

Total Undiscovered Mean Oil Resources Updated August 2011

Source: U.S. Geological Survey

Using data prepared by the U.S. Geological Survey (USGS), this chart shows the U.S. total undiscovered mean oil resources by region where total exceeds 1 billion barrels of oil. The information developed by the USGS can be found at <http://energy.usgs.gov/>. For detailed USGS National Assessments of Oil and Gas Fact Sheets for individual formations visit <http://energy.usgs.gov/OilGas/AssessmentsData/NationalOilGasAssessment.aspx>. Frequently asked questions on the Bakken formation provided by USGS is found at <http://www.usgs.gov/faq/index.php?action=show&cat=21>. Additional oil and gas development information provided by the U.S. Energy Information Administration is available at http://www.eia.gov/oil_gas/rpd/topfields_oil.pdf.
