

The chart above shows the number of infants born in Montana, not including stillbirths.

#### Montana's Population

From 1999 to 2014 the number of live births in Montana has increased from 10,779 to 12,431. During that time Montana's population increased from 902,195 in 2010 to an estimated 1.02 million in 2014, according to the US Census Bureau.

#### Birth Rates and K-12 Education:

Birth rates are used to forecast funding, staffing and infrastructure requirements for Montana public school districts.
