Program Description

The General Services Division is composed of three bureaus responsible for providing certain internal services to government agencies and the public.

The Facilities Management Bureau manages the following services for state agencies in the capitol complex and several state-owned buildings in the Helena area either directly or through the administration of service contracts: repair, maintenance, construction, energy consumption, disaster response and recovery, space allocation, lease negotiation, security, janitorial, recycling, pest control, grounds maintenance, and garbage collection.

The State Procurement Bureau procures or supervises the procurement of all supplies and services, and provides technical assistance to government agencies and the public to ensure compliance with the Montana Procurement Act. The bureau also manages the state's energy procurement, vehicle fueling and procurement card programs, and the central stores program.

The Print and Mail Services Bureau provides print and mail services to state agencies. Services include internal and external (contracted) printing, photocopy pool services, mail preparation, central mail operations, and inter-agency (deadhead) mail. The bureau also operates the United States Post Office in the Capitol and provides one quick copy location on the Capitol Complex.

In addition to the three bureaus, the division manages the state and federal surplus property program.

Program Highlights

| General Services Division Major Budget Highlights |
|---|
| <ul style="list-style-type: none"> • The 2017 biennium budget included in HB 2 is 29.1% higher than the 2015 biennium legislative appropriation • Non-budgeted proprietary funds provide over 86.9% of the support for the program • The legislature moved the Central Stores Program from a proprietary rate to a state special revenue account due to changes in the program's operations • The legislature provided \$1.6 million of general fund each year of the biennium for rent of the common spaces within the capitol complex |

Program Narrative

Personal services increase due to the implementation of pay raises and health insurance contributions included in HB 13 as enacted by the 2013 Legislature. Other changes approved for personal services include:

- Employee attainment of longevity milestones in the 2017 biennium
- Changes in employer retirement
- Reductions in costs related to the implementation of the boilerplate language in HB 2 enacted by the 2013 Legislature
- Inclusion of FTE to administer the central stores function

The legislature moved the Central Stores Program from proprietary rates to a state special revenue fund appropriated in HB 2. The 2013 Legislature eliminated the warehouse function of the Central Stores Program that was supported by a proprietary rate through agencies paying for goods and services. Instead General Services Division operates the Montana eMarketCenter. This is an online purchasing portal allowing state agencies to purchase goods directly from Montana vendors. The vendors pay a 2% fee each quarter. The legislature established a state special revenue account for the eMarketCenter for deposit of the 2% fee.

Operating expense increases for the various divisions include the following:

- Procurement Bureau increases are mainly due to additional costs for State Information Technology Services Division computer services, indirect cost charges to support the Director's Office, and higher building rent
- Fueling and Procard Division changes relate to increased costs for rent and grounds maintenance charged by the proprietarily funded Facilities Maintenance Bureau
- Facilities Management includes reinstatement of a one-time-only general fund appropriation for the rent of the common areas within the State Capitol Building, the Montana Historical Society, and the Governor's Mansion.

HB 2 Funding

General fund provides support for the State Procurement Bureau and for transfers to the capitol complex major maintenance account in the state special revenue fund.

State special revenues from procurement rebates fund a portion of the procurement functions that provide for the fueling and procurement card operations. The legislature moved central stores from the proprietary fund to an account within the state special revenue fund.

Proprietary Funds

The majority of the office is supported through proprietary funds. These funds are considered and approved as rates charged to other divisions in the agency and are discussed in the "Proprietary Rates" section of the narrative.

Statutory Appropriations

General Services Division issues federal fund rebates for procard and fuel card rebates under 17-3-106, MCA. Rebates that are for costs provided by federal funds are returned to the federal government.

Other Issues

Proprietary Rates

The General Services Division provides the following functions supported by proprietary rates charged to state agencies:

- Facilities management (Rent and Grounds Maintenance)
- Print services
- Mail services
- Surplus property
- Central stores

Facilities Management Bureau - 06528

Program Description

Rent and maintenance are managed by the Facilities Management Bureau (FMB), which is the custodian of all state property and grounds in the state capitol area. The state capitol area is the geographic area within a 10-mile radius of the State Capitol. Services include providing facilities management assistance, including repair, maintenance, and construction services to state agencies in the Helena area; and providing statewide leasing assistance to agencies to negotiate colocation of agencies when procuring leased space for field offices. The bureau also manages the office waste paper products recycling program in the Helena area. The program serves all agencies and units within state government.

Rate and Rate Explanation

Rent is based on square feet occupied and is assessed each agency in the buildings controlled by the Department of Administration. The rates are established to cover the cost of personal services and operating expenses including maintenance and equipment. Grounds maintenance charges are also based on square feet of office space occupied in buildings controlled by the Department of Administration. Again, the rates are established to cover the cost of personal services and operating expenses including maintenance and equipment replacement.

The legislature adopted the following rates:

| Requested Rates for Internal Service Funds Fee/Rate Information | | | | |
|--|------------------------|--------------------------|--------------------------|--------------------------|
| | Actual FY14 | Budgeted FY15 | Budgeted FY16 | Budgeted FY17 |

Print and Mail Services Bureau - 06530

Program Description

The Print and Mail Services Bureau (PMSB) provides printing and mail services to all agencies within State Government. The bureau has seven components: 1) internal printing; 2) external (contracted) printing; 3) photocopy pool; 4) mail preparation; 5) central mail operations; 6) inter-agency (deadhead mail); and 7) postal station in the Capitol. All printing or purchasing of printing is requested through Print and Mail Services, which determines the most cost effective method of project completion. Approximately 64.4% of printing expenditures were procured through commercial vendors in FY 2014.

06066 Surplus Property Program

Program Description

The Property and Supply Bureau operates the surplus property program to administer the sale of surplus property no longer needed by agencies. This property is distributed to state agencies or other eligible organizations. The program sells property through on-line auction, fixed price warehouse sales, public auction, and garage sales. The surplus property program services include extending the life of state property by providing a mechanism to transfer surplus property between agencies, providing accountability in the disposal of surplus state property, providing agencies with a surplus equipment pick up service, and providing a screening service to locate federal surplus property for state and local agencies.

Rate and Rate Explanation:

This program is funded with an enterprise fund type proprietary fund. As such, the legislature does not appropriate funds or approve rates for the program. Instead, the legislature reviews the report for the enterprise fund and identifies any concerns with the financial position of the fund.
