1 - MMIS Project Quality

1.1 Project Summary

Current Phase:	Requirements Analysis/Iterative Design/Development
Most Recent Accomplishment:	Participated in Xerox January 2014 design sessions and conducted surveys evaluating each session the week of 1/13/14
Next Major Milestone:	Solution Demonstration for Contact Management – 5/14/13 (based on approved work plan)
Next Payment Milestone:	Benefit Plan – 11/5/13 (based on approved work plan)
Biggest Project Challenges:	<ul style="list-style-type: none"> • Five missed payment milestones • Delays in design, development, unit testing, and system testing • HE 2.0/architecture deficiencies • Xerox re-plan project work plan not yet delivered • Large number of Xerox action items not addressed • Gap quality, tracking, and process management concerns
Status Overview	<p>Re-planning Effort – Xerox formally announced their approach for the project re-planning effort in a meeting with DPHHS/PK on June 11, 2013. Xerox delivered the new work plan framework and accompanying Power Point presentation on 8/7/13. The framework and presentation were reviewed with the DPHHS team in a meeting on 8/7/13. Xerox is in the process of conducting a deep-dive to finalize their gap estimates. There are several important items missing from the work plan framework (e.g. data conversion, ICD-10, waiver, etc.). Xerox planned to redeliver a more complete work plan on October 6th, October 21st, November 8th, November 29th and December 2nd. On January 15, 2014, Xerox announced that the re-planned work plan is planned for delivery to DPHHS on 1/31/14.</p> <p>Design Session Re-start - On 12/9/13 design sessions, based on the approved work plan, were reinstated. These sessions are two hours in duration, per functional area, per week. Sessions from 12/9/13 – 1/16/14 included DPHHS MMIS BAs and PMs only. DPHHS Subject Matter Experts began attending the sessions on 1/21/14. Session surveys have been developed for both the BA/PMs and the DPHHS SMEs to evaluate each session. Reports summarizing feedback captured in the session surveys are being provided to Xerox on a weekly basis.</p> <p>Amendment 5 – The framework for Amendment 5 has been created. This amendment will address, at a minimum, Oracle licenses, the new Xerox work plan, and the new payment milestones.</p> <p>Staffing Changes – Xerox announced on July 18, 2013 that any Xerox MMIS DDI project resources that have not previously worked for the Xerox Fiscal Agent Services in Montana are employed by Cognizant, effective August 1, 2013. DDI staff that previously worked for the Xerox Fiscal Agent Services in Montana were employed by Cognizant, effective October 1, 2013. An additional wave of rebadging of Xerox staff to Cognizant occurred on 1/1/14.</p> <ul style="list-style-type: none"> • Kimberly Price, Kevin McFarling, Phil Messina, Kris Feliciano, Heather Monday, Jean Beatty, Kristy Gilreath, Jean McCarthy, Bill Conklin, Jessica Pickering, Julie Allen and 3 key architecture staff have resigned from Xerox • A staffing plan to address the three open named positions (Project Manager, DDI Manager & DSS Lead) was delivered to DPHHS on 12/17/13 and DPHHS responded to the proposal on 1/15/14 • Neil Galloway retired from Xerox effective 12/31/13, vacating a fourth named position (Conversion Manager) • Chris Bertelsen, the named PM Analyst, has not been actively engaged in the project since October 2013, vacating a fifth named position

1.2 Recommended Priorities for Next Reporting Period

Recommended Priorities	Responsible Party	Risk Level
<p>Request a change to the Resource Status Criteria Metrics in Xerox Weekly Status Report, based on the agreement with Xerox that the average resource allocation for the next 90 days should be 100%.</p> <p>Update: Discussed with Tom on May 10, 2013. An email formally requesting these changes was sent to Xerox on June 4, 2013. Xerox notified DPHHS on June 11, 2013 that they plan to include these changes in their re-planning effort. Issues, Risks and SPI criteria metrics will need to be adjusted as well.</p>	Tim Peterson	 yellow

Risk Level Key:

 Green: no risk identified risk	 Yellow: identified risk – must be actively managed	 Red: identified problem – requires mitigation

1.3 Issues for Management Attention

The following table presents the most critical issues on the project. Refer to the project issue log in the DPHHS SharePoint for more detailed information about project issues.

Issue	What's Been Done	What's Still Needed
<i>1) Lack of availability of Health Enterprise (HE) Experts for collaboration sessions</i>		
<ul style="list-style-type: none"> - When the new collaboration session process was implemented, Xerox committed that they would have a HE expert present in each session - Lack of HE knowledge in sessions generates numerous action items for Xerox - Without proper knowledge of the HE system, gaps cannot be properly identified - Xerox has indicated that they are competing with resources for UAT in other states, and will not always be able to provide a HE expert for sessions in Montana - Sessions may have to be repeated when HE experts are available - Xerox committed on 7/26/12 that an HE expert will be on-site for each collaboration session - No Xerox SME present for Claims (Front End) Gap Identification session - Afternoon of Tuesday, 8/7/12 was canceled due to lack of Xerox HE expert availability - There was no Xerox HE SME present for the Reference session on 8/13/12 or 8/14/12 - Many questions in the Member 3 session, 	<ul style="list-style-type: none"> - An issue has been entered in the Xerox SharePoint - DPHHS has requested that an HE SME be present for each collaboration and design session - DPHHS has requested that if an HE SME is not able to be onsite to support a collaboration session, they participate in the meeting by video conference, rather than over the phone - Xerox provided a spreadsheet outlining the qualifications and areas of expertise of the SMEs that will be supporting the collaboration and design sessions - Xerox experts participated in two of the collaboration sessions via video conference the week of 9/10/12 - Xerox provided a SME Help spreadsheet on a monthly basis, outlining the HE Experts scheduled for each collaboration session - As of the re-start of design sessions 	<ul style="list-style-type: none"> - Knowledgeable Xerox Health Enterprise SMEs on site for each collaboration and design session - Xerox expert attendance and participation will be evaluated for each session with the design session survey - Results of the evaluation will be reported to Xerox on a weekly basis

12/24/13 - 1/21/2014 Reporting Weeks	3,137	15,400	-506	479

Schedule Performance Index (SPI)

PK has resumed calculation and reporting of SPI. The number may vary from Xerox reported number based on the following difference in Planned Value measurement:

- Xerox calculates planned value at the task level while evenly distributing planned hours over the lifetime of the task.
- PK calculates planned value by the hours scheduled to have been completed to date.

PK will be using the earned value calculations reported by Xerox in the SPI calculation.

Slipped Tasks

Slipped tasks are tasks whose baseline start and/or finish dates have passed. The number of slipped tasks has been gradually increasing since the project start. This week's slipped task count increased from 1066 to 1102 from the last report (1/15/14). The majority of the tasks are slipped due to delays in system testing, design, and development. The Xerox slipped task count does not include deliverables or interim deliverables.

Xerox Functional Area Iterations – Progression and Approval

Requirement Elicitation Progress

There are 6% of the Attachment G requirements that have not yet been discussed in all relevant requirements sessions.

Gap Identification and Design

Note: The number (8) at the top of the 11/19/13 column is the count for Future Considerations.

- The Out of Scope Gap count has decreased by 5 since the December monthly report
- The Obsolete Gap count has increased by 1 since the December monthly report
- There are a large number of gaps (365) that have not been mapped to a DSD artifact

System Test Results

System Testing is currently on hold. Reporting of system test results will resume when testing activities resume.

System Test Defects

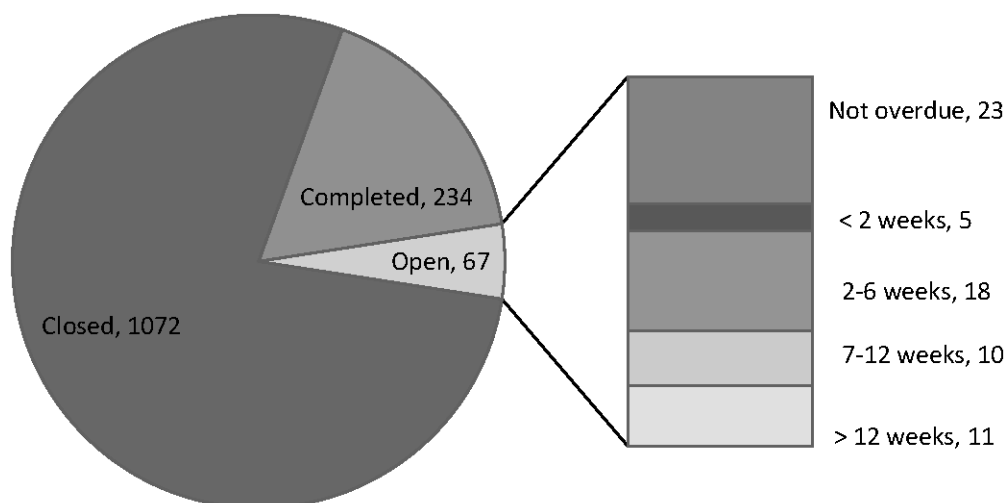

System Testing is currently on hold. Reporting of defect metrics will resume when testing activities resume.

Obstructions or Barriers

Obstruction/Barrier	Action Needed
<i>Lack of availability of Health Enterprise Experts for collaboration sessions.</i>	Xerox to provide a knowledgeable Health Enterprise SME for all Collaboration Sessions.
<i>Fragmented delivery and missing traceability of DSDs will present challenges in the review of the documents</i>	Xerox to add User Interface Specification name to the traceability in DOORS.
<i>Gap tracking and process management concerns</i>	Processes for management of gaps should be established and followed
<i>Limited DPHHS/PK access to JIRA and Greenhopper</i>	Xerox to provide expanded access to JIRA and Greenhopper
