### Mission Statement

A Ties to Appropriation Transactions

B Ties to funding table, budget category table.

The mission of the Legislature is to exercise the legislative power of state government vested by The Constitution of the State of Montana. The mission of the Legislative Branch, i.e., the consolidated legislative agency, is to provide the administrative structure to support accomplishment of the mission of the Legislature. For more information, please refer to the agency profile: <http://leg.mt.gov/fbp-2017.asp>

### Agency Discussion

All divisions of the Legislative Branch make requests for cyclical adjustments, primarily for information technology, temporary personnel, printing, and broadcasting. Most of the increases and decreases contained in this proposal reflect the cyclical nature of the legislative business cycle.

### 5% Plan

Statute requires that agencies submit plans to reduce general fund and certain state special revenue funds by 5%. The Legislative Branch has provided a plan for \$695,933 in reductions. The agency submitted plan is contained in the appendix section.

D= executive implementation for FY 2015 by program.  
E=Legislative appropriation for FY 2015 by program.

### Agency Personal Services

The Legislative Branch typically hires at entry and will continue to do so. The pay philosophy for career ladders will remain the same as in the past--when promoted, the employee's salary increase will be at least the entry level salary for the occupation wage range of the promoted-to position. A promotion increase may not be awarded if it results in a division exceeding its approved budget.

The Legislative Branch Pay Plan encompasses the agency pay philosophy and provides parameters for merit-based and promotion-based pay adjustments. The branch implemented pay adjustments approved by the legislature in HB 13. In addition, the Legislative Branch offers a flexible schedule and telework options to those occupations that are eligible. Branch directors will continue to evaluate options available to address employee retention.

The Legislative Branch has 12.8% of the workforce eligible for retirement in the 2017 biennium and the Branch continues to work on succession planning.

### Comparison of FY 2015 Legislative Base to FY 2015 Appropriation

The following highlights the differences between the FY 2015 appropriations as shown in the table and legislative appropriations used for purposes of the budget base, by program.

### Funding

The following table shows proposed agency funding by source of authority as proposed. Funding for each program is discussed in detail in the individual program narratives that follow.

Total Legislative Branch Funding by Source of Authority 2017 Biennium Budget - Legislative Branch					
Funds	HB2	Non-Budgeted Proprietary	Statutory Appropriation	Total All Sources	% Total All Funds
General Fund	25,406,623	0	0	25,406,623	84.58 %

<b>Percent - Total All Sources</b>	<b>100.00 %</b>	<b>0.00 %</b>	<b>0.00 %</b>		

The Legislative Branch is mainly funded with general fund. State special revenues support the costs associated with the state broadcasting service (TVMT); the preparation, publication, distribution of the Montana Codes Annotated; and a portion of the activities of the Legislative Audit Division.

While not shown in the table above, the Legislative Branch has statutory appropriation authority for the following:

- Legislative Branch reserve account is any portion of unexpended and unencumbered money included in the “feed bill” (the bill that funds the legislative session each year) and remaining carry forward appropriations for the divisions. The funds may be used for major Legislative Branch information technology projects including hardware, software, and consultant services for new initiatives and replacement and upgrading of existing systems
- All money for audits transferred to the legislative auditor must be deposited in a state special revenue fund in the state treasury to the credit of the Office of the Legislative Auditor. The money deposited in excess of general and pay plan appropriations is derived from higher than estimated audit revenues and may be used to pay expenses incurred in auditing state agencies based on an approved operating plan

### Program Discussion -

#### Comparison of FY 2014 Actual Expenditures to FY 2015 Legislative Appropriation

Actual FY 2014 expenditures are \$1,043,266 below the FY 2015 legislative appropriation. The primary reason for the difference is the cyclical operational adjustments for session related costs needed in FY 2015, but not needed in FY 2014.

### Funding

The following table shows proposed program funding by source from all sources of authority.

Legislative Branch, 20-Legislative Services Division Funding by Source of Authority						
Funds	HB2	Non-Budgeted Proprietary	Statutory Appropriation	Total All Sources	% Total All Funds	
01100 General Fund	15,210,239	0	0	15,210,239	93.44 %

### Present Law Adjustments -

The "Present Law Adjustments" table shows the changes from FY 2015 legislative appropriation to the budget proposed by the executive. PSPL adjusts all personal services. LGPL provides for adjustments to other expenditures such as operating

expenses. Each is discussed in the narrative that follows. Total funds in the Present Law Adjustments table do not include proprietary funds budgeted in House Bill 2.

Total Present Law funding is correct. Numbers highlighted in yellow should be correct.

CP98 - Personal services present law adjustments - were broken down into decision points requested by LFC and legislative financial leadership.

Other adjustments include staff turnover, like retirements.

#### DP 99 - LEG. Present Law -

Please refer to the program narrative for DP 99 for explanations of the adjustments made to legislative present law. The operating costs change primarily due to the change packages.

- The Branch produces and publishes the Montana Codes Annotated in even years. Therefore, the increased costs in FY 2016 are due to printing the Montana Codes Annotated (all state special revenue) and TV MT. The reduction in FY 2017 is reflective of the production and publication of the Codes in even years
- Decrease in general fund is primarily a result of a decrease in the information technology budget

**New Proposals -**

Total funds in the New Proposals are the same as the Executive requested. Budgeted in House Bill 2.
