

Lodging Taxes

Revenue Description

The state imposes two taxes on room charges collected by lodging facilities and campgrounds: a lodging sales tax and a lodging facility use tax. The taxes only apply for rooms used for lodging.

The 3% lodging sales tax applies to hotels, motels, campgrounds, resorts, dormitories, condominium inns, dude ranches, guest ranches, hostels, public lodging houses, and bed and breakfast facilities. Exempt are facilities for health care, facilities owned by non-profit corporations for use by youth for camping, facilities whose average daily charge is less than 60% of the amount the state of Montana reimburses for lodging, and facilities rented for 30 days or more. Sales to the U.S. government are also exempt from the sales tax.

The 4% lodging facility use tax applies to facilities containing individual sleeping rooms or suites, providing overnight lodging for periods of less than 30 days to the general public for compensation. This includes hotels, motels, campgrounds, resorts, dormitories, condominium inns, dude ranches, guest ranches, hostels, public lodging houses, or bed and breakfasts. Exempt are non-profit or religious corporation facilities used primarily by youth for camping, facilities whose average daily charge does not exceed 60% of the amount the state of Montana reimburses for lodging, and facilities rented for 30 days or more.

Applicable Tax Rates

The lodging sales tax is 3.0% of the sales price. The lodging facility use tax is 4.0% of room charges.

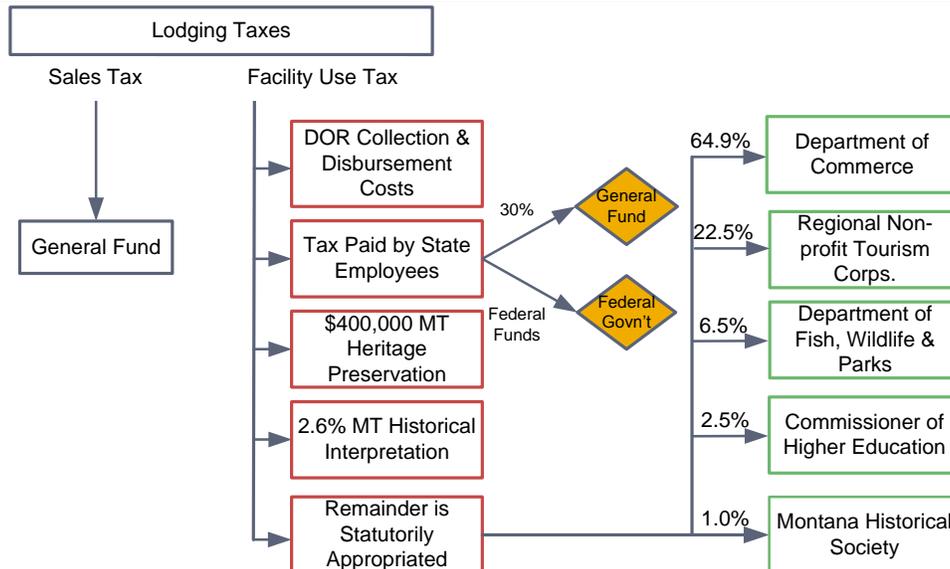

Collection Frequency: Quarterly

Distribution

Sales tax: All proceeds are deposited into the general fund.

Facility use tax: The revenue is first distributed to the Department of Revenue in the amount appropriated for collection and disbursement costs; 30% of the taxes paid by state employees to the general fund (taxes paid with federal funds are reimbursed to the federal government from the general fund); \$400,000 to the Montana heritage preservation and development fund; and 2.6% to the historical interpretation account. After these distributions, the remainder is distributed and statutorily appropriated:

- 67.5% to the Department of Commerce for tourism promotion and promotion of the state as a location for the production of motion pictures and television commercials
- 22.5% to regional nonprofit tourism corporations
- 6.5% to the Department of Fish, Wildlife and Parks for maintenance of state park facilities
- 2.5% to the university system for the establishment and maintenance of a Montana travel research program
- 1.0% to the Montana Historical Society to install and maintain roadside historical signs and historic sites

Summary of Legislative Action: No impacting legislation was enacted in the 2015 session.

Revenue Estimate Methodology

Data

The estimate for this source is based on historical collection data from SABHRS, and actual and forecast U.S. personal income from IHS.

Analysis

Total lodging taxes are made up of two separate taxes, the lodging facility use tax and the lodging sales tax; a proxy for taxable room charges—tax collections divided by the appropriate tax rate—is used as the starting point both sources. This proxy is modeled on U.S. consumer spending on accommodations to produce a forecast of taxable room charges. Estimates of taxable room charges are multiplied by the corresponding tax rate and summed to produce the total lodging tax estimate.

Joint Tax Subcommittee Alternatives

The alternative adopted by the joint subcommittee adjusted the LFD estimate upward by \$3.3 million over the outlook period to equal the executive estimate.

Revenue Estimate Assumptions

This section contains the assumptions used to generate the revenue estimates contained in House Joint Resolution 2. It does not reflect changes, if any, enacted by the 2015 Legislature.
