

Montana University System
Student Enrollment by Institution Type
FY 2004

Montana University System
Student Enrollment by Institution Type
FY 2014

These pie charts show Montana University System student full-time equivalent (FTE) enrollments by institution type in FY 2004 and FY 2014. Total enrollment in Montana public postsecondary education institutions has increased from 35,784 FTE in FY 2004 to 39,484 in FY 2014, a 10.3% overall increase. The second chart shows that FTE enrollment at 2-year campuses (community colleges and colleges of technology) increased from 18% of total enrollment in FY 2004 to 20% of total enrollment in FY 2014.

*2-Year student FTE enrollments include both community colleges and colleges of technology.
