**Subject:** Your question on Quick Start with respect to Sept. 30 2009

Matt, we met last week with others from your office and my staff and I am getting back to you on one of your questions regarding the Department of Commerce's Quick Start program as it relates to September 30, 2009. We have conferred with the Department and agree that any authorized Quick Start work done on or before September 30, 2009 will be reimbursed upon the submission of appropriate invoices and that any such submissions after September 30, 2009 will be paid as long as the actual work was done before September 30, 2009.

Hopefully this answers your question as I understood it.

Thanks,

David.
