

# AGENCY BUDGET COMPARISONS BY FUND

## AGENCY BUDGET COMPARISONS BY FUND

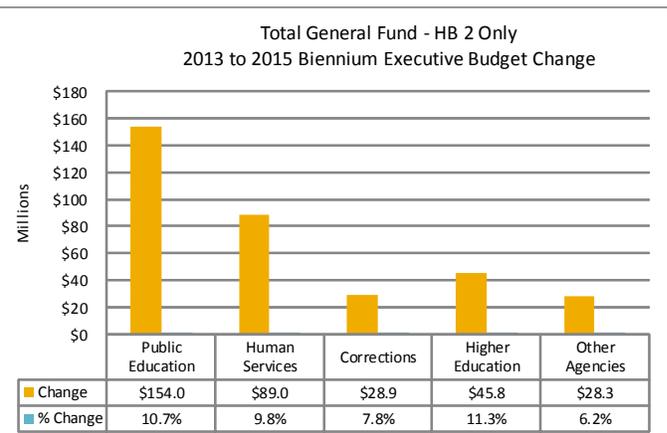

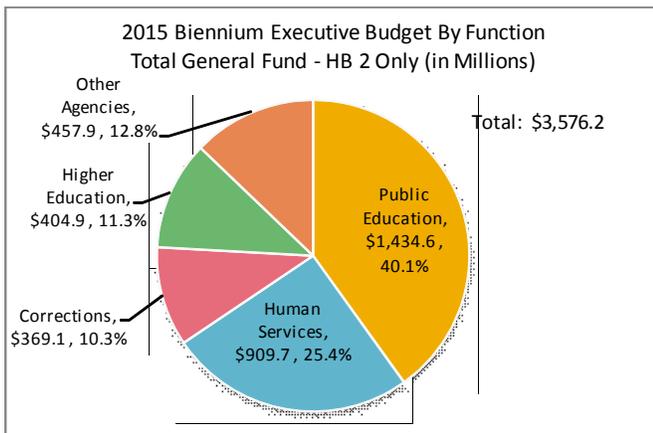

This section provides a comparison, by agency, of the Governor’s executive budget recommendations for HB 2 as compared to the 2013 biennium. For each fund type, a table shows the comparison by agency. Also included for each fund type is a pie chart showing the amount and percent of each fund by major program area, and a bar graph that shows the percentage increase by major program area. The narrative describes the primary reasons for the budget changes, by fund type.

### General Fund

As defined in 17-2-102, MCA, the general fund “accounts for all financial resources except those required to be accounted for in another fund.” The general fund provides funding for the general operations of state government.

The executive would increase general fund in HB 2 by \$346.0 million, or 10.7%. K-12 and higher education would be almost 45% of the total increase, with human services increasing the total to 70%. For most agencies, statewide present law adjustments constitute the largest increase.

Among the major changes are:

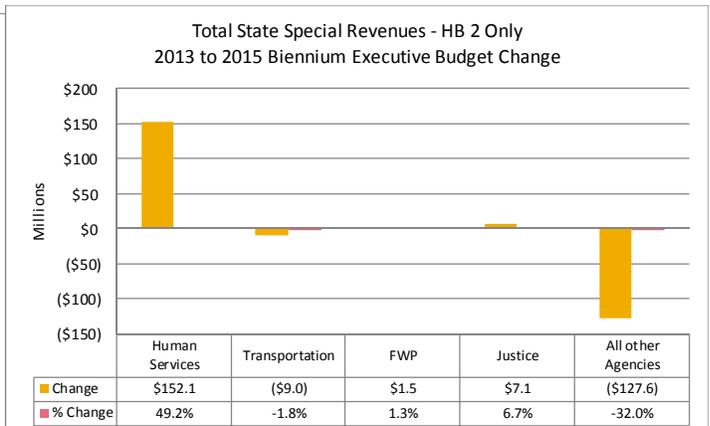

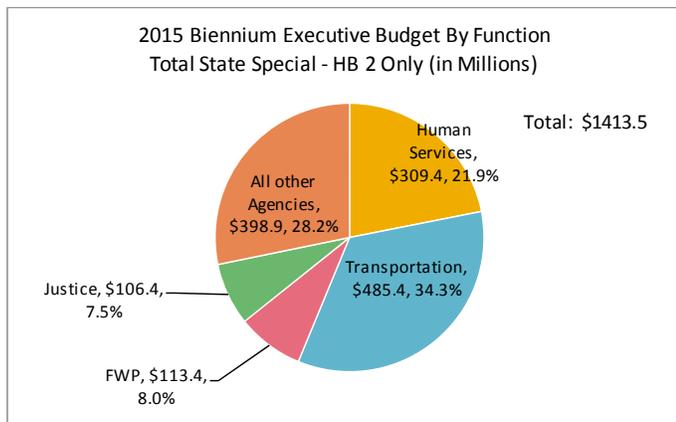

- Office of Public Instruction (OPI) Replacement of one-time guaranteed account funds and lower account estimates, Base Aid inflation, SB 372 reimbursements to school districts, and ANB adjustments and FY 2013 inflation
- Department of Public Health and Human Services (DPHHS – 6902 through 6911) – Caseload and utilization increases in various programs, most notably Medicaid
- Corrections – Annualize funding contract beds and assisted living beds, additional community corrections beds; medical costs; additional staff and career ladder, provider rate increase, and prevailing wage adjustment funding
- Higher education – Various present law adjustments funded at 82% general fund, increased community college funding
- All Agencies – Statewide present law adjustments

## State Special Revenue

As defined in 17-2-102, MCA, the state special fund “consists of money from state and other non-federal sources deposited in the state treasury that is earmarked for the purposes of defraying particular costs of an agency, program, or function of state government and money from other non-state or non-federal sources that is restricted by law or by the terms of an agreement, such as a contract, trust agreement, or donation.”

The executive would increase state special funding by 1.7%. As shown in the figure, the increases and decreases are applied to a large number of agencies.

Total House Bill 2 Proposals	\$657,209,022	\$732,157,679	\$1,389,366,701	\$708,754,660	\$704,733,027	\$1,413,487,687	\$24,120,986	1.74%

The most significant proposed change is elimination of the Insure Montana Program in the State Auditor's Office. The Department of Natural Resources and Conservation would increase due to Zortman/Landusky monitoring and reclamation, authority for rangeland loans, and various water projects.

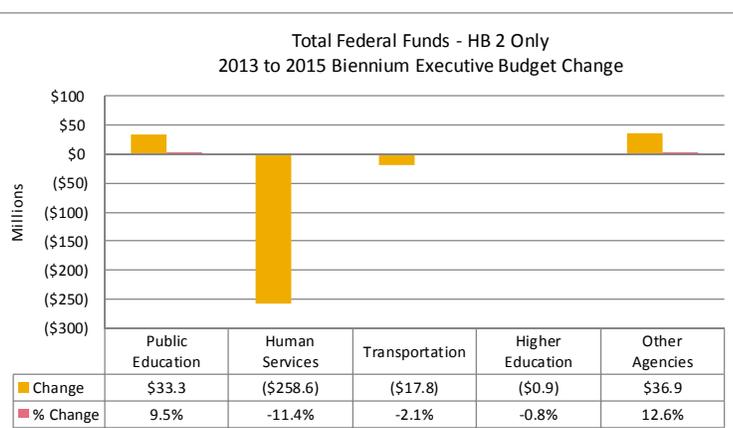

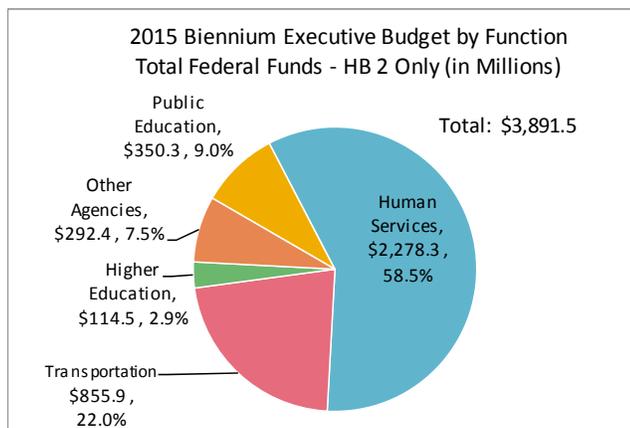

## Federal Special Revenue

As defined in 17-2-102, MCA, the federal special fund "consists of money deposited in the treasury from federal sources, including trust income that is used for the operation of state government."

The figure shows federal funds would be reduced by \$207.2 million. This reduction is primarily due to a proposed reclassification of SNAP (food stamps) in DPHHS from HB 2 to a statutory appropriation. If this factor is removed, federal funds would increase by \$203.4 million.

As shown, a number of agencies receive federal funds, but DPHHS and the Department of Transportation dominate the total, with over 80% of the 2015 biennium executive budget. If the impact of the SNAP change is removed, DPHHS would receive almost 75% of all requested increases.

Significant requested changes include:

- DPHHS – Caseload and utilization increases, 2% provider rate increase per year
- Transportation – Anticipated federal construction funds, and reductions due to the winding down of federal stimulus projects

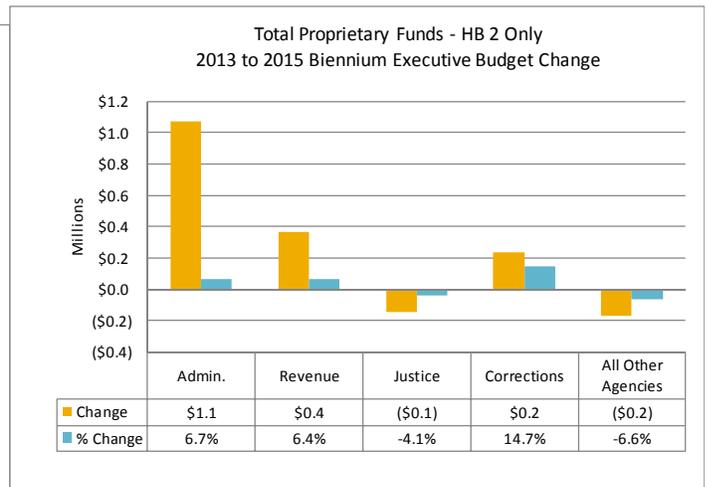

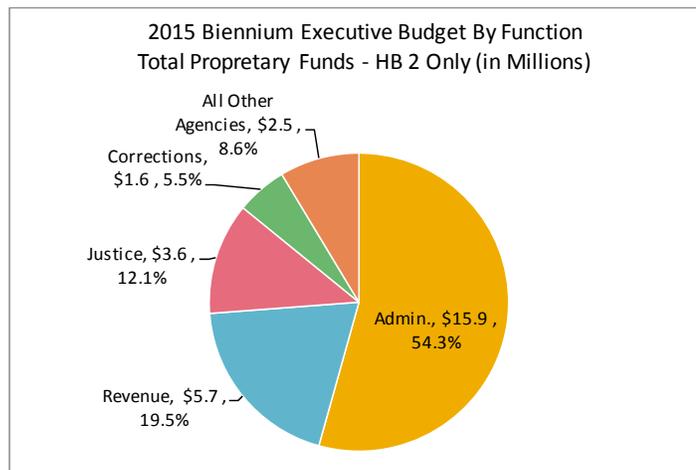

- OPI – Addition of a Montana Striving Readers Project and other increased federal grants
- Commerce – Various grants adjustments
- Military Affairs – Additional homeland security grants
- All agencies – Statewide present law adjustments

## Proprietary Funds

As defined in 17-7-102, MCA, proprietary funds are designated as either enterprise or internal service funds. Enterprise funds “account for operations: (A) that are financed and operated in a manner similar to private business enterprises whenever the intent of the legislature is that costs (i.e. expenses, including depreciation) of providing goods or services to that general public on a continuing basis are to be financed or recovered primarily through user charges; or (B) whenever the legislature has decided that periodic determination of revenue earned, expenses incurred, or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.” Internal service funds “account for the financing of goods or services provided by one department or agency to other departments or agencies of state government or to other governmental entities on a cost reimbursed basis.”

Statute does not require that most proprietary funds be appropriated. Therefore, any increases in the programs supported with these proprietary funds are not reflected in the table.
