

Application Number: T12-015

Project Title: Flood Recovery from Noxious Weeds

County: Lewis & Clark

NWTF Environmental Assessment Reviewer Form

MDA Reviewer	Area of Concern	Potential Impact on Environment	Initial Review of Mitigation	Notes on Mitigation Statement	Approved
Kim Johnson	General Vegetation Type	Minor	Good	Adequate mitigation statement.	3/9/12
Rick Mulder	Surface & Groundwater	Moderate	Good	Abundant shallow groundwater, surface water, and susceptible soils in application areas (flood plains). Applicant has outlined how education will be used to inform applicators of issues. I just wonder how effective such efforts will be. Buffers in place around wells and surface water bodies should help.	2/3/12
Rick Mulder	Soils	Moderate	Good	Same as above.	2/3/12
Craig McLane	Threatened & Endangered Species	Moderate	Good	Adequate Mitigation.	2/24/12
Craig McLane	Fish & Wildlife Habitat	Moderate	Good	Adequate Mitigation.	2/24/12
Jeremy Seidlitz	Air Quality	Minor	Good	Adequate mitigation statement.	2/20/12
Jeremy Seidlitz	Historical & Archeological Sites	None	Good	Has SHPO letter for this project.	2/14/12

Potential Impact on Environment: high, moderate, minor, none (select one for the above boxes)

Initial Review of Mitigation: excellent, good, needs more mitigation (select one for the above boxes)
