General fund support has been reduced by a total of \$1.1 million for the biennium from the budget originally submitted by the branch. These reductions are a result of adoption of the 5% plan reductions approved globally for all agencies required to submit such plans. The largest component of this reduction comes from personal services savings, with a smaller portion each year from operations. The specifics of these reductions can be seen in Decision Packages 95205, 95215, 95275, and 95285 in each of the following program overviews.

Agency Highlights

Legislative Branch Major Budget Highlights	
<ul style="list-style-type: none"> ◆ The budget decreases from the 2011 biennium due to decreases partially offset by a number of increases ◆ A variety of increases include: <ul style="list-style-type: none"> • Statewide present law adjustments • Funding of the Districting and Apportionment Commission and a portion of organizational dues • Retrofits of the State Capitol building to address work health issues ◆ The decreases more than offsetting these increases are a result of adoption of the 5% reduction plan: <ul style="list-style-type: none"> • Leaving 6.00 FTE professional level positions vacant • Reducing budgets for interim committees and the Legislative Council's emergent issues fund • Reductions to various supplies, training, lodging, and equipment 	

Agency Discussion

The budget of the Legislative Branch is presented as a biennial budget due to the cyclical nature of the legislative sessions and the many costs associated therein. Many of the costs of the Legislative Branch are incurred in non-base years, as the sessions are held in the second year of the biennium. This often makes it look as if a significant increase is being requested, as the new budgets are typically prepared from the even-numbered base years.

The 2013 biennium budget also includes certain one-time costs not included in the 2011 biennium. The Districting and Apportionment Commission meets only after the decennial census is completed, so these costs would not have been included in the last biennium. There is also a decision package to provide funds for workplace health issues associated with the prior Capitol renovation, and setting the stage for a Capital Building Master Plan for which funding will likely be requested at some point in the future. Alternately, there are several decreases in the budget that more than offset these increases, as a result of adoption of the 5% reduction plan approved by the legislature, to leave some positions vacant, reduce some interim committee budgets, and provide for a variety of operations decreases.

Funding

The Legislative Services Division is mainly funded by general fund. State special revenue funding supports the costs associated with the state broadcasting service (TVMT) and the preparation, publication, and distribution of the Montana Codes Annotated.

Present Law Adjustments

The "Present Law Adjustments" table shows the changes to the adjusted base budget proposed by the legislature. "Statewide Present Law" adjustments are standard categories of adjustments made to all agencies. Decisions on these items were applied globally to all agencies. The other numbered adjustments in the table correspond to the narrative descriptions.

DP 201 - LSD Cyclical Program Operations - The legislature approved a package to fund increases and decreases reflecting the cyclical nature of the legislative business cycle. An \$8,000 general fund increase each year supports the work of the Districting & Apportionment Commission following the national census. A \$9,000 special revenue fund increase in Montana Code Annotated (MCA) costs in the first year is more than offset by a second year reduction of \$292,348 related to the production and publication of the MCA. Other second year changes totaling \$321,000 fund costs of the 2013 legislative session which are not included in the base year or that increase during a session year. Such costs include streaming legislative proceedings over the internet, production costs of TVMT, temporary staff support of House and Senate secretaries, and contracted services for support of the LAWS system, session network buildup, and computer-related assistance to legislators.

DP 206 - Retro-Commissioning the Capitol Building - OTO - The legislature approved one-time biennial funding for shorter-term options related to a healthy work environment and retro-commissioning the mechanical system and controls within the Capitol building and with the central plant. Healthy work environment issues include upgrading lighting and opening window wells closed over during Capitol renovation.

DP 95205 - LSD 5% Reduction Plan, 17-7-111, MCA - The legislature approved a 5% reduction plan in its global motion to begin the budgeting process. This is the first of four decision packages presenting the Legislative Branch reduction plan required under 17-7-111, MCA. Personal services reductions, branchwide, total \$452,000 each year and exceed 4.5% of base year expenditures. Branchwide reductions in operations total \$199,000 each year, equal to 6.5% of base year expenditures.

DP 212 - Interstate Organization Dues - The legislature approved funding for interstate organizational dues in an amount equal to 30% of the total dues for the 2013 biennium for four interstate organizations including the National Conference of Commissioners on Uniform State Law (NCCUSL), the Pacific Northwest Economic Region (PNWER), the National Conference of State Legislatures (NCSL) and the Council of State Governments (CSG). The program's present law budget contains funding sufficient to pay 50% of the dues, and this addition increases the total funding to 80% of the anticipated cost.

DP 95215 - Interim Comm 5% Reduction Plan, 17-7-111, MCA - The legislature approved as part of the overall 5% reduction global motion the second of four decision packages presenting the Legislative Branch reduction plan required by 17-7-111, MCA. A \$22,000 biennial general fund reduction is the result of removing \$2,000 from each of 11 interim committee budgets. In addition, an \$11,603 reduction each year was made from the Legislative Council's emerging issues fund.

DP 271 - LFD Cyclical Program Operations - The legislature approved an increase in the FY 2013 budget in the categories of overtime, temporary services, printing, photocopy, and office supplies due to cyclical legislative session costs that are not captured in the base year. This is the same amount approved in the previous two biennia.

Agency Highlights

Montana Consumer Counsel	
Major Budget Highlights	
◆	There is no general fund utilized by this agency
◆	This agency was exempt from the 5% plan requirements because it has fewer than 20 FTE
◆	The funding increase between the 2013 and 2011 biennia is the result of two major factors: <ul style="list-style-type: none"> • The majority of the statewide present law increase is due to under-filled positions during the base year • The 62.5% increase in operating expense is for consulting and professional fees due to unusually light legal costs during the base year, and establishment of a caseload contingency fund

Agency Discussion

Personal services increases from the prior biennium are due to statewide present law adjustments including fully funding positions that were under-filled in the base year. The agency underutilized its budgeted personal services hours by 14.5% during the base year due to one full-time and one part-time position being filled for approximately half of the year.

The increase in operating expenses is due to the addition of about \$560,000 annually in additional authority for consulting and professional services expense. Included is almost \$250,000 annually for caseload contingency. There were no expenditures recorded on the state accounting system for caseload contingency in the FY 2010 base year.

Funding

The Consumer Counsel is funded by a constitutionally earmarked tax that is levied on all regulated entities under the jurisdiction of the Public Service Commission. The funding formula is specified in 61-1-223 and 224, MCA. Each year the Department of Revenue determines the total gross operating revenue generated by all regulated activities within the state for the previous fiscal year. The Department of Revenue then computes the percentage tax necessary to yield an amount equal to the current appropriation, with no excess funds. If collection of excess revenue occurs, the amount charged to the regulated utilities for the following year is reduced.

The caseload contingency for FY 2012 was approved at \$243,899 and for FY 2013 at \$247,553 as a restricted, one-time-only appropriation.

General fund support has been reduced by \$0.5 million compared to the original executive request. These reductions are a result of adoption of the 5% plan reductions approved globally for all agencies required to submit such plans. The largest component of this reduction comes from personal services savings, with a smaller portion each year from operations. The specifics of these reductions can be seen in Decision Packages 95400 and 95101 as reflected in each of the program areas, and 95102 in the Air Transportation program. The 5% plan reduction to the Mental Disabilities Board of Visitors program was reversed, restoring just over \$54,000 for the biennium. The legislature did not provide funding requested for costs associated with co-locating the Governor's Office servers at the State of Montana Data Center (SMDC), or for the increased cost of a custodial position filled at a higher rate than for which it had been budgeted.

Agency Highlights

Governor's Office Major Budget Highlights	
<ul style="list-style-type: none"> ◆ The decrease in the budget from the 2011 biennium to the 2013 biennium is primarily due to application of the 5% reduction plan submitted by the agency, including: <ul style="list-style-type: none"> • 4% personal services reduction • Unspecified across the board reductions • Reduction to the air transportation state special revenue fund ◆ These reductions are partially offset by: <ul style="list-style-type: none"> • Statewide present law adjustments • Adjustment to the budget of the Mental Disabilities Board of Visitors to allow for actual personal services costs above the budgeted allowable and restoration of the 5% reduction plan ◆ Language is included giving the Air Transportation program the authority to spend state special revenue for maintenance and upkeep as needed ◆ Computer replacements were funded on a one-time-only basis 	

Agency Discussion

The agency budget is reduced by approximately 5% from the 2011 biennium. The 5% reduction plan is the major reason for this, but a number of other decisions factor in. Increases to the budget included one program (Mental Disabilities Board of Visitors) for which the 5% plan was reversed, additional funding for a position that was being paid at an increased rate compared to what was budgeted, and computer replacements funded as one-time-only. However, funding for another position that was hired at an inflated rate versus what was budgeted, and funding to move the computer servers to the State of Montana Data Center, was not approved. A language appropriation is made which provides biennial authority for the Air Transportation program to spend state special revenue funds.

Funding

The Air Transportation program is funded with both general fund and state special revenue. Income for the state special revenue account has historically come from other agencies' use of the Governor's plane when not occupied by the Governor. Although this use has been minimal in the past few biennia, the residual fund balance of the state special revenue account has continued to increase. The legislature approved a language appropriation to allow the program to expend some of this fund balance for maintenance and operation expenses.

Funding

The Citizens' Advocate Office is funded with both general fund and state special revenue. The state special revenue account is funded through charges by the Citizens' Advocate to the Department of Public Health and Human Services (DPHHS) for the telephone calls that the Citizens Advocate Office handles on behalf of DPHHS, as they are the initial point of contact for many DPHHS programs.

DP 95101 - 5% Plan Across the Board General Fund Reduction - The legislature has approved an across the board unallocated general fund reduction for the agency. The agency had included this reduction in the statutorily required plan to reduce base expenditures of general fund and certain state special revenue funds by 5%. The legislature then restored this funding in DP 96501.

DP 95400 - 4% Personal Services Reduction - The legislature reduced general fund for personal services. This item was included in the statutorily required 5% reduction plan submitted by the agency. The legislature then restored this reduction in DP 96400.

DP 96400 - Restore 5% to Mental Health Ombudsman - The legislature reversed a 5% reduction that was not included in the executive budget by restoring funding that had been reduced in an unallocated reduction.

DP 96501 - Restore 5% to Mental Disabilities Board of Visitor - The legislature reversed a 5% reduction that was not included in the executive budget by restoring the funding for a 0.50 FTE position in the Mental Health Ombudsman.

Secretary of State's Office Major Budget Highlights
<ul style="list-style-type: none"> ◆ No base funding exists for the office as the 2009 Legislature designated the \$305,000 federal Help America Vote Act of 2002 (HAVA) funds appropriated for the 2011 biennium as one time only ◆ HB 2 funding consists entirely of a request to fund grants to counties with federal HAVA funds, which would add \$550,000 for the 2013 biennium ◆ The remainder of the office's funding is derived from non-budgeted proprietary funds

Funding

The operations of the Secretary of State's Office are primarily funded with proprietary funds derived from fees for services, document sales, and other fees established in statute. In recent years, the federal Help America Vote Act of 2002 (HAVA) has provided federal special revenue for election reform initiatives. Since expenditure of HAVA interest funds in the base were designated as one time only, these expenditures were removed from the base and no base exists. Interest accrued on deposit of HAVA funds remains unspent and is included for the 2013 biennium as part of HB 2. Only HAVA funds are included in HB 2.

The remainder of the office is funded with enterprise type proprietary funds. For the 2013 biennium, proprietary funds account for \$10.7 million of nearly \$11.2 million total funds included in the executive budget to finance the office. The proprietary fund and supported operations are discussed below in the "Proprietary Rates" section.

Proprietary Rates

Proprietary Program Description

The Secretary of State's Office conducts its daily operations through a single program, the Business and Government Services Program. It provides the following major functions:

- Election administration
- Registration and document filing of Montana businesses
- Publication and distribution of administrative rules
- Records management of public documents generated by state and local governments
- Central services for the Secretary of State's Office

Expenses

The major base year expenses of the office were for:

- Personal services for 54.25 FTE, \$3.0 million or 61% of base year expenses

- Operating costs, \$1.8 million with roughly 43% of these costs associated with providing electronic government service including:
 - \$357,000 for e-government transaction fees
 - \$193,500 for information technology consultants and professional services
 - \$166,000 for application and server hosting with the Department of Administration

Revenues

Revenues are received from fees charged to: 1) businesses and corporations for corporate filings, registration of assumed business names, and trademarks; 2) state agencies and users of Administrative Rules of Montana (ARM) for publishing and distributing the ARM and the Montanan Administrative Register (MAR), and storage and management of public documents; 3) candidates who file for elections; and 4) Montana citizens who apply to be notaries. Revenues, by source, have been consistent for the past four years and are not projected to deviate from this pattern.

Funding Sources

Except for the HB 2 funding discussed above, the remainder of the office is funded with enterprise funds. The legislature does not appropriate enterprise funds nor does it approve the level of fees and charges in HB 2. Instead, the legislature accepts and identifies any concerns with a report on the enterprise fund that includes retained earnings and contributed capital, projected operations and charges, and projected fund balances.

Proprietary Rate Explanation

Funding for the program is with enterprise type proprietary funds. As such, the legislature does not approve rates or appropriate funds for the proprietary portion of the funding for the Secretary of State. Rates for the Secretary of State's Office are established in administrative rule.

Agency Discussion

The Commissioner of Political Practices has faced budget shortfalls related to contracted legal expenses in current and previous biennia. Increased funding for legal fees and court costs were added to help the commissioner address the backlog of existing cases and address the increasing number of complaints being received, as well as provide for legal operations throughout the biennium.

Funding

The Office of the Commissioner of Political Practices is funded entirely with general fund. A small amount of revenue is generated from nominal fees charged for printing and distribution, as well as civil fines for violation of campaign laws. Both are deposited to the general fund. In addition, the COPP collects a \$150 lobbyist filing fee that is also deposited into the general fund, but \$100 of this amount is transferred to a state special revenue account for appropriation to the Legislative Services Division to support the state broadcasting system TVMT. The lobbyist license expires at the end of each odd numbered year, just before the start of the legislative session. The total amount collected by the agency in FY 2010 was \$38,436 with \$23,475 of that amount being transferred to the TVMT state special revenue account.

The legislative appropriation for the State Auditor's Office (SAO) is about \$1.1 million lower than the executive budget request due to the net changes from the following actions:

- Limiting Insure Montana premium assistance to employees with household incomes under 300% of the federal poverty level – 2.00 new FTE that are more than offset by premium assistance reductions for a net \$890,000 reduction compared to the executive budget request
- Adopting the 5% reduction plans required to be included as part of the agency budget submission (17-7-111(3)(f), MCA) - \$105,448 and 0.70 FTE lower than the executive budget
- Removing one-time information technology contract costs supporting the Insure Montana Program - \$320,000
- Approving the elected official request to continue one-time funding for Insure Montana - \$228,728 and 1.00 FTE higher than the executive request

Agency Discussion

The SAO 2013 biennium appropriation is \$1.3 million higher than the 2011 biennium due primarily to continuation of one-time funding approved by the 2009 Legislature, increases for leased office space, increases in examinations and review of insurance and securities companies, and statewide present law adjustments for personal services costs and minor inflation adjustments. The increase was partially offset by adoption of the 5% budget reduction plans required to be submitted with agency budget requests.

Funding

The following table summarizes funding for the agency, by program and source. Funding for each program is discussed in detail in the individual program narratives that follow.

Total Agency Funding 2013 Biennium Budget			
<u>Agency Program</u>	<u>State Spec.</u>	<u>Grand Total</u>	<u>Total %</u>
01 Central Management	\$ 2,441,539	\$ 2,441,539	6.60%
03 Insurance	32,545,780	32,545,780	87.92%
04 Securities	<u>2,028,700</u>	<u>2,028,700</u>	<u>5.48%</u>
Grand Total	<u>\$ 37,016,019</u>	<u>\$ 37,016,019</u>	100.00%

The SAO is funded entirely from state special revenue in the general appropriations act. The source of funding, percentage of total 2013 biennium budget request, and functions supported are:

- o Health and Medicaid indicatives tobacco tax revenue (over 60% of the total) pays for the Insure Montana program - premium assistance and tax credits to help small employers provide group health insurance to their employees
- o Insurance fees such as registration/licensure (about one quarter of the total) pay for insurance regulation functions
- o Security fees such as portfolio filing and reimbursements for examinations (slightly more than 5% of the total) pay for security regulation functions
- o Tobacco settlement funds (under 5% of the total) pay for premium assistance for low-income persons participating the state high risk health insurance pool (Montana Comprehensive Health Association)
- o Captive account fees (5% of the premium tax collected from captive insurers) pay for regulation of groups formed to insure a specific business or businesses (less than 1% of total funding)

Two of these accounts – security fees and captive account fees – must transfer balances to the general fund at fiscal year end. The SAO also collects other fees and taxes levied on the insurance industry such as premium taxes, which are transferred to the general fund and to the account that funds the Healthy Montana Kids program administered by DPHHS, and which are passed through to retirement funds for local police and firefighters.

Tobacco tax health and Medicaid initiatives state special revenue is also appropriated to DPHHS to support Healthy Montana Kids, Medicaid provider rate increases and service expansions, and Big Sky Rx, a program to help low-income Medicare beneficiaries pay a portion of Medicare Part D drug insurance. The total funded from this account is shown in the following figure.

***Insure Montana 95% Restriction/Other Adjustments account for the 95% statutory spending restriction from Insure Montana appropriations. In the base year, more is transferred to the Insure Montana appropriations than can be expended. In other years, the negative amounts account for the amount that would be reverted from the full appropriation.					

In addition to HB 2 appropriations, the SAO received about \$2.0 million in federal funding in the 2011 biennium to implement portions of the Patient Protection and Affordable Care Act (PPACA), including grants to:

- o Fund a high risk insurance pool, which has been implemented as a component of the existing high risk pool
- o Review health insurance rate changes
- o Design a state health insurance exchange

The federal grant authority was added through the interim budget amendment process and will not be reflected in the budget tables that track spending and appropriations from the general appropriations act.

Funding

The Central Management Division is supported solely by state special revenue from insurance and security industry fees. Insurance fees support about 80% of the appropriation and the balance is from security fees.

- o Insurance fees, listed in 33-2-708, MCA, are collected from insurance companies and producers to operate in Montana
- o Security fees consist of portfolio notice filing fees collected under 30-10-209(1)(d), MCA and examination costs collected under 30-10-210, MCA

Funds remaining in the securities fees state special revenue account at fiscal year end are transferred to the general fund.

DP 101 - Rent Increase - The legislature appropriated \$21,929 of state special revenue authority each fiscal year to cover the increased cost of leased office space. Base expenditures were \$65,579. Although the 2013 biennium lease cost increases over the base budget, it is lower than the amount anticipated by the 2009 Legislature.

DP 95001 - 5% Plan - Central Management FTE and Operating - The legislature adopted the 5% budget reduction plan developed by the State Auditor as part of its budget submission in compliance with 17-7-111(3)(f), MCA. This reduction removes 0.50 FTE and \$22,000 of securities fee state special revenue authority over the biennium.

Funding

The Insurance Division is funded from three state special revenue sources:

- Insurance licensure fees, examination fees, and penalties, which fund program functions related to insurance regulation
- Health and Medicaid initiatives (tobacco taxes), which funds the Insure Montana program
- Tobacco settlement revenues, which supports premium subsidies for coverage through the Montana Comprehensive Health Association (MCHA)

DP 301 - Rent Increase - The legislature added \$86,593 of state special revenue each fiscal year to cover the increased cost of the leased office space. Base expenditures were \$183,962. 2013 biennium costs are lower than the FY 2011 appropriation approved by the 2009 Legislature (see table in agency overview).

DP 302 - Insure Montana Present Law Request - The legislature appropriated \$1.9 million of health and Medicaid initiatives tobacco tax state special revenue over the biennium for the Insure Montana program to restore funding to the level appropriated in FY 2010 in HB 2. Base expenditures were \$9.3 million, not including about \$540,000 from a one-time appropriation in HB 258. The program spent about 91% of the appropriated base budget in FY 2010 and anticipates expending 95% of the FY 2011 appropriation (33-22-2008(3)(a)MCA limits expenditures to no more than 95% of the appropriated budget).

DP 305 - Contract Examinations - Biennial - The legislature appropriated \$1.2 million of insurance fees state special revenue over the biennium for insurance company reviews and examinations required by 33-1-401, MCA, which states: "The commissioner shall examine the affairs, transactions, accounts, records, and assets of each authorized insurer as often as the commissioner considers advisable. The commissioner shall examine each authorized insurer not less frequently than every 5 years."

During the 2103 biennium, SAO plans to examine Allegiance, New West, Attorney's Liability Protection Society, two multiple employer welfare arrangements companies, Victory, Great West, and other companies deemed necessary by the Commissioner.

In addition, the appropriation will support market conduct exams of domiciled insurers. In the 2013 biennium SAO plans to examine the largest health insurer, Blue Cross Blue Shield, as well as Allegiance Life and Health Insurance Company, and Farmers Union Mutual.

The cost of examinations is paid by the companies being examined.

DP 306 - Financial Regulation - Captive Insurance Companies - The legislature appropriated about \$61,000 in state special revenue to examine captive insurers, which are also subject to the requirements of 33-1-401, MCA (noted in DP 305). Captive insurers are self insured industries.

In FY 2012, four risk retention group companies and eight pure captive companies would be examined and in FY 2013, three risk retention group companies and eight pure captive companies would be examined.

The cost of travel will be reimbursed by the companies being examined

DP 307 - Financial Regulation of Insurance Companies - The legislature appropriated about \$20,000 of state special revenue authority to examine insurance companies conducting business in Montana. The primary focus is on solvency and claims payment ability of the companies.

In FY 2012 and FY 2013, three farm mutual companies and one multiple employer welfare arrangement company would be examined annually. The examinations are performed by employees and the cost of travel is charged to the companies being examined.

DP 308 - Captives Insurance Regulatory and Supervision - The legislature appropriated \$73,000 of state special revenue authority to administer the captive insurance program and for reimbursement of reasonable expenses incurred in promoting the program. The account is funded through retention of 5% of the premium tax collected from captive insurance companies and all fees. The increase requested is reflective of the estimated growth in the captive insurance program and the related increase in premium tax collection.

DP 309 - Establish Surplus Lines Regulation In-House - The legislature appropriated \$68,000 of state special revenue to administer surplus lines insurance, which is specialty insurance provided for risks that are too big, unusual, or substandard to be covered by insurers licensed in the state of Montana. In July 2009, the SAO discontinued the contract to regulate surplus lines activity. According to 33-2-321 (5)(b), MCA , "If a surplus lines advisory organization is not operating as set forth in this section, the stamping fee may be collected by the commissioner and placed in a state special revenue account for the expenses of regulating surplus lines."

DP 310 - .IT Contract Reduction - Insure Montana - The legislature reduced the information technology contract for Insure Montana. The SAO indicated that one-time costs in the base year would not be ongoing.

DP 303 - Insure Montana Authority Increase - The legislature approved the State Auditor request for about \$228,000 of health and Medicaid initiative tobacco tax state special revenue authority and 1.00 FTE. This funding supports continuation of premium assistance and tax credit subsidies for small employers participating in Insure Montana that were added from a one-time appropriation of \$6 million in the 2011 biennium.

The legislature also accepted the State Auditor's recommendation that small employers eligible for federal tax subsidies for provision of employee health insurance not receive the state tax credit as well. This change reduced the State Auditor's budget request cost by about \$2.9 million per year and will require a statutory change as well.

DP 304 - Continuation of Forms Analyst - The legislature added about \$92,000 of insurance fee state special revenue to make permanent a forms analyst FTE that was funded from a one-time appropriation in the 2011 biennium. This position reviews insurance forms for compliance with 33-1-501, MCA. The Insurance Commissioner has 60 days from the date an insurance company files a draft form to approve or disapprove the proposed form. If the commissioner takes no action within the 60 day timeframe, the form will be deemed approved and used by the company.

DP 305 - Limit Premium Assistance to 300% of Federal Poverty - The legislature reduced funding for the premium assistance component of the Insure Montana program by \$888,138 over the biennium. The reduction reflects the legislative policy to limit premium assistance to employees with household income less than 300% of the federal poverty level (\$67,050 for a family of four in 2011). The State Auditor's Office estimates that 805 employees would no longer qualify for assistance due to this change. HB 612 includes the amendments necessary to implement this change.

The legislature funded 2.00 new FTE to determine program eligibility and audit household income. The appropriation also includes funding for operating costs and computer system changes in FY 2012. A reduction in premium assistance payments offsets the operating cost increases.

DP 95002 - 5% Plan - Insurance Division - Travel Captives - The legislature accepted the 5% reduction plan submitted by the State Auditor with its budget request as required by 17-1-111-3(f), MCA. This action lowers state special revenue that funds travel costs by \$2,000 over the biennium.

Funding

The Securities program is funded entirely from state special revenue derived from charges to the securities industry for:

- Filing portfolio notices
- Examining issuers, broker-dealers, or investment advisers as part of registration

Other fees related to the securities industry and collected by the SOA, such as registration of securities, are deposited to the general fund. Excess revenue in the state special revenue account is transferred to the general fund at fiscal year end.

Present Law Adjustments

The "Present Law Adjustments" table shows the changes to the adjusted base budget proposed by the legislature. "Statewide Present Law" adjustments are standard categories of adjustments made to all agencies. Decisions on these items were applied globally to all agencies. The other numbered adjustments in the table correspond to the narrative descriptions.

DP 401 - Rent Increase - The legislature added \$31,348 state special revenue authority each fiscal year to cover the increased cost of leased office space. Base expenditures were \$33,007. Although the 2013 biennium lease cost increases over the base budget, it is lower than the amount anticipated by the 2009 Legislature.

DP 403 - Securities Contract Examination-Biennial - The legislature approved a biennial appropriation of about \$83,000 in state special revenue to contract for 20 more examinations of broker-dealer firms, broker-dealer firm branch offices, and investment advisor firms over the biennium. Base expenditures were \$23,608. An examination involves, on average, about 30 hours of field work and 90 hours of analysis. The SOA will also experience an increase in workload as a result of the Dodd-Frank Wall Street.

DP 402 - Continuation of Legal FTE - The legislature continued one-time funding for 1.00 attorney FTE, which was also approved as a one-time appropriation in the last legislative session. The FTE is funded from security fees state special revenue. The FTE is currently filled and performs the following functions:

- Prosecutes securities and insurance fraud, criminally and administratively
- Provides legal analysis, as assigned, on issues relating to the Securities Act of Montana
- Assists in drafting administrative rules

The legislature requested that the SAO provide performance criteria so that the 2013 Legislature could evaluate the effectiveness of funding the FTE.

DP 95003 - 5% Plan - Reduce Securities Operations - The legislature accepted the 5% reduction plan submitted by the State Auditor with its budget request as required by 17-1-111-3(f), MCA. This action lowers state special revenue by \$82,000 over the biennium. In addition to reducing 0.50 FTE, travel, contracted services, and communications costs will be lowered. Fewer contracted examinations will be conducted.

The legislative budget is \$6.0 million in total funds lower than the executive budget with the decrease primarily in general fund. Staffing in the legislative budget is 12.00 FTE lower than in the executive budget at the end of the 2013 biennium. The most significant revisions from the executive budget are summarized below:

- Agency proposed 5% plan reductions that were not included in the executive budget were approved, which resulted in \$4.8 million general fund reductions for purposes the agency was not able to specify
- Funding to add 8.00 FTE to increase tax compliance activities mostly directed at out-of-state entities was not approved, which resulted in a reduction of \$1.0 million
- Requests to add 4.00 FTE for tobacco compliance and hail and per capita fee administration were not approved, although the funding was provided

Agency Highlights

Department of Revenue Major Budget Highlights
<ul style="list-style-type: none"> ◆ General fund for the 2013 biennium is \$6.4 million, or 6.4%, lower than in the 2011 biennium. Major factors in this change are: <ul style="list-style-type: none"> • Statewide present law adjustments reduce general fund largely because of a reduction in the ITSD fixed cost allocation to the agency • Agency 5% plan reductions were approved • Multiple programs reduced the number of vehicles the department would lease from the State Motor Pool to reduce general fund • Ongoing reductions were made to account for reductions implemented in FY 2011 as a result of the 17-7-140, MCA, reductions ordered by the Governor • Funding associated with base expenditures to install video conferencing equipment was removed since the expenditures were not ongoing in nature ◆ State special fund expenditures are nearly \$0.7 million, or 44.9%, higher in the 2013 biennium than the 2011 biennium due to: <ul style="list-style-type: none"> • Use of tobacco settlement funding to fund tobacco tax compliance work • Use of abandoned property state special revenue to fund 2.00 FTE to address workload issues ◆ Federal special fund expenditures increase by a little over \$0.1 million to fund federal mineral royalty audits at the level authorized in the current agreement with the federal government ◆ Staffing increases by 3.00 FTE to fund: 1) 2.00 FTE to administer the abandoned property program with one-time funds; and 2) a 1.00 FTE position for the Granite County appraiser

Agency Discussion

The Department of Revenue administers the tax collection and compliance functions for most state taxes. Additionally, the department values all property in the state, regulates the sale and distribution of alcoholic beverages in the state, and administers the abandoned property program. The funding approved to carry out these functions is 5% below the adjusted base. At this funding level, the potential exists that less revenue would be collected than anticipated. The general fund status reflects a range of from \$11.7 million to \$20.1 million in potential revenue reductions due to \$3.4 million of reductions partially contained in the 5% plan reduction. Other reductions that do not translate into potential revenue reductions are for continuation of reductions made in response to the Governor's 17-7-140, MCA, reductions that were not implemented until FY 2011 and a reduction in the number of vehicles the agency will lease from the State Motor Pool.

Funding

The following table summarizes funding for the agency, by program and source. Funding for each program is discussed in detail in the individual program narratives that follow.

The department is primarily funded with general fund. Proprietary funds support the operation of the Liquor Control Division and other divisions that support liquor control functions or the staff of the Liquor Control Division. State special revenue funds are for tobacco tax compliance activities under the Tobacco Master Settlement Agreement, administration of the unclaimed property program, and administrative costs associated with billing and collecting hail insurance premiums and livestock per capita fees. State special revenue from the property valuation improvement fund is used for increasing the efficiency of the property appraisal, assessment, and taxation process through improvements in technology and administration. Federal special revenue supports federal mineral royalty audits.

In the past, state special revenue from a statutorily allowed 2% retention on collections from hail insurance premiums and livestock per capita fees have not been used to fund the costs to bill and collect these fees. This budget includes funding from these sources.

Funding

Funding for the program comes primarily from the general fund. State special revenue from tobacco settlement funds supports the dedicated attorney that supports tobacco tax compliance activities. Federal mineral royalty audit special revenue funds a portion of the Legislative Audit fixed cost allocation for the agency. The proprietary funding is from a direct appropriation of Liquor Control Division proprietary fund and is for the Liquor Control Division share of Director's Office support costs. The allocation is a percentage of the program's budget. Liquor Control Division proprietary funds are an indirect use of general fund since net liquor revenues are deposited in the general fund after operating costs are deducted.

Funding

The Information Technology and Processing Division is primarily funded with general fund. State special revenue funds the division's administration of hail insurance premiums, the livestock per capita fee, and lodging facilities tax. The proprietary funding is from a direct appropriation of Liquor Control Division proprietary fund and is for the Liquor Control Division share of division support costs. The allocation is a percentage of the program's budget. Liquor Control Division proprietary funds are an indirect use of general fund since net liquor revenues are deposited in the general fund after operating costs are deducted.

Funding

The Business and Income Taxes Division is primarily funded with general fund and some state special revenue, federal special revenue, and proprietary funds. State special revenue comes from the accommodations tax and funds expenses for administering the tax. Federal special revenue comes from reimbursements for performing mineral royalty audits. The finances of the Collections Services Program are not shown in the HB 2 tables because it is funded with proprietary funds. The Collections Services Program is discussed in the Proprietary Rates Section that follows the HB 2 discussion.

DP 706 - Modified FTE into Permanent - Abandoned Property - The legislature approved state special revenue funding for 2.00 FTE to address workload issues in the Abandoned Property Program. The funding was designated as one time only.

DP 707 - Modified FTE into Permanent-Tobacco Tax Revenues - The legislature approved state special revenue funds from the state tobacco settlement to fund tobacco tax compliance activities.

DP 55140 - Sustainable Reductions from 17-7-140, MCA - The legislature reduced funding for items included in the Governor's 17-7-140, MCA, reductions that were of an on-going nature, but which were not implemented until FY 2011.

DP 95107 - 5% Plan - Prorated Reduction - The legislature approved an unspecified reduction for the program. The agency included this unspecified reduction in the statutorily required plan to reduce base expenditures of general fund and certain state special revenue funds by 5%.

Proprietary Rates

Proprietary Program Description

The Collection Services Program collects, on behalf of state agencies, debt associated with delinquent accounts. The program serves all state agencies and is funded through a service charge for collecting on delinquent accounts.

Expenses

Significant base year costs for the program were for:

- Personal services for 3.50 FTE, \$144,380 or 83.1% of total costs
- Operating costs, \$29,275 with 60.7% of these costs due to:
 - Fixed cost items (rent, insurance, SABHRS fees, etc.), \$10,897
 - Postage and mailing costs, \$6,868

Revenues

The program revenues are generated from a fixed percentage collection commission based on the amount of bad debt funds the program is able to recover. The exception is that general fund pays the collection charge for child support payment collections.

Funding Sources

The funding sources that pay for the services provided by this program cannot be determined as the expenditure account established for Department of Revenue bad debt collection fee is not used uniformly by agencies.

Proprietary Rates

For the 2013 biennium the legislature approved a maximum delinquent account collection fee of 5% of amount collected, with an exemption from the rate for collections of overpaid child support payments made to custodial parents or collection of delinquent child support payments from noncustodial parents.

The rates approved by the legislature are the maximum the program may charge during the biennium, they are not the rates the program must charge.

Funding

Funding for the Property Assessment Division is from general fund and state special revenue. State special revenue is from the property valuation improvement fund and is used for increasing efficiency of the property appraisal, assessment, and taxation process through improvements in technology and administration. Revenue deposited to the fund is from a fee received as reimbursement for the cost of developing and maintaining the property valuation and assessment system database. The fee is charged to persons, federal agencies, state agencies, and other entities requesting the database or any part of the database from any department property valuation and assessment system. The fee may not be charged to the Office of Budget and Program Planning, the State Tax Appeal Board, or any legislative agency or committee.

The legislative budget is \$474,670 in total funds, \$14,280 in general fund, and \$460,390 in state special revenue lower than the executive budget. The most significant revisions from the executive budget are summarized below:

- General fund requested for both years of the biennium to prepare and sell the building that formerly housed the Department of Corrections was approved only for FY 2012
- The legislature approved 5% plan reductions that were not included in the executive budget that reduced state special revenue by \$416,500

Agency Highlights

Agency Discussion

The Department of Administration sets statewide policies for and provides services to state agencies for accounting, treasury, human resources, group health insurance benefits, procurement, state tort and property insurance pool, and information technology. For most agencies in Helena, the agency serves as the landlord for state-owned buildings in exchange for rental fees. Generally, the statewide policy functions are supported by general fund while the service functions are supported by proprietary funds derived by charging fees for services. The department also administers the following functions that are not associated with statewide policies or services:

- State Lottery
- Banking and Financial Institution oversight and regulation
- State Tax Appeals Board
- Architecture and Engineering and administration of the state Long-range Building Program

The functions of the department funded in HB 2 were generally funded at the adjusted base level less 5%, with little growth and no new programs added.

The majority of funding for the department is via non-budgeted proprietary funds. For the 2013 biennium, \$525.6 million of the funding is non-budgeted proprietary funds compared to \$41.5 million appropriated in HB 2.

Funding

The following table summarizes funding for the agency, by program and source. Funding for each program is discussed in detail in the individual program narratives that follow.

Funding

The Director's Office is funded with a combination of general fund, state and federal special revenues, and proprietary funds. General fund provides funding for the office's support of the Board of County Printing, Burial Preservation Board, allocations of police retirement funds, and general management and legal support for statewide functions of the department. State special revenue funds the office's functions in support of the Capital Financial Advisory Council. Federal special revenue funds administrative functions that support allocation of federal flood control payments.

Most operations of the office are funded with non-budgeted proprietary funds, which are discussed in the "Proprietary Rates" section.

DP 101 - Presidential Electors - The legislature increased general fund in FY 2013 to fund compensation and travel costs for presidential electors in 2012. The funding was designated as one time only.

DP 1003 - Burial Board - This legislature increased general fund for the Burial Preservation Board to hold two face-to-face meetings per year and two conference call meetings, along with reimbursement for member travel associated with reburial/repatriation of human remains. The funding was designated as restricted only to this purpose.

Proprietary Rates

Proprietary Program Description

The Director's Office provides services in the areas of legal, human resources, and financial management to other divisions of the agency and agencies and boards attached to the agency for administrative purposes. The Office of Legal Services advises the divisions on legal matters. The Office of Human Resources processes payroll; assists with recruitment, selection, and orientation of new employees; classifies positions; and develops human resources policies for the department. The Office of Finance and Budget prepares and presents the biennial budget, processes budget change documents, monitors approved budgets for compliance with state law and legislative intent, and provides accounting assistance. The Director's Office also provides information technology management and project management services.

Expenses

Significant base costs for the program were for:

- Personal services for 14.33 FTE, about \$983,800 or 87.8% of total costs
- Operating costs, \$136,700 with nearly half of these costs due to:
 - Office space rent, \$34,044
 - Payments to the Information Technology Services Division, \$23,080
 - Building and grounds maintenance, \$9,412

Revenues

All divisions of the agency and other agencies and boards designated in statute as being administratively attached to the agency use all or a portion of the services provided by the programs. Administratively attached agencies or boards with staff to perform the provided functions do not use some of the services and are not charged a fee.

The revenues for this program are allocated in three ways: 1) for the human resources function an annual amount is charged per FTE served; 2) the legal unit costs are allocated based on a time-use study; and 3) the remaining portion is based on the proportional size of the division, board, or agency's budget to the total of all served.

Funding Sources

The following sources of funding were used to pay for the services provided by this program:

- General fund (6.0%)
- State special revenue (10.0%)
- Other (84.0%)

Proprietary Rate Explanation

For the 2013 biennium the rates approved by the legislature are listed in Section R of HB 2. The rates approved by the legislature are the maximum the program may charge during the biennium. They are not the rates the program must charge. For reference, the rates approved for the Director's Office are:

- Human resources portion of program (annually per FTE)
 - \$574 (FY 2012)
 - \$570 (FY 2013)
- Remaining portion of the program (fixed amount for allocation)
 - \$903,354 (FY 2012)
 - \$902,951 (FY 2013)

Funding

The State Accounting Division is funded with general fund, federal special revenues, and proprietary funds. General fund provides funding for the statewide accounting standards, treasury, and accounting assistance for local government. Federal special revenue provides funding for activities associated with the federal Cash Management Improvement Act funds. The division is also funded with a direct appropriation from the Board of Investments proprietary fund for services the Treasury Unit provides to the board. The reduction in federal funds from the 2011 biennium is due to Cash Management Improvement Act funding in FY 2011 that is not continued at that level in the 2013 biennium.

Most operations of the division are funded with non-budgeted proprietary funds, which are discussed in the "Proprietary Rates" section.

DP 55400 - 4% Personal Services Reduction - The legislature approved a funding switch for 1.00 FTE that reduced general fund and funded the Local Government Services Bureau Chief position with the Local Government Services enterprise fund.

Proprietary Rates

The State Accounting Division provides the following functions funded with proprietary funds. These programs are described separately along with a discussion of the program expenses, revenues, and rates being requested to finance the program:

- Statewide Accounting, Budgeting and Human Resources Program
- Warrant Writer Program
- Local Government Audit and Reporting Program

Statewide Accounting, Budgeting and Human Resources Program (SABHRS - 06511)

Proprietary Program Description

The Statewide Accounting, Budgeting and Human Resource (SABHRS) Finance and Budget Bureau (SFAB) is responsible for operational support and maintenance for the financial portion of SABHRS and Montana Budget, Analysis, and Reporting System (MBARS).

Expenses

Significant base costs for the program were for:

- Personal services for 18.00 FTE, \$1.6 million or 37.4% of total costs
- Operating costs, \$2.8 million with 88.6% due to:
 - Payments to the Information Technology Services Division for services purchased that are not for telephones and email, \$1.5 million
 - Computer system maintenance costs, \$0.9 million

Revenues

All state agencies are required to use this program. Revenues are based on costs to operate the program and maintain a reasonable working capital balance, which then factor into a maximum allocation of costs rate that is approved by the legislature. The program costs are allocated based on the following:

- An agency's proportionate share of financial system journal lines to total journal lines (a journal line is line of data on the statewide accounting system that describes the details of one accounting transaction and includes such data as the transaction date, amount, purpose, and impacted expenditure, revenue, or balance sheet accounts) for all agencies (92%)
- An agency's proportionate share of MBARS journal lines to total MBARS journal lines for all agencies (8%)

Budget authority to pay the SABHRS allocation is a fixed cost item in agencies' budgets. The statewide fixed cost in the executive budget for SABHRS is \$1.5 million lower for the 2013 biennium than the funding approved by the 2009 Legislature. The reasons for this change are detailed below in the "Proprietary Rates" section following the requested rates.

In FY 2010, the program refunded agencies \$350,000 to reduce the working capital in the fund and to reflect budget cuts taken by the program. As a result, working capital in the fund was down to a 57-day level at the end of FY 2010.

Funding Sources

The following sources of funding were used to pay for the services provided by this program:

- General fund (38.2%)
- State special revenue (15.2%)
- Federal special revenue (16.2%)
- Other (30.4%)

Proprietary Rate Explanation

For the 2013 biennium the rates approved by the legislature are listed in Section R of HB 2. The rates approved by the legislature are the maximum the program may charge during the biennium. They are not the rates the program must charge. For reference, the legislature approved \$3,554,526 for FY 2012 and \$3,795,313 for FY 2013 as the total amount of costs that may be allocated to users.

Warrant Writer Program (Warrant Writing - 06564)*Proprietary Program Description*

The department provides the services of the Warrant Writer Program to state agencies for check writing and automatic-deposit capabilities for financial transactions. The program produces and processes warrants and tracks them on the warrant writer system. The program generates, mails, tracks, and cashes each warrant. The services the program offers include direct deposit, warrant consolidation, stop payments, warrant cancellations, emergency warrants, duplicate warrants, warrant certification, warrant research, payee file data, and federal 1099-MISC processing.

Expenses

Significant base costs for the program were for:

- Personal services for 5.83 FTE, \$206,427 or 22.2% of total costs
- Operating costs, \$699,570 with 78.8% due to:
 - Postage and mailing, \$411,604
 - Printing, \$139,978

Revenues

Because the service is mandated in statute, no alternative exists for agencies that need checks processed and funds transferred to vendors electronically if they use the state accounting system. Revenues are derived from monthly billings based on actual warrants issued.

Budget authority to pay the warrant writer costs is a fixed cost item in agencies' budgets. The statewide fixed cost in the executive budget for warrant writer is \$275,729 lower for the 2013 biennium than the funding approved by the 2009 Legislature because the rates approved for the 2011 biennium were higher than needed to fund program costs. As such, the fund balance grew. Despite expenditure increases via factors in the statewide present law adjustments the rates requested for the 2013 biennium are lower than those approved by the 2009 Legislature to reduce excess liquid fund balance. The legislative audit of the agency for the two fiscal years ending in June 30, 2010, identified that fees were not commensurate with costs for this program and recommended that the program reduce rates. In response to the audit finding, rates for FY 2011 have been lowered below those approved by the 2009 Legislature.

Funding Sources

The following sources of funding were used to pay for the services provided by this program:

- General fund (27.5%)
- State special revenue (20.7%)
- Federal special revenue (27.2%)
- Other (24.6%)

Proprietary Rate Explanation

For the 2013 biennium the rates approved by the legislature are listed in Section R of HB 2. The rates approved by the legislature are the maximum the program may charge during the biennium. They are not the rates the program must charge. For reference, the approved rates are:

Local Government Audit and Reporting Program (Fund 06042)

Proprietary Program Description

The Local Government Audit and Reporting Program is responsible for administering the provisions of the Montana Single Audit Act (MSAA), which specifies the audit requirements for all Montana local government entities (2-7-5, MCA). The program performs the following services:

- Mails out to and receives annual financial reports from approximately 900 local governments
- Enters selected financial data from the reports into a database
- Obtains and enters into the database information regarding school district revenues
- Determines which local government entities are subject to audit under the act and notifies them of the audit requirements
- Accepts applications from and maintains a roster of independent auditors authorized to conduct local government audits
- Prepares and keeps current a legal compliance supplement for use by independent auditors in conducting local government audits
- Receives and approves audit contracts for local government audits
- Verifies that all local governments required to have audits do so
- Receives and reviews local government audit reports to determine whether the audits have been conducted in accordance with required standards
- Notifies state agencies of audit findings related to financial assistance programs that they administer
- Receives and reviews each local government's response to the audit report findings and determines whether the entity has developed a satisfactory plan to correct deficiencies noted in the audit report
- Maintains copies of all local government entity audit reports and the local government's responses to audit findings, and makes those reports and responses available upon request to state and federal agencies and the public
- Provides technical advice on accounting, auditing, and legal compliance matters to local governments and certified public accountants conducting local government audits
- Investigates or refers to auditors for follow-up action complaints or allegations received from the public, either directly or through the Legislative Auditor's hotline
- Provides information regarding local government audits, audit findings, entity responses to findings, and legal compliance and accounting requirements to the public
- Requests for special audits and arranges for such audits if determined to be necessary

Expenses

Significant base costs for the program were for:

- Personal services for 4.00 FTE, \$217,917 or 72.2% of total costs
- Operating costs, \$83,873 with 54.2% due to:
 - Office rent, \$28,916
 - Indirect/administrative cost paid to the Management Services Program in the Director's Office, \$16,564

Revenues

All local government entities that are required to submit audits pay a filing fee. The fee schedule has been adopted as ARM 2.4.402. A fee is also collected from local governments that are required to submit financial reviews. The fee has been adopted in ARM 2.4.410 and is currently set at \$75. A roster fee is collected from certified public accountants for inclusion on a roster of independent auditors who are authorized to audit local government entities in Montana. The annual auditor roster fee has been adopted as ARM 2.4.406 and is currently set at \$100 per year. The program also may receive reimbursement from audited entities for costs to contract for special audits as requested.

Funding Sources

The funding to pay for the services provided by this program comes from local governments and private auditing firms. No state funds directly support this program.

Proprietary Rate Explanation

Funding for the program is with enterprise type proprietary funds. As such, the legislature does not approve rates or appropriate funds for this proprietary funded program. Fees are adopted in the Administrative Rules of Montana.

Funding

Funding for the General Services Division includes general fund, state special revenue, and proprietary funds. General fund provides funding for the Procurement Bureau and a portion of the facilities maintenance functions. General fund supports facilities maintenance functions for common areas of the Capitol Building, office space for the Senate and House of Representatives, Governor's mansion, public display areas in the Historical Society Museum, and some office space in the museum building. State special revenue from procurement rebates fund portions of procurement functions that serve the fueling and procurement card operations.

The following programs are funded with proprietary funds and are not shown on the main budget tables but are discussed in the "Proprietary Rates" section for the division:

- Print and mail services
- Property and supply
- Central stores
- Facilities management
- Surplus property

DP 55140 - Make FY 2011 17-7-140, MCA, Reductions Permanent - The legislature reduced general fund for deferred and general maintenance projects and for upkeep for the capitol complex.

Proprietary Rates

The General Services Division provides the following functions funded with proprietary funds. These programs are described below along with a discussion of the program revenues, expenses, and rates approved to finance the programs:

- Facilities Management (Rent and Maintenance)
- Print Services
- Mail Services

- Surplus Property
- Central Stores

Facilities Management (Rent and Maintenance - 06528)

Proprietary Program Description

Rent and maintenance is managed by the Facilities Management Bureau, which is the custodian of state property and grounds in the State Capitol area. The State Capitol area is the geographic area within a 10-mile radius of the State Capitol. The bureau provides facilities management assistance, including repair, maintenance, and construction services to state agencies in the Helena area and provides statewide leasing assistance to agencies to negotiate co-location of agencies to procure leased space for field offices. The bureau also manages the office waste paper products recycling program in the Helena area. The program serves all agencies and units within state government.

Expenses

Significant base year costs for the program were for:

- Personal services for 34.90 FTE, \$ 1.6 million or 17.7% of total costs
- Operating costs, \$7.4 million with 74.3% of these costs due to:
 - Buildings and grounds repair, \$1.4 million
 - Electricity, \$1.2 million
 - Janitorial services, \$1.1 million
 - Caretaker services, \$1.1 million
 - Natural gas, \$0.7 million

The program pays for all utilities on the complex including water, sewer, electricity, natural gas, and garbage collection. It also pays for locksmith services, repair and maintenance, construction, construction management, grounds maintenance, leasing services, recycling, emergency response and management, and security. The bureau manages several service contracts that are provided by private sector employees including security, pest control, mechanical maintenance, janitorial services, elevator repair and maintenance, and fire sprinkler systems maintenance and access control.

Revenues

All agencies occupying office space in state-owned buildings on the capitol complex pay rent to the program. Separate rental rates are established for office and storage space and for grounds. In addition to rent payments agencies pay a percentage of costs for non-routine maintenance projects. These fees are charged at different rates depending on whether bureau or contracted employees are used to complete the project. The revenues from fees are generated in the following percentages:

- Office and warehouse rental rates - 92%
- Grounds Maintenance - 5%
- Construction, and handyman services – 2%
- Recycling - 1%.

Budget authority to pay rent is a fixed cost item in agencies' budgets. The statewide fixed cost in the executive budget for capitol complex rent is \$1.1 million lower for the 2013 biennium than the funding approved by the 2009 Legislature, primarily due to a reduction in the 2011 biennium as part of the Governor's 17-7-140, MCA, reductions and their continuation in the 2013 biennium. The reductions were for general and deferred maintenance of state-owned buildings on the Capitol Complex.

Funding Sources

The following sources of funding were used to pay for the services provided by this program:

- General fund (48.6%)
- State special revenue (12.8%)

- Federal special revenue (9.7%)
- Other (28.9%)

Proprietary Rate Explanation

For the 2013 biennium the rates approved by the legislature are listed in Section R of HB 2. The rates approved by the legislature are the maximum the program may charge during the biennium. They are not the rates the program must charge. For references the approved rates are:

○ Office rent (per sq. ft.)	\$8,412 (FY 2012)	\$8,460 (FY 2013)
○ Warehouse rent (per sq. ft.)	4,844 (FY 2012)	4,876 (FY 2013)
○ Grounds maintenance (per sq. ft.)	0,494 (FY 2012)	0,494 (FY 2013)
○ Project management - in-house	15% (FY 2012)	15% (FY 2013)
○ Project management – contracted	5% (FY 2012)	5% (FY 2013)

Print and Mail Services Bureau (Print & Mail - 06530)

Proprietary Program Description

The Print and Mail Services Bureau provides printing, mail services, duplicating, desktop publishing, layout and design, graphic and illustrative art, forms design, reprographics, binding and quick copy, and photocopier pools services for state agencies. The bureau has seven basic components: 1) internal printing; 2) external (contracted) printing; 3) photocopy pool; 4) mail preparation; 5) central mail operations; 6) inter-agency (deadhead mail); and 7) postal contract station with locked mail boxes in the Capitol. Customers include all agencies and units within state government. Use of the photocopy pool is optional. A state agency may buy its own copier through the State Procurement Bureau. All printing or purchasing of printing is requested through print services, which determines the most cost effective method of project completion. Not all requests for printing are completed internally. Nearly 70 percent of printing expenditures are procured through commercial vendors. The postal contract station provides mail services to the public.

Expenses

Significant base year costs for the program were for:

- Personal services for 44.80 FTE, \$1.4 million or 53.8% of total costs
- Operating costs, \$10.4 million with 91.1% of these costs due to:
 - Postage and mailing, \$4.5 million
 - Printing, \$3.7 million
 - Direct materials for printing (paper and ink) - \$1.1 million
 - Building rent - \$0.2 million

Revenues

All agencies in Helena use the services of this program depending upon their printing and mail needs. Printing revenue is based on the actual type and volume of printing provided and mail services is based on agency specified service frequency.

Revenue is received in the following percentages:

- Internal printing (printing, duplicating, desktop publishing, binding and quick copy services, variable data printing warrant writer and mainframe printing) - 14.4%
- External printing (printing procured through commercial vendors) - 31.2%
- Photocopy pool (photocopiers contracted through the private sector) - 7.4%
- Mail preparation (preparing documents for mailing by tabbing, labeling, inkjet addressing, inserting, and bar coding) - 5.5%.
- Central mail operations (pick-up and metering of out-going U.S. Mail and express small package services) - 38.9%
- Inter-agency (sorting and delivery of incoming mail and pickup and delivery of deadhead mail) - 2.3%

- Capitol building postal contract station (\$3,248.00 monthly from the U.S. Postal Service for operation of the Capitol Post Office) - 0.3 %

Budget authority to pay inter-agency mail fees is a fixed cost item in agencies' budgets. The statewide fixed cost in the executive budget for inter-agency mail (fixed cost item messenger services) is \$41,354, or 6.6%, higher for the 2013 biennium than the funding approved by the 2009 Legislature.

Funding Sources

Federal funds pay for the operation of the contract post office in the capitol building. Except for the contract post office and inter-agency mail, expenditure categories used to record customer agency expenditures include expenditures for the services of this program and other expenditures not related to the services provided by this program. As such, only the funding sources that finance payments for inter-agency mail are able to be estimated with any confidence. The following sources of funding were used to pay for the inter-agency mail services provided by this program:

- General fund (33.0%)
- State special revenue (23.2%)
- Federal special revenue (13.1%)
- Other (30.6%)

Proprietary Rate Explanation

For the 2013 biennium the rates approved by the legislature are listed in Section R of HB 2. The rates approved by the legislature are the maximum the program may charge during the biennium. They are not the rates the program must charge.

Central Stores Program (Central Stores - 06531)

Proprietary Program Description

The Central Stores Program contracts with a large warehouse distribution center to provide on-line ordering for office supplies. The program develops standard specifications and procures, warehouses, and delivers commonly used items to all state agencies and participating local governments. Customers include all agencies and units within state government and participating local governments.

Section 18-4-302(3), MCA, mandates state agencies to use central stores unless the publicly advertised price of an alternate supplier, established catalog price, or discount price offered to the agency is less than the price offered by the stores program, as long as the office supply conforms in all material respects to the terms, conditions, and quality offered by the stores program. Local governments and university system employees are not mandated to use central stores.

Expenses

Significant base year costs for the program were for:

- Personal services for 11.55 FTE, \$0.4 million or 7.7% of total costs
- Operating costs, \$4.6 million with 89.5% of these costs due to the purchase of supplies such as office supplies, computer paper, fine paper stock, printed forms, course paper, and janitorial supplies

Revenues

All agencies and units within state government and participating local governments purchase office supplies and paper products through this program. The customer pays for the products purchased plus a markup on the invoice of purchased products that funds the administration of this program.

Funding Sources

The following sources of funding were used to pay for the services provided by this program:

- General fund (39.4%)
- State special revenue (28.1%)

- Federal special revenue (17.2%)
- Other (15.3%)

Proprietary Rate Explanation

For the 2013 biennium the rates approved by the legislature are listed in Section R of HB 2. The rates approved by the legislature are the maximum the program may charge during the biennium. They are not the rates the program must charge. For reference, the legislature approved a 25% markup as the rate for Central Stores.

Surplus Property Program (Surplus Property - 06066)

Proprietary Program Description

The Property and Supply Bureau operates the surplus property program to administer the sale of state and federal surplus property no longer needed by agencies. The federal surplus program acquires surplus property from federal agencies. This property is distributed to state agencies or other eligible organizations. The surplus property programs provide a mechanism to transfer surplus property between agencies and extend the life of state property. The program provides accountability in the disposal of surplus state property, provides agencies with a service to collect surplus equipment, and provides an in-state screening service to locate federal surplus property for state agencies and local governments.

Expenses

Significant base year costs for the program were for:

- Personal services for 4.60 FTE, \$239,695 or 65.0% of total costs
- Operating costs, \$128,983 with no single item driving operating expense
- The following two operating cost areas that make up 17.4% of operating costs are the most significant to the operation of the program:
 - Utilities such as electricity, natural gas, water and sewer, and garbage disposal, \$12,583
 - Rent, \$9,836

Revenues

Revenues are derived from the following handling fees:

- Property is sold for less than \$500, the program retains the proceeds
- Property sold for \$500 or more the program retains \$500 plus unusual expenses
- Federal Surplus Property program fees are an allocation of freight expense and 14 percent of acquisition cost

Funding Sources

The following sources of funding were used to pay for the services provided by this program:

- State special revenue (0.4%)
- Other (99.6%)

In FY 2010, the Department of Transportation (DOT) paid \$255,324 in fees to surplus equipment and vehicles in their equipment and motor pool programs that are funded with proprietary funds. These DOT fees financed the majority of the program for FY 2010.

Proprietary Rate Explanation

Funding for the program is with enterprise type proprietary funds. As such, the legislature does not approve rates or appropriate funds for this proprietary funded program.

Funding

Funding for the division is provided primarily with a proprietary fund that is not shown on the main budget tables, but is discussed in the "Proprietary Rates" section for this program. The HB 2 budgeted portion of the division is funded with general fund and state special revenue. The division receives general fund to administer the Public Safety Services Office. State special revenue funds the administration of the statewide 9-1-1 emergency telephone program and GIS coordination work with funding derived from land transaction fees under the Montana Land Information Act.

Proprietary Rates

Proprietary Program Description

The Information Technology Services Division (ITSD) manages the following information technology (IT) services for state government:

- o Operation of the state data center and backup data center
- o Shared statewide desktop and data network services
- o Central mainframe computer processing
- o Mid-tier access and production services
- o Local and long-distance telephone networking
- o IT planning, research, and coordination
- o Design, development, and maintenance support of IT applications
- o Personal computer (PC) and office automation support and consultation
- o Design and development of telephone equipment, networking applications, and other telecommunication needs
- o Internet and intranet services
- o Electronic government planning and coordination
- o Central imaging
- o Geographic information systems (GIS) coordination
- o Disaster recovery facilities for critical data processing applications
- o IT training

Expenses

Significant base year costs for the program were for:

- o Personal services for 174.71 FTE, \$15.0 million or 36.7% of total costs

- Operating costs, \$19.8 million with 72.7% of these costs due to:
 - Contracting for IT vendor services (\$1.2 million)
 - Local voice and data circuits (\$1.6 million)
 - Long distance voice and data circuits and charges (\$2.7 million)
 - Rent of software programs (\$5.3 million)
 - Maintenance of multi-user computers and terminals (\$1.9 million)
 - Procurement of computer equipment (non-capitalizable) (\$1.7 million)
- Equipment costs, \$5.7 million with 92.0% of these costs due to:
 - Procurement of computer equipment (capitalizable) (\$1.0 million)
 - Purchase of computer software (\$4.2 million)

Revenues

Funding for ITSD is primarily from charges to state agencies for server and application hosting, and data/voice network services. A significant portion of ITSD's budget is Enterprise Services. Funding for Enterprise Services comes from agency charges based on a per-user allocation.

ITSD's rates are based on a full cost activity based budgeting model, the Financial Transparency Model. The program has defined nearly 200 services, allocated costs and staff time to each service, and estimated units of service provided to each agency. Rates are based on a detailed allocation of expenses and staff time to each service. ITSD uses a staff time tracking system to refine the accuracy of staff time allocation. For a wide variety of services agencies will have the choice of using the service or altering the units consumed.

Rates and the billing bases that generate major portions of ITSD revenue are listed below:

- Hosting services
 - Storage hosting rates are based on space usage
- Server hosting
 - Mainframe rates are based on actual usage
 - Mid-tier server's rates are based on a formula that accounts for the size of server, space used, and ITSD staff time required
- Application hosting
 - Rates are based on space, backup, servers used, support required, and licensing usage
- Connectivity services
 - Data network rates are based on the number of connections with Active Directory accounts on the network
 - Video services are based on conference hours
- Voice services
 - Telephone desktop equipment rates are based on type of equipment
 - Local calls are based on a flat rate
 - Long distance and toll free services are based on minutes
- Enterprise Service
 - Rate is based on the number of users with Active Directory accounts on the network

The Enterprise Services listed below are statewide in nature and agencies are required to use these services unless granted an exception in statute or by the chief information officer (CIO) due to existence of an exceptional condition.

Enterprise Services:

- Statewide continuity planning
- Information system risk management
- Enterprise security and computing systems monitoring
- Montana Information Technology Act (MITA) oversight of IT activities

- IT strategic planning and agency IT plan approval
- IT policy, standards, and procedures
- Staff support for statutory IT councils
- State chief information officer (CIO) activities
- Enterprise-wide IT procurement and contract management
- Enterprise application hosting - Citrix and Oracle
- IT training coordination
- MINE portal and mt.gov development and website hosting
- Maintenance of an active directory of computer users
- State telephone operators

Funding Sources

The following sources of funding were used to pay for the services provided by this program in FY 2010:

- General fund (39.4%)
- State special revenue (26.5%)
- Federal special revenue (17.3%)
- Other (16.8%)

Proprietary Rate Explanation

For the 2013 biennium the rates approved by the legislature are listed in Section R of HB 2. The rates approved by the legislature are the maximum the program may charge during the biennium. They are not the rates the program must charge. For reference, the approved rates are:

- Enterprise services
 - \$6,166,189 (FY 2012)
 - \$6,195,048 (FY 2013)
- Web content management - sharp content – primary domain – initial setup one-time charge
 - \$600 (FY 2012)
 - \$600 (FY 2013)
- Web content management – sharp content – sub-site – initial setup one-time per setup per sub-site domain
 - \$100 (FY 2012)
 - \$100 (FY 2013)
- GIS services – GIS data services – BMSC SSITSD managed per service per application per year
 - \$350 (FY 2012)
 - \$350 (FY 2013)
- GIS services – GIS data services – customer managed per service per year
 - \$800 (FY 2012)
 - \$800 (FY 2013)
- GIS services – direct connectivity per connection
 - \$3,600 (FY 2012)
 - \$3,600 (FY 2013)
- Voice services – dial tone per phone
 - \$13.37 per year or \$1.11 per month (FY 2012)
 - \$13.19 per year or \$1.10 per month (FY 2013)
- Voice services – installation fee to add a new phone or move an existing phone per phone
 - \$132.64 (FY 2012)
 - \$44.16 (FY 2013)
- Email – email mailbox (per email box)
 - \$46.28 per year or \$3.86 per month (FY 2012)
 - \$46.14 per year or \$3.84 per month (FY 2013)

- Operations for the remaining portion of the division with rates maintained and based upon the financial transparency model
 - 30-Day Working Capital Reserve (FY 2012)
 - 30-Day Working Capital Reserve (FY 2013)

Funding

The lottery is funded entirely with proprietary funds derived from lottery game revenues. Net revenues of the lottery are by state law transferred to the general fund. Therefore, the lottery is indirectly funded with general fund and by law its funding must be appropriated by the legislature.

Funding

This division is funded with proprietary funds. The single appropriation in HB 2 - state daycare program supported by state special revenue - was discontinued at the beginning of FY 2011.

The three programs administered by this division are shown in the following figure. The Health Care Benefits program is 95% of the FY 2013 budget and the majority of costs are medical and prescription services for plan members. The state group plan is self insured, meaning that the plan is at full risk for all medical costs. The health plan is funded by the state (employer share) and premium payments by members. The state share is \$733 per month and is established in 2-18-703(2), MCA. The state share amount is usually adopted as part of the pay plan bill (HB 13).

Total Operating Expenses	\$143,112,102	\$152,119,605	\$165,450,639	\$181,608,908	100.0%
*Operating/other costs includes dental, health screenings, life insurance, and wellness services as well as administrative costs.					
**Medical services and prescription drug benefit costs interpolated from the low inflation actuarial projection 6-30-10.					

The employer share of program funding is estimated to be \$118.4 million in plan year 2013 (calendar year) or 77% of the \$153.4 million total. General fund supports about 40% of the employer share. Premium payments are projected to be \$33.0 million and interest income about \$2.0 million.

The primary cost drivers for the state employee group benefits in the 2013 biennium are projected cost and service utilization. The proprietary budget anticipates cost increases of up to \$57.8 million over the biennium for medical and prescription drug cost and utilization increases compared to a base budget of \$101.4 million.

The remaining two programs – Flexible Spending Accounts and Workers’ Compensation Management – are just under 5% of the FY 2013 budget. Flexible spending accounts are funded from amounts deferred from pay by state employees. The flexible spending account program then reimburses state workers for eligible medical and childcare costs from the accounts. Administration of the program is funded from a monthly charge set to be \$2.26 per month in the 2013 biennium.

The Workers’ Compensation program is the central resource in working with the state workers’ compensation insurer, Montana State Fund, to coordinate workers’ compensation coverage and policy management issues. The program, assists employees and agencies in ensuring a safe working environment and, reducing on-the-job injuries and accidents in the workplace, and assists employees who are injured in returning to meaningful and productive work as possible, even if it is in a different position than was originally held. The program is supported by a charge for each payroll warrant issued by a state agency. The rate adopted in HB 2 is \$1.09 for each payroll warrant in FY 2012 and \$1.08 for each payroll warrant in FY 2013.

DP 55213 - Elimination of the Daycare Program - The legislature removed \$82,628 in state special revenue because the daycare program was discontinued at the beginning of FY 2011. The program provided funding towards the rent payments to the school district for space within the Ray Bjork building. In return, the daycare provider guaranteed a

certain number of slots to state employee children and grandchildren. The state was not able to renew the contract with the school district as this space was needed by the district. The state was not able to find an alternative space to continue the program. Therefore the program was eliminated.

Proprietary Rates

Proprietary Program Description

The rate established for the state health plan – the employer share - is established in 2-18-703(2), MCA. The rate remains unchanged from FY 2011 - \$733 per month.

The Workers' Compensation program is adopted in HB 2 and is \$1.09 for each payroll warrant in FY 2012 and \$1.08 for each payroll warrant in FY 2013.

Funding

Funding for statewide human resources rules, policies, and standards and labor relations are from the general fund. The Professional Development Center is funded with proprietary fees charged to state agencies for training services. Payroll and other human resources information systems are funded with proprietary fees charged to state agencies for payroll processing services. The proprietary funded portions of the division are not shown on the main budget tables, but are discussed in the "Proprietary Rates" section for the division.

Proprietary Rates

The State Human Resources Division provides the following functions funded with proprietary funds. These programs are described below along with a discussion of the program revenues, expenses, and rates approved to finance the programs:

- Professional Development Center (PDC)
- Human Resources Information Services (HRIS) Bureau

Professional Development Center/Training Program (Intergovernmental Training - 06525)

Proprietary Program Description

The intergovernmental training fund supports the operation of the Professional Development Center (PDC). The PDC provides training and other services, such as facilitation, mediation, and curriculum design, to state agencies on a fee basis. The use of PDC training is not mandatory for agencies that could choose from several available alternatives, such as seminars sponsored by national training firms, conferences and symposia, contracted training consultants, in-house training programs, and courses through post-secondary education institutions.

Expenses

Significant FY 2010 costs for the program were for:

- Personal services for 2.50 FTE, \$167,757 or 55.0% of total costs
- Operating costs, \$136,008 with 66.7% of these costs due to:
 - Food, \$23,543
 - Rent, \$21,535
 - Consultant contracting, \$19,876
 - Travel, \$14,160

- Printing and publications, \$11,631

Revenues

The PDC provides training services for a fee according to the following practices:

- Open enrollment trainings in which the PDC schedules, promotes, and conducts courses that are open to students from all state agencies, and other public entities. PDC charges a set fee per student for attendance depending upon the scheduled length of the training
- Contract courses in which the PDC contracts with individual agencies to provide training for its staff. The agency schedules, promotes, and provides the facility for training. PDC provides the instruction and class materials. PDC charges a flat fee, depending on the length of the training and the number of events the agency has contracted and offers a discount for multiple training events
- Facilitation, mediation, consulting, and curriculum development. PDC charges on an hourly rate basis
- Publications and meeting rooms. PCD charges on a fixed schedule

Funding Sources

The funding sources used to pay for the services provided by this program cannot be accurately estimated because the expenditure code used by agencies to record PDC training fees is used for other training costs not related to this program.

Proprietary Rate Explanation

For the 2013 biennium the rates approved by the legislature are listed in Section R of HB 2. The rates approved by the legislature are the maximum the program may charge during the biennium. They are not the rates the program must charge. For reference, the rates approved for the program are:

Open Enrollment Courses

- Two-day course (per participant)
 - \$188 (FY 2012)
 - \$190 (FY 2013)
- One-day course (per participant)

Human Resources Information Systems Bureau (Human Resources Information System – 06563)*Proprietary Program Description*

The Human Resources Information System (HRIS) Bureau operates payroll, benefits and human resources (HR) systems of the State Accounting Budgeting and Human Resources (SABHRS) to process, distribute, report, and account for payroll, benefits and associated withholding and deductions for over 13,500 state employees in the Executive, Legislative and Judicial branches. The bureau establishes and maintains standards, processes, and procedures to be followed by state agencies in preparing and submitting payroll, benefits, and related HR data into the system. The system operated by the bureau provides information and processing in support of division and statewide functions and programs including employee benefits (group insurance, FSA, deferred compensation, and pension) classification, pay, labor relations, policy, and training.

Expenses

Significant FY 2010 costs for the program were for:

- Personal services for 27.97 FTE, \$1.8 million or 50.8% of total costs
- Operating costs, nearly \$1.8 million with 77.8% of these costs due to:
 - ITSD server and application hosting, \$985,490
 - Repair for multi-user computers and terminals, \$381,936

Revenues

Revenues are derived from charges to all agencies for processing payroll and charged per employee processed per pay period.

Budget authority to pay the rent payment is a fixed cost item in agencies' budgets. The statewide fixed cost in the executive budget for the Human Resources Management System is \$298,975 lower for the 2013 biennium than the funding approved by the 2009 Legislature.

Funding Sources

The following sources of funding were used to pay for the services provided by this program:

- General fund (35.5%)
- State special revenue (29.6%)
- Federal special revenue (7.7%)
- Other (27.1%)

Proprietary Rate Explanation

For the 2013 biennium the rates approved by the legislature are listed in Section R of HB 2. The rates approved by the legislature are the maximum the program may charge during the biennium. They are not the rates the program must charge. For reference, the approved rates are:

- HRIS fees (per employee processed per pay period)
 - \$8.06 (FY 2012)
 - \$8.10 (FY 2013)

Proprietary Rates*Proprietary Program Description*

The Risk Management and Tort Defense Division administers a comprehensive plan of property and casualty insurance protection on behalf of state government. The division purchases commercial insurance, where cost-effective, to cover catastrophic losses above high deductibles. State risks that are currently insured through commercial insurance carriers include aircraft, airports, boilers and machinery, bonds (various), crime, fine art, property, professional liability, and miscellaneous. The state self-insures most commercial insurance risks under \$250,000 per occurrence as well as auto, general liability, inland marine, mobile/specialized equipment, and foster care risks. The division also provides consultative services that include training, inspections, program reviews, contract administration, claims administration, and legal defense to prevent or minimize the adverse effects of physical or financial loss. The division investigates, evaluates, and resolves tort claims, and coordinates the adjudication and settlement of other claims involving property damage.

Expenses

Significant base year costs for the program were for:

- Personal services for 16.00 FTE, \$1.0 million or 8.5% of total costs
- Operating costs, \$10.7 million with 78.7% of these costs due to:
 - Insurance claims paid, \$3.3 million with the largest paid for: 1) comprehensive general liability (\$1.4 million); and self insurance property deductibles (\$1.0 million)
 - Insurance and bond payments for commercial insurance purchased, \$2.8 million
 - Legal fees and court costs, \$1.8 million

Revenues

Montana self insures its property via this program so all state agencies pay insurance premiums to the Risk Management and Tort Defense Division. Depending upon the type of property owned and the agency's claims history, insurance premiums paid by agencies can vary.

Budget authority to pay insurance premiums is a fixed cost item in agencies' budgets. The statewide fixed cost in the executive budget for insurance does not change for the 2013 biennium from the funding approved by the 2009 Legislature.

Premiums for the 2013 biennium are apportioned based upon exposure and uniform reductions in loss experience as follows:

- Automobile - comprised of two separate components: 1) comprehensive and collision, based upon total values of reported vehicles; and 2) liability, based upon agency losses and the number of vehicles reported
- Aviation - allocated to those agencies that have aircraft based upon charges from commercial insurance carriers for each aircraft, depending on the year, make, model, and value of the aircraft, and airport premium based upon the number of airports
- General Liability - comprised of commercial coverage, which is based on commercial coverage negotiated with commercial insurance carriers and self-insured coverage
- Property - allocated to each agency based on its percentage of reported exposures (e.g. building replacement cost values, boilers & machinery, etc.)

Funding Sources

The following sources of funding were used in the base year to pay for the services provided by this program:

- General fund (17.7%)
- State special revenue (23.0%)

- Federal special revenue (4.7%)
- Other (54.6%)

Proprietary Rate Explanation

For the 2013 biennium the rates approved by the legislature are listed in Section R of HB 2. The rates approved by the legislature are the maximum the program may charge during the biennium. They are not the rates the program must charge. For reference, the rates approved for the program are:

- Auto/Comp/Collision
 - \$1,135,000 (FY 2012)
 - \$1,135,000 (FY 2013)
- Aviation
 - \$212,451 (FY 2012)
 - \$212,451 (FY 2013)
- General Liability
 - \$6,750,000 (FY 2012)
 - \$6,750,000 (FY 2013)
- Property/Miscellaneous
 - \$4,200,000 (FY 2012)
 - \$4,200,000 (FY 2013)

The legislative budget is reduced by \$1.4 million from the executive proposal. The 5% plan reductions that were utilized were also in the executive proposal. The reductions result from:

- o The Energy Promotion and Development Division was not funded, also reducing FTE by 5.00
- o The High Performance Computing center in Butte was funded at 50% of the requested level

The other significant difference from the proposed budget is in the funding source. The Primary Business Sector Training program is fully funded at \$2.0 million, but \$1.1 million is funded through the employment security state special revenue account instead of general fund.

Agency Discussion

The department receives an overall increase of \$4.4 million in the 2013 biennium compared to the 2011 biennium. Much of the increase is due to continued funding of programs that have been funded as one-time-only for several biennia. These are not included in the base budget, but are included in appropriation authority for the next biennium. 3.66 FTE regional development officer positions were eliminated by the executive in the 2011 biennium and included in the legislatively approved 5% reduction plan.

The Energy Promotion and Development Division (EPDD) is not funded, resulting in a general fund savings of \$0.9 million. Because this program had been funded previously as one-time-only neither the funding nor the associated 5.00 FTE appear in the 2011 biennium figures in the main table above.

A funding switch reduces \$0.9 million of general fund by funding the primary business sector training grants with state special revenue from the employment security account. This funding switch will require legislation to implement statutory changes to allow the department to utilize this account for this purpose.

Implementation Legislation

The legislature recommends that statutory changes be included in legislation to implement the general appropriations act to clarify and expand the uses of the employment security account. This would clarify that all apprenticeship and workforce development programs are valid uses of this account, not only in the Department of Labor and Industry, but also in the Department of Commerce.

Funding

State special revenue is the primary source of funds, and is expanded in this budget to include the employment security account. General fund supports a number of functions including technology and biomedical research programs, the Montana capital investment board, census and economic information center, tribal economic development, the Made in Montana program, regional development programs, and international relations programs. The general fund increase is primarily due to continued funding of economic development programs that had been one-time-only in the previous biennium.

General fund for the primary business sector workforce training grants was replaced with employment security account state special revenue funding in the 2013 biennium.

DP 5101 - BRD Primary Business Sector Training HB 2 OTO - The legislature approved \$1,000,000 per year to fund grant funds for new and existing Montana businesses to train new employees, on a one-time-only basis. This had been funded with general fund on a one-time-only basis in prior biennia, but the legislature approved this as a state special revenue appropriation. Implementation legislation is required for the employment security account to be used by the Department of Commerce.

DP 5102 - BRD Indian Country Economic Development HB 2 OTO - The legislature approved funding for the Indian Country Economic Development consisting of \$240,000 per year for the Indian Equity Fund, Indianpreneurship training, and administration on a one-time-only basis. Also included was \$560,000 for direct tribal payments of \$70,000 each for economic development, and 1.00 FTE associated with the program.

DP 5103 - BRD Main Street Program HB 2 OTO - The legislature approved one-time-only funding for the 2013 biennium for a program to help communities strengthen and preserve their historic downtowns by focusing on economic development through organization, design, and promotion.

DP 5112 - High Performance Computing - OTO - The legislature authorized funding for the High Performance Computing center in Butte, with a one-time-only, restricted appropriation. The intent is to provide funding for this program to become self-sustaining.

DP 55400 - 4% PERSONAL SERVICES REDUCTION - The legislature approved a 4% reduction in general fund personal services budgets that was part of the executive budget recommendations. The reduced FTE are regional development officers.

Funding

The Montana Promotion Division is funded entirely by state special revenues. The funding table above denotes that portion of the total division funding that is appropriated in HB 2. Of these funds, \$750,000 annually is from private contributions to joint private/state targeted advertising campaigns. The remaining funding is appropriated from a portion of the 4% Montana lodging facility use tax for legislative audit costs.

The portion of the division's budget that is considered by the legislature in HB 2 is less than 5% of the division's total budget for the 2013 biennium. The remaining \$34.45 million biennium budget is funded by the statutorily appropriated lodging facility use tax.

DP 95101 - 5% Plan - Reduce Private Funds - The legislature reduced the authority in the private funds matched by the state for targeted advertising. The agency included this reduction in the statutorily required plan to reduce the base expenditures of general fund and certain state special revenue funds by 5%. This reduction was reversed in DP 96101.

DP 96101 - Restore 5% - Private Funds Authority - The legislature reversed a 5% reduction by restoring authority for expenditures of private funds provided for the purpose of promoting private Montana tourism related business in venues outside Montana.

Legislative Budget Analysis, A-245

Funding

The program is funded by a combination of general fund, state special revenue, and federal special revenue.

Federal special revenue is the program's largest funding component and includes the federal Community Development Block Grant (CDBG). The CDBG funds support local economic development, public facilities projects, housing and neighborhood renewal, and grant proposal planning assistance.

State special revenue funding is dominated by grant funding for Coal Board programs that fund a variety of local governmental economic and quality of life initiatives. The Coal Board account receives revenue from a 2.9% allocation from the coal severance tax and an allocation from oil and gas production taxes. The Treasure State Endowment Program is funded by interest earnings from the treasure state endowment fund, a sub-fund within the coal tax trust fund. General fund supports the remaining administrative and operational costs of the program. The required state matching funds for the federal CDBG are provided by the general fund as well.

Funding

The Facility Finance Authority is funded entirely by proprietary funds with revenues collected from interest, fees and charges from participating institutions. There are no direct appropriations provided, nor are the rates approved in HB 2.

Proprietary Rates*Proprietary Program Description*

The Facility Finance Authority issues bonds and then uses the proceeds of those bonds to provide debt financing or refinancing at low-cost, tax-exempt interest rates for buildings and capital equipment. Customers include health care and related facilities, entities serving persons with development and/or mental disabilities, and prerelease/methamphetamine treatment centers.

National bond rating agencies, national bond insurers, and institutional investors expect the authority to reserve two years operating capital (approximately \$909,278) to assure that the authority can financially operate between legislative sessions. The total fund equity requirement for the 2013 biennium (\$13,650,111) is derived from the following reserve mandates:

- o Biennial working capital reserve - \$909,278
- o Capital reserve account (loan loss reserve) - \$10,986,171
- o Facility direct loan program reserve - \$1,754,662

Funding Sources

The program is funded with a fee charged to the entities (non state agencies) that obtain financing through the program.

Proprietary Rate Explanation

The program is funded with an enterprise type proprietary fund. As such, the legislature does not appropriate funds or approve rates for the program. The fee structure that is proposed does not materially vary from the current structure.

Funding

The programs funded through HB 2 within the Housing Division are the Housing and Urban Development (HUD) HOME Investment Partnerships program and Montana's Manufactured Home Replacement (MHR) program. The HUD HOME program is 100% federally funded. Federal funds comprise 99.5% of the HB 2 funding for the Housing Division.

Montana's MHR program provided loans to remodel manufactured homes. The program is not being continued. The 2013 biennium includes funding in the event that any prior loans are paid back and can be re-loaned.

The Board of Housing is funded by four enterprise funds with revenues derived from an administrative charge applied to projects and mortgages financed. Under the Montana Housing Act of 1975, the board does not receive any general fund, and is completely self-supporting.

Non-budgeted proprietary funds are the primary source of funding for this program.

Proprietary Rates

Proprietary Program Description

The Montana Board of Housing provides direction to the agency staff for its programs that include the Homeownership Program, Multifamily Loan Programs, Low Income Housing Tax Credit Program, Housing Montana Fund, and the Reverse Annuity Mortgage (RAM) Program.

Proprietary Rate Explanation

The program is funded with an enterprise type proprietary fund. As such, the legislature does not appropriate funds or approve rates for the program. Instead, the legislature reviews the report for the enterprise fund and identifies any concerns with the financial position of the fund.

Funding

Non-budgeted proprietary funds are the sole source of funding for this program.

Proprietary Rates*Proprietary Program Description*Unified Investment Program

The Board of Investments manages the Unified Investment Program and currently manages an investment portfolio with a market value of approximately \$12.0 billion. The board manages the portfolio under the "prudent expert principle."

In-State Investments

Section 17-6-305, MCA, authorizes the Board to invest 25% of the Permanent Coal Tax Trust Fund to assist Montana's economic development. The In-State Investment Program makes business loans from the trust fund in participation with financial institutions. The board lends Trust Fund monies to local governments to fund infrastructure that will serve job-creating businesses locating in the government's jurisdiction. The board also lends low-interest monies funded from the trust fund to value-added type businesses creating jobs. Throughout FY 2010, the board purchased Montana residential mortgages with pension funds as part of the In-State Investment Program.

*Proprietary Rates Explanation*Investment Programs

The rates approved by the legislature are the maximum the program may charge during the biennium. They are not the rates the program must charge. The maximum charge for both investment programs, as authorized in section R of HB 2, is \$4,831,041 each year of the biennium.

*Proprietary Program Description*INTERCAP Program

The board sells tax-exempt bonds and lends the proceeds to eligible governments for a variety of projects. Loan terms range from one to 15 years, and short-term loans to finance cash flow deficits or bridge financing are also available.

*Proprietary Rates Explanation*INTERCAP Program

The Intercap or bond programs are funded with an enterprise type proprietary fund. As such, the legislature does not appropriate funds or approve rates for the program. Instead, the legislature reviews the report for the enterprise fund and identifies any concerns with the financial position of the fund.

Funding

The Director's Office/Management Services Division is funded by an internal service proprietary fund from indirect costs charged to all agency programs. Non-budgeted proprietary funds provide 61.6% of the funding for this program. The Montana Council on Developmental Disabilities is entirely funded with federal special revenues. State special revenue funds the Quality Schools Program with revenues from timber harvest on common school trust lands, mineral royalties, and riverbed rental payments.

The total budget differs from the executive's proposal by about \$120,000. However, there is a significant difference in the funding mechanism, resulting in a general fund difference of \$1.9 million. The primary reason for this is a funding switch which utilizes \$1.6 million from the Employment Security Account state special revenue to fund general fund operations of the Work Force Services Division. A smaller switch utilizes just over \$200,000 of the Worker's Comp Regulation state special revenue account to fund general fund work comp related activities in the Employment Relations Division.

Agency Discussion

Overall, this budget increases by \$13.7 million in the 2013 biennium as compared to the 2011 biennium. A variety of factors contribute to this increase, including significant indirect rate adjustments throughout much of the department. Trade Adjustment Assistance federal funds are increased by almost \$1.5 million. Total reductions from the 5% reduction plan and motor pool reductions are approximately \$0.3 million.

The Employment Security Account (ESA) is a state special revenue account that collects a surcharge on unemployment insurance premiums and is used for a variety of purposes in the department, primarily job service offices, research and analysis, and unemployment insurance administration. This account had an ending fund balance for FY 2010 of \$6.3 million. In the 2013 biennium the legislature uses this account to replace general fund expenses of approximately \$1.9 million for various other workforce programs within this agency. A statutory change is included as detailed below.

Implementation Legislation

The legislature recommends that statutory changes be included in legislation to implement the general appropriations act to clarify and expand the uses of the Employment Security Account. This would clarify that all apprenticeship and workforce development programs are valid uses of this account, not only in the Department of Labor and Industry, but also in the Department of Commerce.

As part of this recommendation, the UI Tax System upgrade, which would use ESA funds for debt service, would be removed from HB 10.

Legislative Budget Analysis, A-274

Funding

Approximately 2/3 of the total funding for the Workforce Services Division is from federal special revenue. Nearly 90% of this funding is from three federal programs: the Wagner-Peyser Act, the Workforce Investment Act, and the Trade Adjustment Assistance program (Trade Act of 1974).

The majority of the state special revenue funding is from the Employment Security Account (ESA). The revenue for this account is received from an administrative assessment against payroll amounts of Montana employers. Statute enumerates the uses of the fund, including the operating expenses of the Job Service offices which accounts for nearly all of the use of the funding in this division.

General fund had supported the 21st Century Workforce program and the Research & Analysis Bureau. The legislature approved a funding switch to ESA funds in the 2013 biennium.

DP 107 - Increased Federal Grant TAA - The legislature approved an increase to the federal award for Trade Adjustment Assistance (TAA) over base expenditures of \$3,512,367 in FY 2010.

DP 110 - Unallocated General Fund reduction - The legislature approved an unallocated reduction of general fund authority to offset additional indirect costs charged against the general fund.

DP 55400 - 4% Personal Services Reduction - The legislature approved a reduction in general fund personal services budgets as a part of the 5% budget reduction plans submitted by the agencies. This was approved as a replacement to DP 95102, which had been initially approved by the legislature as submitted by the agency.

DP 78199 - Fund programs with ESA (02258) - The legislature approved a funding switch for the 21st Century Workforce program and the Research and Analysis Bureau, converting their funding source from general fund to the Employment Security Account.

DP 95101 - 5% Plan - Unspecified State Special Rev Reduction - The legislature reduced state special revenue funding from the Employment Security Account by \$2,189,936 over the biennium. The reduction includes the elimination of up to 10.0 FTE and associated operating costs. The agency included this reduction in the statutorily required plan to reduce base expenditures of general fund and certain state special revenue funds by 5%. This reduction was restored in DP 96101.

DP 95102 - 5% Plan - Comm. Coll. Student Growth reduction - The legislature reduced general fund for the Community College Student Growth Account program in the 21st Century Workforce bureau by \$157,820 over the biennium. The agency included this reduction in the statutorily required plan to reduce base expenditures of general fund and certain state special revenue funds by 5%. This reduction was reversed in DP 96102.

DP 95103 - 5% Plan - Travel and Supplies Reduction - The legislature reduced operating cost funding from the general fund by \$3,830 over the biennium for the Research and Analysis Bureau. The agency included this reduction in the statutorily required plan to reduce base expenditures of general fund and certain state special revenue funds by 5%.

DP 96101 - Restore 5% - Restore SSR authorization - The legislature reversed a 5% reduction by restoring authority for the Work Force Services Division to spend a total of \$2,189,936 in the 2013 biennium from the Employment Security Account.

DP 96102 - Restore 5% - Switched out for alternate DP - The legislature reversed a 5% reduction by restoring \$157,820 to the 21st Century Workforce Services program. This restoration was offset by a new 5% reduction that eliminates 1.00 FTE.

Proprietary Rates

Proprietary Program Description

The purpose of Montana Career Information System (MCIS) is to deliver current career and labor market information to Montanans in an easy-to-use and easy-to-understand format. MCIS is currently being funded by a College Access Challenge Grant for a wide variety of users: job service offices, vocational rehabilitation offices, high schools, community colleges, universities, tribal colleges, educational and training agencies, home use, and adult education programs. This funding pays for the majority of the expenses of the system including personal services and operating expenses outside of the optional components. The grant funding is for federal fiscal years 2011 and 2012. When the grant ends, MCIS will re-apply for the current grant funding, seek other funding or resort back to license fees for the basic system. There are currently optional components of MCIS not funded by the grant that require the program to collect fees associated with each optional component.

Expenses

The expenses of the proprietary program are limited to the operational expenses of the optional features. These are typically site specific licensing fees.

Revenues

Revenue is generated through fees for purchase of a one year optional component license.

Proprietary Rates

IDEAS Assessment: \$100 per site license per year.

Funding

The HB 2 funded functions of the Unemployment Insurance Division are the administrative and operational portions of the program's budget. This accounts for just under 7% of the total funding for the program with the proprietary claims and benefit payment functions accounting for just over 93%. The administrative and operational functions in HB2 are funded through administrative grants of federal special revenue and state special revenue from the Employment Security Account, which is an assessment charged to employers as a percentage of their payroll. The proprietary program is discussed at the end of this section.

Present Law Adjustments

The "Present Law Adjustments" table shows the changes to the adjusted base budget proposed by the legislature. "Statewide Present Law" adjustments are standard categories of adjustments made to all agencies. Decisions on these items were applied globally to all agencies. The other numbered adjustments in the table correspond to the narrative descriptions.

DP 201 - UI Indirect Rate Adjustment - The legislature approved funding to meet adjusted costs for the negotiated CAP and the Office of Information Technology (OIT) network support indirect cost rates.

DP 202 - UI Operating Increase - The legislature approved base adjustments in overtime and an increase related to workload which includes legal fees, interpreter services, Secretary of State web access charges and bank service charges. This also eliminates the amount for the UI bond payment. Final payment was made in FY 2011. The increase in operating is funded by federal and state authority, and the elimination of the bond payment is a reduction in federal authority.

Proprietary Rates

Proprietary Program Description

The Department of Labor and Industry (DLI) collects the contributions paid by employers, based on their industry or individual experience rate, to pay for their unemployment insurance. DLI expends the funds by paying unemployment insurance benefit claims.

Expenses

The expenditures are unemployment insurance benefits paid to claimants while unemployed, including federal withholding tax and child support payments the claimants have elected to be taken out of the benefit check.

Revenues

The revenues received in the proprietary fund are from unemployment insurance tax collections, federal reimbursement for claims on federal employees, military personnel, claimants in other states, and interest earnings to the Unemployment Insurance Trust Fund.

Proprietary Rate Explanation

The Unemployment Insurance Division administers the state unemployment insurance law. The proprietary rate is set in statute under 39-51-1217, MCA.

Funding

State special revenue is the majority funding source and includes revenues derived from the administrative portion of the unemployment insurance tax deposited to the unemployment security account and the worker's compensation regulation fund. Federal special revenue is primarily from administrative grants for unemployment insurance.

DP 301 - CSD Indirect Rate Adjustment - The legislature approved costs for the negotiated CAP and the Office of Information Technology (OIT) network support indirect cost rates.

Proprietary Rates

Proprietary Program Description

The cost allocation rate (CAP) must be approved by the U.S. Department of Labor which has requirements including a working capital of no more than 60 days. The rate, which is assessed to personal service expenditures, is determined by calculating the total costs of providing the services divided by the projected department personal services expenditures. The rate approved for the 2013 biennium is 8.24% for FY 2012 and 8.26% for FY 2013.

The direct rate is calculated based on the projected direct cost of services for the 2013 biennium divided by the direct hours of service provided in the 2011 biennium. The monthly indirect rate is calculated based on the projected indirect cost of services for the 2013 biennium divided by the active directory counts for the Department divided by 12 months. The direct rate request is \$42 per direct hour of service and the indirect rate request is \$161 a month per active directory for the 2013 biennium.

The Hearings Bureau rate per hour is calculated based on the projected cost of services for the 2013 biennium divided by the direct hours of service provided in the 2011 biennium. Rates are established for both administrative law judges and paralegal services are \$90 and \$50 respectively.

The Office of Legal Services rate per hour is calculated on projected costs of services for the 2013 biennium divided by the direct hours of service provided in the 2011 biennium. The rate for the 2013 biennium is \$95 per hour.

Funding

The division is primarily funded with state special revenue funds derived mainly from workers compensation regulation funds. Workers compensation regulation and workplace safety issues represent the largest share of the division's activities. General fund supports personal services and general operating expenses. The legislature approved a switch in funding for the WC Regulations Bureau and the WC Claims Assistance Bureau to the Worker's Comp Regulation Account from the general fund, resulting in the reduction from the 2011 biennium to the 2013 biennium. Federal special revenue is derived from grants related to equal employment opportunity programs and workplace safety.

DP 95105 - 5% Plan - Reduction of Silicosis Benefits - The legislature has reduced funding for the Silicosis Benefits program by \$56,920 in general fund over the biennium. The agency included this reduction in the statutorily required plan to reduce base expenditures of general fund and certain state special revenue funds by 5%.

Proprietary Rates

Proprietary Program Description

The Employment Relations Division provides for the Subsequent Injury Fund with proprietary funds.

The Subsequent Injury Fund was established in 1973 to assist disabled persons in becoming employed by offering a financial incentive to the employers who hire them. The incentive has a limit of 104 weeks of benefits paid by their Workers' Compensation carrier in the event of an on-the-job injury to the certified employee, thus minimizing workers' compensation expenses. Beginning July 1, 1999, the fund is maintained by annual assessment of all Montana Workers' Compensation insurers, including self insured employers, private insurers, and the State Fund. The asset balance is maintained at approximately \$700,000 to provide an operating balance for payment of benefits and administrative costs (39-71-901 through 920, MCA).

Expenses

The expenses of the program consist of the administration costs and benefits for qualified workers.

Revenues

The program is funded through an annual assessment on Plan 1 (Self Funded) workers compensation employers and a surcharge on premium for Plan 2 (Private sector), and Plan 3 (State Fund) employers. The assessment is based on a percentage of the compensation and medical benefits paid in Montana by each insurer the preceding calendar year (39-71-905, MCA).

Proprietary Rate

The Subsequent Injury fund rate is set by the Employment Relations Division based on the total amount of paid losses reimbursed by the fund in the preceding calendar year. Because the rate is based upon the previous calendar year's experience, future rates beyond one year are unknown.

This program is funded with an enterprise type proprietary fund. As such, the legislature does not appropriate funds or approve rates for the program. Instead, the legislature reviews the report for the enterprise fund and identifies any concerns with the financial position of the fund.

Funding

The Business Standards Division is funded almost entirely through state special revenue. State special revenue accounts are maintained for each type of licensee and professional board. Charges and fees paid by licensees are deposited to the accounts and administrative and operational expenses of the division are charged directly to the funds. A small amount of federal funds from a Country of Origin Labeling grant also supports the program.

DP 501 - BSD Indirect Rate Adjustment - The legislature approved funding to support an anticipated increase due to the negotiated cost allocation plan (CAP) and the Office of Information Technology (OIT) network support indirect cost rates. This increase is allocated among the state special revenue funds supporting the various licensing boards.

DP 503 - BSD General Operating Increase - The legislature approved state special revenue funding for operating increases.

DP 504 - BSD Consulting Increase - The legislature approved state special revenue for increases in consultant and professional services for the licensing boards.

DP 505 - BSD Data Base Maintenance - The legislature approved funding for the maintenance contract for the new Accela database system purchased in FY 2010. Total obligation for this contract is \$500,000 per year, of which \$400,000 is included in the FY 2010 base budget.

DP 506 - BSD Motorpool Reduction - The legislature approved a reduction in motor pool costs to reflect the return of one vehicle in FY 2011.

The legislature passed all of the decision packages as proposed by the executive, with the exception of one proposal in Veterans Affairs that was reduced by half, but made a biennial appropriation. A number of decisions were also made to increase the budget, including:

- o Addition of 2.00 FTE in the Youth Challenge program, to provide for part-time employees to fill in during full time employee absences
- o Restoration of the 4% personal services reduction requested by the Governor in the Youth Challenge program, Army National Guard, Air National Guard, and Disaster and Emergency Services, which added 3.40 FTE
- o Additional personal services appropriation in the Challenge program not attached to FTE

Reductions to the executive proposal were the result of 5% plan reductions in Centralized Services and Veterans Affairs.

Agency Highlights

Department of Military Affairs Major Budget Highlights	
<ul style="list-style-type: none"> ◆ The budget decreases from the previous biennium due primarily to a change in the requested level of federal special revenue spending authority related to federal grant funds ◆ 6.0 FTE fire fighter positions funded solely by federal funds are added ◆ The Youth Challenge program receives 2.00 FTE and additional personal services authority to address ongoing funding issues ◆ The state-federal funding match for the Youth Challenge program changed from 40/60 to 25/75, providing savings to the general fund ◆ Only a portion of the 5% reduction plan submitted by the agency was adopted 	

Agency Discussion

While the agency budget appears to be reduced in the 2013 biennium, there is over \$8 million in federal grants authority not available in FY 2011 that have not been appropriated in HB 2 in the 2013 biennium. Instead, the agency will add any authority for these grants in the interim through the budget amendment process. Subtracting that from FY 2011 for a closer comparison shows an increase of approximately \$2.5 million for the coming biennium as compared to the current biennium, primarily due to:

- o Statewide present law adjustments
- o The addition of 6.00 FTE in the Air National Guard Program
- o Additional FTE in the Youth Challenge Program

DP 55400 - 4% Personal Services Reduction Centralized Service - As part of the 5% global motions, the legislature approved reductions of \$46,141 general fund in each year of the biennium and 0.44 FTE as proposed by the executive.

DP 95101 - 5% Plan - General operating expense reduction - The legislature reduced operating expense authority for the program by \$16,909 in general fund over the biennium. The agency included this reduction in the statutorily required plan to reduce base expenditures of general fund and certain state special revenue funds by 5%.

Funding

A change in federal rules decreases the ratio of general fund required to match federal funding for the program. The previous biennium required a 40/60 general fund to federal fund ratio and the new rules call for a 25/75 or 1 to 3 ratio of general fund to federal funding. The result is that although the total proposed budget increases from the previous biennium, general fund as a percentage of total funding decreases.

DP 201 - Funding for ChalleNge 24/7 overtime - The legislature approved an increase of \$40,000 in each year of the biennium to support overtime and holiday salaries. These costs are zero based and not included in the program's base budget. These costs are caused because the program is required to have staff coverage 24 hours a day, 7 days a week.

DP 202 - Funding for increase in food service contract. - The legislature approved funding to cover increased food service costs for students due to a \$70,000 increase in the annual maximum amount payable for food service to the University of Montana - Western. The food service maximum is being increased from \$355,600 to \$425,600. Based on expected average enrollment of 230 students, and a cost per student of \$2,228, the maximum will be reached. Therefore, the food costs will be \$425,600 versus the previous maximum of \$355,600 included in the base.

DP 203 - Federal spending authority for Challenge training - The legislature approved federal spending authority for ChalleNge employees to participate in essential training classes required by the federal National Guard Bureau.

DP 204 - Funding for increased enrollment and education - The legislature approved funds each year of the biennium to provide for costs incurred due to increased student enrollment, restoration of services to students, and increasing educational opportunities and classroom resources.

DP 211 - Add FTE for part-time drill instructors - The legislature approved the addition of 2.0 FTE for part-time drill instructors who fill in for full time instructors who are on approved leave. Due to the nature of the job and program, supervision is required on a 24/7 basis.

DP 212 - Unallocated Pers Services offset to Vac Savings - The legislature approved funding as unallocated personal services authority to offset the inability to meet the 4% vacancy savings requirements associated with authorized FTE. Due to the 24/7 staffing requirements of this program, the program has historically been unable to meet vacancy savings, and has redirected operating expenses to cover personal services.

DP 55400 - 4% Personal Services Reduction Challenge - The legislature approved a personal services reduction of 1.50 FTE. This amount reflects the 4% personal services reduction of \$34,202 reduced by the portion of the general funded FTE that are 24/7 positions. The legislature then restored this reduction in DP 56402.

DP 56402 - Restore 5% - Personal Services 1.50 FTE - The legislature reversed a 5% reduction that had also been included in the executive budget by restoring general fund authority of \$42,435 for the 2013 biennium, and reinstated 1.50 FTE. The matching fund ratio was changed from the base year, in which the match was 40/60. This ratio change is enough to meet the 5% general fund savings for the department.

DP 95102 - 5% Plan - General Operating Expense Reduction - The legislature applied a general operating expense funding reduction to the program. The agency included this reduction in the statutorily required plan to reduce base expenditures of general fund and certain state special revenue funds by 5%. The legislature then restored this funding in DP 96102.

DP 96102 - Restore 5% - General Operating Expenses - The legislature reversed a 5% reduction that had not been included in the executive budget by restoring general operating expense authority of \$84,029 general fund authority, and \$252,079 federal fund authority.

Funding

The Army National Guard program is funded with a combination of general fund and federal funds. During the base year, general fund accounted for 9% of total funding, but increases for the upcoming biennium. This change is due to statewide present law adjustments and additional general fund support of the Missoula Armory. The funding ratio between general and federal funds depends on the nature of the activity, the use or location of the facility, and the goals of the operation.

Funding

Funding for the Disaster and Emergency Services Division is broken down roughly into three functional areas: administration and coordination, search and rescue, and grant programs.

Administrative and coordination functions are funded primarily through a 50/50 partnership between state general fund and federal revenues. Disaster coordination functions are usually funded 100% with federal funds.

Search and rescue activities are funded through state special revenue funds derived from surcharges on conservation licenses and off-road vehicle licenses.

Grant activities are dominated by federal funding. The amount of this funding that is budgeted in HB 2 varies greatly depending on the federal source and available amounts known at the time of the budget submission. This is reflected in the reduction in federal funding for the upcoming biennium from the current biennium.

The Governor is also provided a number of statutory appropriations in the event of a declared emergency or disaster. The most notable of these is the authority to authorize up to \$16 million for disaster relief. These expenditures are authorized through executive orders.

Funding

The Veterans' Affairs program is funded with both general fund and state special revenue. The primary state special revenue account receives proceeds from the sale of veterans specialty license plates. Two accounts receive a portion of all of the motor vehicle registration revenue that is deposited in the general fund each year. The Veteran's Cemeteries fund includes revenue derived from cemetery donations and plot allowances.
