Subject: Categorical Exclusion Re-Evaluation  
STPX 81024(8)  
Skalkaho Road/MT 11-1  
UPN 7752000

Dear Gene Kaufman:

Environmental Services has reviewed the above proposed project's impacts and has determined that this proposed project still qualifies as a Categorical Exclusion (CE) under the provisions of 23 CFR 771.129(c). The original CE was signed December 8, 2011 and is attached. This proposed action also continues to qualify as a categorical exclusion under the provisions of ARM 18.2.261 (Sections 75-1-103 and 75-1-201, M.C.A.).

The Scope-of-Work for the proposed project has been reviewed and has changed. The change involves the extension of project limits to include the repair of an additional slide area. The current project is on Skalkaho Road between RP 19.7 to 19.8. Approximately three weeks ago a fill slope failure occurred about 0.3 miles east of this original project between RP 20.0 and 20.1. The repair of the slide area involves shifting the centerline of the roadway into the hill side to widen the roadway to 20 feet. The work will be similar to the work currently nearing completion and includes grading, blasting, gravel surfacing, and other minor items on approximately 400 feet of road. There will be no utility involvement, but there will be right-of- involvement with the adjacent landowner, the Bitterroot National Forest (Darby Ranger District).

Due to the change in the project scope the project limits are being revised to between RP 19.7 and 20.1. No work will be conducted between RP 19.8 and 20.0. The site has been reviewed by MDT construction and geotechnical staff, Bitterroot National Forest Service engineer and resource staff, and the current contractor. Coordination with the Bitterroot National Forest engineer is ongoing. The planned repair is very similar to the original project.

As a result of the change, we have reviewed the biological/cultural/hazardous waste etc. impacts and found that in accordance with 23 CFR 771.117(a), this action will neither individually or cumulatively have any significant environmental impacts. This change will not require any environmental permits.

In accordance with the Federal Highway Administration's concurrence letter of April 15, 1999, this notification documents that this proposed action is still properly classified as a CE under the provisions of 23 CFR 771.117(d).
