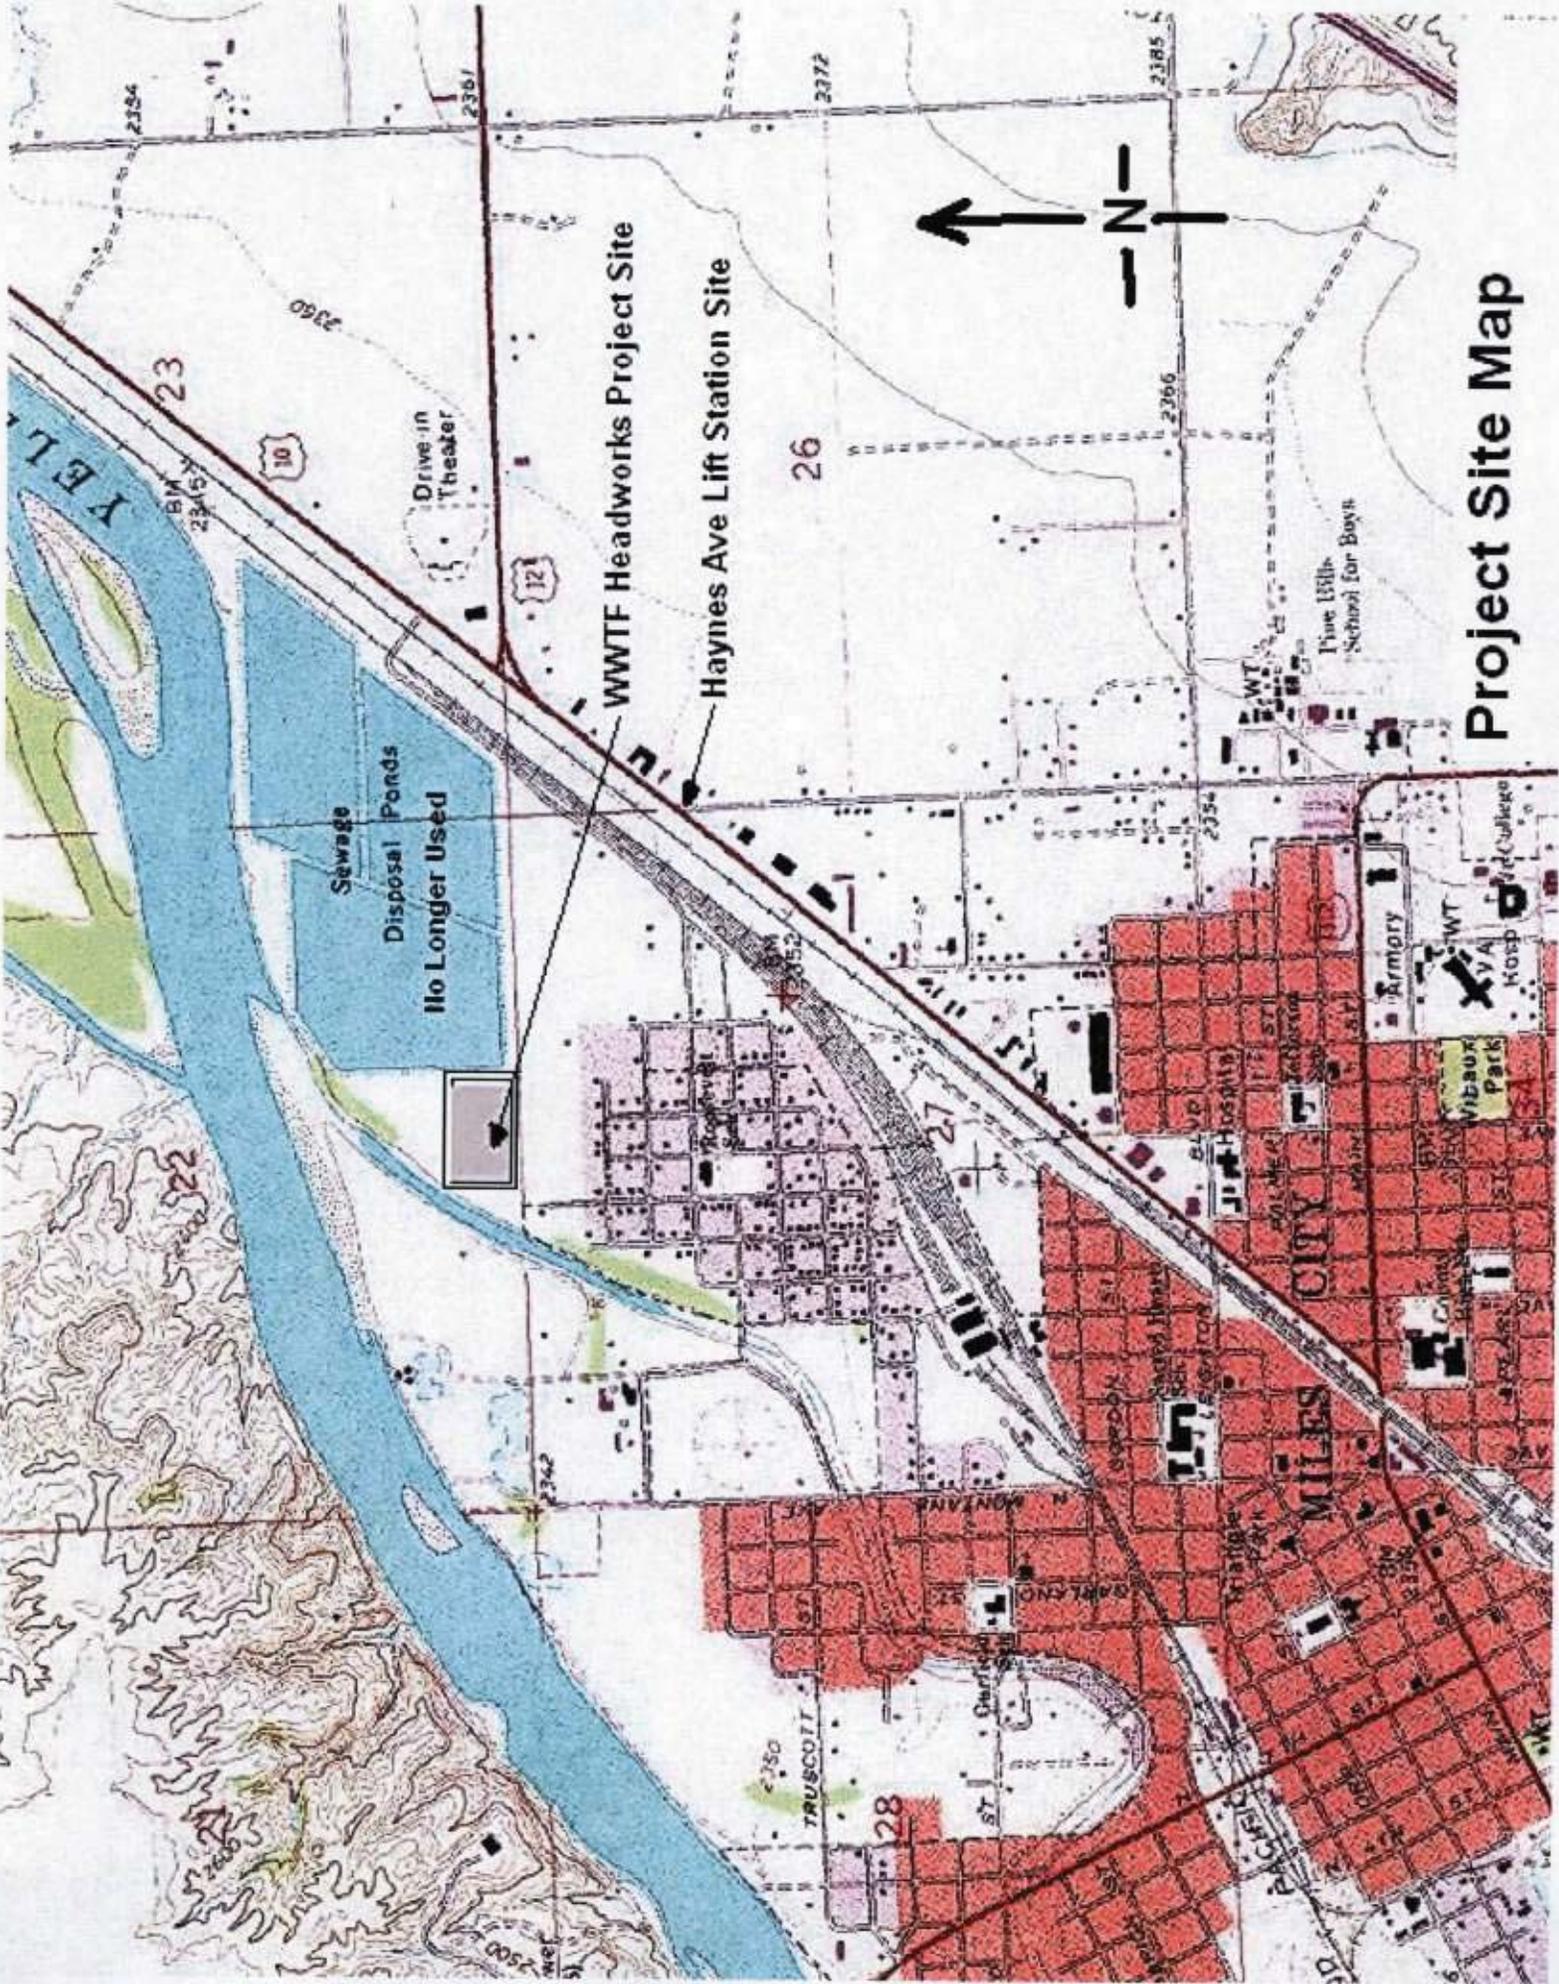

The documentation for the Categorical Exclusion is available for public review at the following locations:

CHAPTER III – ATTACHMENT D

DOCUMENTATION OF CATEGORICAL EXCLUSION DETERMINATION CHECKLIST

Project Name / Brief Description: Miles City – Haynes Ave Lift Station and WWTF Headworks Improvements Project

Project Number: SRF # C301252

Date: 2/1/2012

Preparer: Terry Campbell, CWSRF Program

The Department action under Title 75, chapter 5, part 11 and or chapter 6, part 1 or 2, MCA, is excluded from the requirement to prepare an environmental assessment (EA) or environmental impact statement (EIS) if the application for department review is for any of the following projects:

(a) Projects relating to existing infrastructure systems such as sewer systems, drinking water supply systems, and stormwater systems, including combined sewer overflow systems that involve:

[Answer yes or no. If all answers "no", an EA or EIS must be completed. If any answer is yes, skip to (b).]

- NO 1. minor upgrading;
- NO 2. minor expansion of system capacity;
- YES 3. rehabilitation (including functional replacement) of the existing system and system components;
- YES 4. construction of new minor ancillary facilities adjacent to or on the same property as existing facilities; or
- NO 5. projects in unsewered communities involving the replacement of existing on-site systems, provided that the new on-site systems do not result in substantial increases in the volume of discharges or in loadings of pollutants from existing sources, and do not relocate existing discharges.

(b) A categorical exclusion may NOT be granted for a department action if:

[Answer yes or no. If all answers "no", skip to (c). If any answer is yes, an EA or EIS must be completed.]

- NO 6. the action would authorize facilities that will provide a new discharge or relocate an existing discharge to ground or surface waters;
- NO 7. the action would result in an increase above permit levels established for the facility under the Montana pollutant discharge elimination system or Montana ground water pollution control system for either volume of discharge or loading rate of pollutants to receiving waters;
- NO 8. the action would authorize facilities that will provide capacity to serve a population at least 30% greater than the existing population;
- NO 9. the action is not supported by the state, or other regional growth plan or strategy;
- NO 10. the action directly or indirectly involves or relates to upgrading or extending infrastructure systems primarily for the purposes of future development;
