

The graph shows total enrollment in Health Montana Kids (HMK) since it was enacted by voter initiative in November 2008 by eligibility level (family income as a percentage of the federal poverty level – FPL). For example, 100% of the federal poverty level for a family of 4, is an annual income of \$23,050.

The majority of enrollment (69%) is HMK Plus or children in families with the lowest household income. Eligibility categories are:

- o HMK Plus - under 100% FPL
- o HMK Plus CHIP Funded Group - 101% to 133% FPL
- o HMK CHIP – 134% to 250% FPL
